2024 City of Newport News

Certified Crime Prevention Community

Summary of Newport News Final Report

A review of the 19 Core Elements and Optional Elements materials and discussion demonstrated that the prevention efforts of the City of Newport News are strong and proactive. This is Newport News Police Department re-certification application for the Certified Crime Prevention Communities Program.

Throughout the review, it became clear that the success of the City of Newport News prevention efforts was due to three factors: community interactions, the dedication of the Newport News Police Department personnel not only to the Police Department but to their community, program developments, and finding ways to bridge the identified gaps within their community.

The Newport News Neighborhood Watch Coalition represent collaborative efforts between residents and the Police Department to safeguard communities against crime and enhance overall safety. Acting as the central governing body, they oversee the coordinated activities of neighborhood watch groups, fostering unity among neighbors and promoting vigilance activities suspicious behaviors. In 2020, the meeting went virtual due to the COVID-19 pandemic. In 2024, the meeting returned to in person meetings.

For the reporting period, 2020-23, Crime Prevention Specialists collaborated with the Newport News Police Department and various city divisions to successfully delivered 22 out of the 35 safety lectures focused on crime prevention and safety for the citizens of Newport News. The police department engraved and spray-painted vehicle identification numbers onto catalytic converters on a total of 522 cars. As a result, Newport News has had a 65% reduction in catalytic thefts from 2022-23.

On June 1, 2021, neighborhood watch groups and the police collaborated on a new program called "Paws on Pavement." Police officers are teaming up with neighborhood watch groups and their K9's for some exercise and conversations about ways to keep citizens safe. The group of 21 citizens and officers came out with 5 canine friends for brief introductions followed by a half hour walk.

They have addressed violence with the following community initiatives Homicide Support Group, established in 2019 and the Community Coalition against Domestic Violence established in 2023. In 2023, members of the group organized Gun Violence Awareness Walk, joined by the police department, chaplain, and members of the Newport News Fire Department, Mayor, and concerned citizens. As the Latino population in Newport News continues to expand, the Hispanic Citizens Police Academy has been introduced to empower community members.

The police department uses several social media platforms. During the 2020-23 timeframe, Facebook continued to be the most widely used platform for the police department with over 49,500 followers. Posts on these outlets centered around department-related activities. Citizen Crime Line Tips have helped the police department solve multiple homicides, bank robberies and other violent crimes. In 2023, included the largest drug bust in history of the Virginia Peninsula Crime Stoppers organization, as on tip led to the confiscation of more than $2.4 million in illegal drugs. Between 2020-23 there were 2,287 tips received, 87 arrests, and 246 charges filed.

In 2019, the police department established the Homicide Support Group to provide an environment of support for those suffering from the loss of a loved one taken by violence. In 2022, they hired a Domestic Violence Specialist to bridge the gap between law enforcement and victim support. In 2023, they launched the Community Coalition against Domestic Violence. In 2021, they launched the Serving Our Seniors program and in 2023 the program fizzled out.

The Newport News Police Department Crime Analysis Unit has grown from t3 analysts prior to 2020 and 9 analysts in 2024. The unit is decentralized around the police department with the analysts embedded within detectives in each of the units they are assigned. They are in the process of training all 9 analysts in ArcPro/GIS. ESRI ArcGIS became a non-supported platform in 2024. During

COVID-19 pandemic opened the opportunities of trainings like TEAMS and Zoom meetings, which allowed for some virtual trainings.

The Newport News Public Schools participates in the Virginia Center for School and Campus Safety school audits annually and has successfully recertified in all areas. The last such audit includes re-certification in 2023. The safety of the students, staff, and visitors is paramount within their school system. Unfortunately, there have been 3 tragic incidents this reporting period at Heritage High School, parking lot of Menchville High School, and Richneck Elementary School.

The Business Watch fosters a collaborative relationship between local business and law enforcement. By sharing information, providing mutual support, and employing preventive measures, businesses help deter crime and enhance the overall security of the area. During the reporting period, a total of 102 initiatives were undertaken. A pattern where many assaults and property crimes were being committed by individuals previously banned from local businesses was identified. Officers developed a Problem Oriented Policing Project focused on the recurring problem of trespassing by banned individuals. During the response phase, the officers made 19 arrests for criminal violations related to trespassing. Officers conducted 10 security assessments. Due to an 8%-12% increase of violent

activities, cameras were installed. JC Penney was targeted to reduce larceny/shoplifting crimes, achieving a 24% reduction.

Through 2021-23, the Newport News Victim Services has served over 3,800 victims of crime in the city of Newport News, with an average of approximately 1,290 victims each year. During the reporting period, they have maintained 23 MOU's with partnering organizations that provide support and services to the victims. In addition, they collaborated with a new program Riverside Health Systems, Hand in Hand Program. The team began meeting in 2019 and met on a bimonthly bases to discuss cases where there was a high risk of lethality. The team included the Victim Witness Unit, commonwealth's attorney, Newport News Police Department, Newport News Sheriff's Office, the Hampton/Newport News Criminal Justice Agency, and Newport News Probation and Parole. In 2019, the Virginia Victim Assisted Network began hosting meetings in partnership with the Newport News Victims Services Unit between 2021-23 there was 38 meeting with 53 participants.

Teamwork-Options-Pathways receives referrals from various agencies and individual sources. Between 2020-23 there has been 484 families referred to the program, 320 youth received direct services, and 225 youth received indirect services. In 2020, there was a decrease in referrals due to the COVID-19 pandemic and several position vacancies with the CFD team. The program

provides intensive wraparound case management services for families experiencing various challenges. Between 2021-23 there were 307 CHINS referrals.

The Newport News Police Department was CALEA reaccredited in 2020, remains one of a few Tri-Arc agencies in the United States, Canada, and Mexico. They have been CALEA accredited since 1986.

The TRIAD/SALT initiative aimed to educate and empower seniors, successfully reached 801 seniors this reporting period. They held 6 CarFit and 74 seniors were properly "fitted" for their vehicles. They offered a total of 23 program and activities for senior citizens to include CarFit events, health fairs, Citizen Police Academy for Seniors, forums, and Safety Summits with a total of 2,694 participants.

In 2023, their National Night Out was a tremendous success, with 11 business. The had a total of 43 events this reporting period. There were 16 events in 2021, 13 events in 2022, and 14 events in 2023.

During this reporting period, there have been a total of 2,287 tips to the Newport News portion of the Virginia Peninsula Crime Line Program (formerly the Peninsula Crime Line), resulting in 87 arrests. Three homicide cases were cleared. In 2 instances, tipsters provided the location of a homicide suspect who had warrants on file, who were later arrested due to this information. In a third

case, a tipster provided the identity of the perpetrator of a homicide, and the suspect was later charged and arrested.

The Young Adult Police Commissioners Program is a key component of the Newport News Police Department's outreach efforts to youth in their community and school system. 24 students are slotted to be in the program which includes from each grade level in the city 6 High Schools. Over 70 students have spent time in this program learning different aspects of the police department through hearing and seeing firsthand from members of the various units and services offered during this reporting period.

For this reporting period, 196 citizens enrolled in 1 of the 3 annual Citizen Police Academy classes. While the police department did not proceed with launching a Citizen Police for Clergy, they initiated a faith-based initiative to engage with clergy members monthly. Although this effort eventually fizzled out approximately within 6 months.

The Crash Reconstruction Team, comprised of police officers with advanced motor vehicle crash investigation and reconstruction skills, meticulously investigates all fatal crashes on city streets and those involving city equipment operated in emergency mode conducted 71 serious and complex crash investigations, of which 36 were fatal.

The CJA conducted 3,372 tests on Pretrial individuals from 2020-23. Of these, 68% were negative in FY21, 73% in FY22, and 77% in FY23. They have reviewed their SOP's recently to try and improve their rate up to and past the 80% goal. They achieved an overall Court appearance rate of 88% in 2021-23.

The intent of this document is to provide a summary of the City of Newport News Re-Certification Certified Crime Prevention Community Final Application. The entire City of Newport News Re-Certification Certified Crime Prevention Community Final Application is following this document.

CORE ELEMENTS

CORE I:

NEIGHBORHOOD WATCH COALTION

I: Neighborhood Watch Coalition

Old Goal and Objectives:

Goal: To rebuild the Neighborhood Watch Coalition in order to continue to improve services to the community and support the philosophy of community policing.

Objective 1.
In an effort to reorganize the Neighborhood Watch Coalition, a new constitution and by-laws will be made and presented to the Coalition members for approval by end of 2020.

Objective 2.
The Neighborhood Watch Coalition will abide to the constitution and by-laws by having an audit completed by means of an internal audit conducted by the City of Newport News by 2021.

Objective 3.
The Neighborhood Watch Coalition will establish other means of conducting meetings in the event of catastrophic events (pandemic, hurricanes, storms, etc.) in order to effectively communicate with its members by end of 2020.

Program Accomplishment

In 2022, as COVID-19 began to subside and the world started to reopen, the neighborhood watch coalition meetings also resumed. The in-person meetings gradually restarted, and we were able to hold the Neighborhood Watch Coalition conference on October 8, 2022, at the Holiday Inn located at 980 Omni Blvd, Newport News, Virginia, with approximately 120 attendees. The conference was a success, with vendors from across the City of Newport News providing resources to the community about their services. Some of the topics covered by vendors included security systems, mental health, early childhood education, and entertainment. In 2023, the neighborhood watch coalition had its second conference at a same location with approximately 100 attendees. Vendors presented topics such as CRASE (civilian response to active shooter events), school safety, and the Community Youth and Outreach Division. As we approach the upcoming Neighborhood Watch Coalition conference, we anticipate having more vendors and resources to assist the citizens of Newport News.

Program Evaluation

The Newport News Neighborhood Watch Coalition represent collaborative efforts between residents and the Newport News Police Department to safeguard communities against crime and enhance overall safety. Acting as the central governing body, they oversee the coordinated activities of neighborhood watch groups, fostering unity among neighbors and promoting vigilance in reporting suspicious behaviors. By joining the Newport News Neighborhood Watch Coalition, individuals contribute to community safety while enjoying the reassurance of proactive involvement. Operating through a structured framework, appointed block captains facilitate communication and organize initiatives at the grassroots level. Moreover, a core leadership team ensures the effectiveness of the coalition's operations, ensuring alignment with its overarching objectives.

The objective of reorganizing the Neighborhood Watch Coalition by creating a new constitution and by-laws for presentation and approval by coalition members by the end of 2020 was not met due to several factors. Firstly, the process of drafting and finalizing a new constitution and by-laws is time-consuming, requiring thorough deliberation, and consensus-building for the citizen who serve on the board. Delays arose during this process, as there were differing opinions among coalition members regarding the content of the proposed documents. Additionally, unforeseen challenges such as the COVID-19 pandemic disrupted planned meetings and activities, hindering progress towards achieving the objective within the specified timeframe. Restrictions on gatherings and limitations on in-person interactions impeded the coalition's ability to convene and work collaboratively on revising the constitution and by-laws.

Despite the setback in achieving this goal, the decision by board members to implement new by-laws demonstrates a commitment to improving the Neighborhood Watch Coalition and advancing its mission. Moving forward, the coalition acknowledges it will be important for them to learn from the challenges encountered during this process and to establish clearer timelines, allocate resources effectively, and foster greater collaboration among members to ensure the successful completion of future objectives. The Coalition is actively planning to revise the by-laws in the near future, aiming to enhance its governance structure and operational effectiveness.
The Newport News Neighborhood Watch Coalition aimed to undergo an internal audit conducted by the City of Newport News by 2021, with a desire to uphold the constitution and by-laws.

However, due to unforeseen circumstances arising from the global shutdown caused by the COVID-19 pandemic, the coalition faced challenges in meeting this target. Despite efforts to adhere to the timeline, such as the most recent audit conducted from July 1, 2016, to September 30, 2018, the pandemic-induced disruptions led to a gap in service. Consequently, the coalition

was unable to complete the audit by the expected date. Moving forward, the coalition remains committed to ensuring accountability and transparency by aiming to have an audit conducted in

2024, aligning with its goals and responsibilities outlined in the constitution and by-laws. This delay underscores the need for the coalition to reassess its approach, considering the lingering effects of the pandemic and implementing contingency plans to ensure timely compliance with audit requirements in the future.

Due to the global outbreak of COVID-19, in-person meetings were canceled February 2020 to mitigate the spread of the virus. In response, a Zoom account was created to enable neighborhood watch members to attend meetings virtually, held on the second Monday of each month from 6:00 pm to 8:00 pm. The Zoom account remains active, facilitating meetings for members unable to attend in-person. Additionally, meetings are recorded for those unable to attend, allowing them to view the proceedings later. In the event of a major catastrophic event, Zoom meetings will serve as the primary communication channel for the neighborhood watch coalition members, ensuring continued development and cohesion within the coalition during challenging times.

For the reporting period, 24 Zoom meetings took place and approximately 15 to 20 Neighborhood Watch Coalition members attended per meeting. In January 2023, in person meetings returned and were held once a month with approximately 22 Neighborhood Watch Coalition members in attendance were held once a month at the Newport News Police Department Headquarters. Some of the topics covered during Neighborhood Watch Coalition meetings were: CPTED (Crime Prevention through Environmental Design, CRASE (Citizen Response to Active Shooter Scenario), Homeless Awareness, Safety Presentations, Domestic Violence Prevention and Awareness, Senior Safety and various topics related safety.

In conclusion, while facing challenges such as the COVID-19 pandemic and logistical hurdles, the Newport News Neighborhood Watch Coalition remains steadfast in its commitment to enhancing community safety and cohesion. Despite setbacks in meeting certain objectives, including the reorganization and audit processes, the coalition's resilience and dedication to improvement shine through. Moving forward, the coalition will continue to learn from experiences, refine its strategies, and foster greater collaboration among members to ensure the successful accomplishment of future objectives. By adapting to changing circumstances, embracing innovative solutions like virtual meetings, and maintaining a focus on its core mission, the Newport News Neighborhood Watch Coalition stands poised to strengthen its impact on community safety and well-being in the years ahead.

New Goal and Objectives:

Goal: To rebuild the Neighborhood Watch Coalition in order to continue to improve services to the community and support the philosophy of community policing.

Objective 1.

Increase the number of vendors attending the Neighborhood Watch Coalition conference each year by two to provide resources to the citizens of Newport News.

Objective 2.

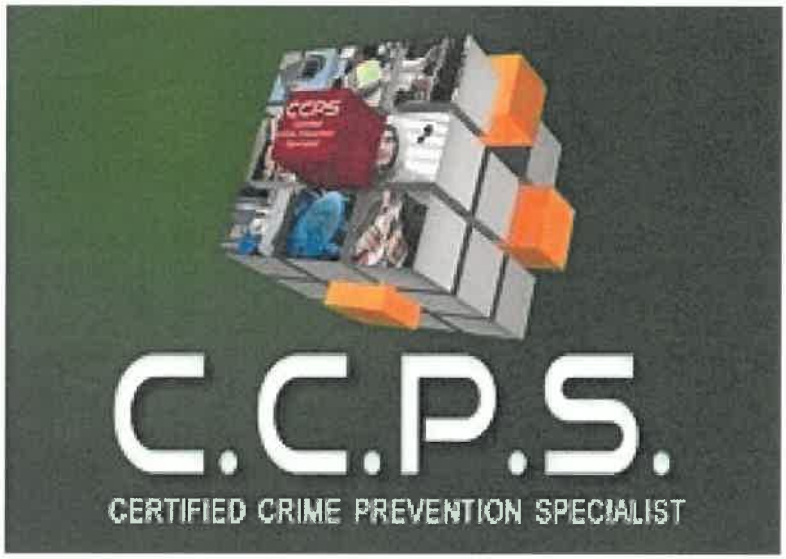
The Neighborhood Watch Coalition in partnership with the Community & Youth Outreach Division will host a back to school event annually to give back the citizens of Newport News.

Objective 3.

The Neighborhood Watch Coalition in partnership with the Community Youth & Outreach Division will participate annually in a "Clean the Bay" event, for the next 3 years.

CORE II:

CRIME PREVENTION SPECIALISTS



II. Crime Prevention Specialists

Old Goal and Objectives:

Goal: The Certified Crime Prevention Specialist will provide community-based crime prevention services to the public so they may feel safe and secure in their neighborhoods.

Objective 1.
Provide 35 lectures annually on crime prevention to the citizens of Newport News.

Objective 2.
Provide at least 6 CRASE trainings to new City of Newport News employees each year.

Objective 3.
Crime Prevention Specialists will review and comment on 40 building plans (site plans) annually.

Program Accomplishment

Crime prevention is a collective responsibility that extends beyond law enforcement to encompass the entire community. Every individual, from residents to business owners, has a part to play in creating a safer environment. By staying vigilant, reporting suspicious activities, and fostering strong community relationships, we can all contribute to reducing crime. For example, the issue of catalytic converter theft has been on the rise. In response, the Newport News Police Department held regular VIN etching events throughout 2023 to deter theft and assist in recovery. During the course of the year, the Newport News Police Department engraved and spray-painted vehicle identification numbers onto catalytic converters on a total of 522 cars. This proactive measure not only helps deter thieves but also aids in the recovery of stolen converters. As a result, Newport News has had a 65% reduction in catalytic converter thefts form 2022-2023. Active participation in local safety initiative such as these, neighborhood watch programs and community meetings, citizens become empowered to work together towards a common goal. When everyone takes an active role in crime prevention, the combined efforts lead to a more secure and thriving community for all.

Program Evaluation

A Crime Prevention Specialist is a professional who specializes in developing and implementing strategies, programs, and initiatives aimed at reducing crime rates, enhancing public safety, and improving the overall quality of life in communities. Their main objective is to prevent criminal activity before it happens, rather than reacting to them after the fact. To effectively carry out their responsibilities, Crime Prevention Specialists may work in collaboration with various stakeholders, including law enforcement agencies, local government, community organizations, and citizens. Their duties often include developing and implementing crime prevention programs, conducting security assessments, providing safety education and training, and coordinating community outreach efforts; research and analysis, program development, community engagement, education and training, evaluation and reporting, collaboration, and public relations.

Crime Prevention Specialists play a pivotal role in enhancing community safety by educating citizens on crime prevention measures. Their invaluable contribution empowers individuals and communities to proactively safeguard themselves against potential threats, fostering a safer and more resilient society.

For the reporting period, 2020 to 2023, Crime Prevention Specialists collaborated with the Newport News Police Department and various city divisions to successfully delivered 22 out of the 35 safety lectures focused on crime prevention and safety for the citizens of Newport News. Despite not reaching our initial goal due to the impact of the COVID-19 pandemic on in-person presentations, we are proud of the progress made. Below is a comprehensive list of completed safety presentations:

1. Enough is Enough Awareness Video-October 2021
2. Environmental Program Presentation April 2023
3. Safety Presentation-November 2023
4. Safety Lecture-September 2023
5. NNPS Admin Safety Presentation-September 2023
6. Cadets-Career Planning-Safety Presentation- October 2023
7. Empower Black Girls-Dating Safety, Social media safety, Being Safe in the neighborhood-October 2023
8. Cadets-Midtown Community Center-Health and Awareness Presentation-November 2023
9. Neighborhood Watch meeting - October 2022- Crime prevention/Halloween Safety
10. Safety Fair for Christopher Newport University Students-March 2023
11. Safety Fair for Students for Christopher Newport University-March 2022
12. Ruritan Club-I-Hop in Denbigh-Environmental Program Presentation
13. Environmental Program and Safety Presentation-Shore Park Tabernacle Baptist Church-May 2023
14. Situational Awareness Active Threat-Members of HR Commissioners Conference-March 2023

15. Newsome Park Situational Awareness and Safety-February 2023
16. Shore Patrol-Downing Gross-Environmental Safety Presentation-January 2023
17. Clark Neighborhood Watch-Environmental Safety Presentation-October 2021
18. CUFA-March 2021-Zoom-Citizens United for Action
19. CUFA-Feb 2021-Zoom
20. Safety and Security ideas Community Bible Church- Harpersville Road – August 2020
21. Safety and Security presentation to Providence Baptist Church- June 2020
22. Work Place Safety for Rouse Towers employees- January 2020

When the new objectives were formulated, the department boasted a team of three Crime Prevention Specialists. At the time, the set goals were within reach. However, the team encountered a setback when one specialist was reassigned as a school resource officer, and another took on the role of an Environmental Resource Officer. As a result, the remaining specialist requires additional support to achieve the objectives and manage increased responsibilities brought on by the onset of COVID-19. Although, as a department we were not able to complete 35 safety lectures for the fiscal years of 2020 through 2023, we were able to complete a significant amount of lectures to help educate the citizen of Newport News on safety and other important topics.

Throughout the reporting period, Crime Prevention Specialists diligently conducted numerous CRASE (Civilian Response to Active Shooter Events) presentations across the city, aimed at educating both the public and city employees on how to respond effectively in the event of an active shooter situation. However, due to the COVID-19 pandemic and associated risks, these presentations were temporarily suspended at the beginning of 2020. Upon the resumption of safe in-person meetings in March of 2022, the city resumed conducting two CRASE presentations per month.

Additionally, Crime Prevention Specialists have provided CRASE trainings to new employees, churches, businesses, schools, and other organizations upon request. On average, approximately 24 CRASE presentations were conducted each year for new employees, as mandated by the City of Newport News for all new applicants, regardless of their position. These presentations equip new employees with essential knowledge for responding to active shooter or mass casualty events.

From 2020 to 2023, our department successfully conducted 45 CRASE training programs not only for City of Newport News employees but also for numerous schools, churches, businesses, and other organizations that sought training from the Police Department. By offering these trainings in diverse locations, our aim is to foster closer collaboration between Law Enforcement and the community, allowing community members to share crime trends and concerns with law enforcement personnel.

Year	Number of CRASE Presentation	Type of meeting
2020	8 classes	In-person
2021	11 classes	In-person/ virtual
2022	15 classes	In-person/ virtual
2023	11 classes	In-person
	Total: 45 classes	

In addition to conducting lectures and CRASE presentations, crime prevention specialists also fulfill a crucial role in reviewing and advising on site plans to bolster security measures and mitigate potential risks. These site plans are detailed architectural drawings that provide an overview of properties or development projects, encompassing structures, landscaping, parking areas, utilities, and other important features. Over the past three years, Crime Prevention Specialists diligently completed two to five site plans per month either in-person or via Zoom.

These plans vary in size, ranging from small infrastructures to new and established businesses within the City. With the onset of the COVID-19 pandemic, site plan reviews shifted to Zoom meetings in the beginning of 2020, offering a convenient alternative to in-person sessions. As former members of the City of Newport News Site Plan Commission, Crime Prevention Specialists convened with the committee every Tuesday of the month at 2 pm, either at City Hall or via Zoom. In 2020, approximately 12 site plans were completed although the attendance rate was affected by the gap in service and the COVID-19 outbreak. Unfortunately, we fell short of our initial goal of completing 40 site plans per year due to the impact of COVID-19 and the transfer of two Crime Prevention Specialists. As a result, the responsibility for completing all site plans rested on just one Crime Prevention Specialist.

Below is a table detailing the years, number of site plans reviewed, and the type of meetings attended:

Year	Number of Site Plan	Average type of meeting
2020	12	In-person/ Zoom
2021	31	In-person/ Zoom
2022	38	In-person/ Zoom
2023	39	In-person/ Zoom
	Total: 120 plans	

In essence, the meticulous approach taken by crime prevention specialists in conducting lectures, CRASE trainings, and reviewing site plans underscores the critical importance of proactive measures in enhancing community safety and resilience against potential threats.

New Goal and Objectives:

Goal: The Certified Crime Prevention Specialist will provide community-based crime prevention services to the public so they may feel safe and secure in their neighborhoods.

Objective 1.
Visit 3 Newport News Public Schools and incorporate Crime Prevention Strategies within Criminal Justice Programs at least 3 per year.

Objective 2:
Conduct 5 CRASE training to faith based organization each year.

Objective 3:
Crime Prevention Specialists will work with clergy members within the City of Newport News to give at least 6 presentations annually on new crime trends.

CORE III:

NEIGHBORHOOD WATCH

III. Neighborhood Watch

Old Goal and Objectives:

Goal: Continue to expand and communicate with our Neighborhood Watch Groups to further the department's crime-reduction and community outreach strategies.

Objective 1.
Have two subject matter expert guests speak on crime prevention approaches and strategies per year at the Neighborhood Watch Coalition meetings.

Objective 2.
Develop a grant program by 2020 that allows active Neighborhood Watch Groups to receive up to $500 towards crime prevention equipment. Assist groups in applying as needed annually.

Objective 3.
The respective Neighborhood Watch Group's liaison will present crime statistics to each Neighborhood Watch Group twice per year.

Program Accomplishment

On June 1, 2021, neighborhood watch groups and the police collaborated on a new program called "Paws on Pavement." Newport News officers are teaming up with neighborhood watch groups and their furry friends for some exercise and conversations about ways to keep citizens safe. The new initiative was called "Paws on Pavement" and was recently piloted in the Shore Park neighborhood. The group of 21 citizens and officers came out with five canine friends for brief introductions followed by a half-hour walk. The goal of the program is to encourage individuals to get to know their neighbors while also learning to identify and report criminal, community, and quality-of-life issues.

Participating officers pointed out potential problems they saw, such as overgrown bushes or trees that might get in the way of sight, according to Capt. Tietjens, commander of NNPD's Community & Youth Outreach Division. "It's situational awareness. That's what we're trying to create," he said. Officers also explained how to report quality-of-life issues online or through the NNVA 311 app, as well as how to report minor criminal offenses through NNPD Online.

Captain Dunbar said he got the idea for the initiative from a similar program in Spokane, Washington. He hopes to empower members to take ownership of their communities while walking their pets in their neighborhoods and parks.

"We're taking advantage of the time they're already out in the community," he said. "This is putting the ownership power of the neighborhood back into the hands of the citizens. The walks are short and informal, and there are no set rules. Attendees do not even have to walk dogs. Officers also hope to create other groups with joggers, cyclists, and others who exercise outside. They want to connect people with common interests who have a shared investment in their neighborhoods".

While officers plan to exercise with the neighborhood watch groups about once a month, they hope citizens will meet up with their neighbors more often. "These 21 people can splinter off and have smaller walks on their own," Tietjens said. Residents began not showing up and after several months of trying to get the program reestablished, the program dissolved in 2023.

Program Evaluation

A Neighborhood Watch is a community-led initiative that aims to prevent crime and promote safety in a specific neighborhood. The program encourages citizens to actively monitor their neighborhoods for any suspicious activity and report it to their local law enforcement agencies. It emphasizes the importance of communication, collaboration, and vigilance among neighbors to ensure the safety and security of their community. The primary objective of a Neighborhood Watch is to deter crime by increasing the visibility of community members who are vigilant and observant. By fostering a sense of cooperation and communication among neighbors, the program aims to:

- *Encourage residents to report any suspicious activities they observe to law enforcement agencies.*
- *Educate residents about crime prevention strategies and techniques.*
- *Promote a sense of ownership and responsibility for the neighborhood's safety and security.*
- *Strengthen the relationship between law enforcement agencies and the communities they serve.*

At the Neighborhood Watch Coalition (NWC) meetings, community members gather to engage with expert speakers on a diverse range of topics crucial to enhancing community safety and awareness.

The Neighborhood Watch Coalition is actively enhancing community safety efforts by hosting presentations from subject matter experts on various pertinent topics. These include discussions on domestic violence, Crime Prevention through Environmental Design (CPTED), holiday safety tips, and other relevant issues. Each month, the Coalition informs the community about the upcoming guest speaker and their topic through a postcard mailing. Below is a table highlighting several of the presentations given by *"subject matter experts"* for the reporting period:

Date	Presenter	Topics
September 14, 2020	Cheryl Chavers	Domestic Violence
October 12, 2020	Chief Steve Drew	Community and Law Enforcement Relationship
August 9, 2021	Catalyst Community Care and Action Team	Light Up the Dark Program
June 14, 2021	Delegate Shelly Simonds	Upcoming Energy Legislation Impact
May 14, 2022	MPO Valerie Young	Fraud
October 10, 2022	MPO Donald Greathouse	CPTED Part I
March 12, 2023	MPO Donald Greathouse	CPTED Part II
February 13, 2023	Nyoka Hall	Newport News Zoning Administration

The mini-grant program has existed for quite a few years. However, in January 2020, members of the Neighborhood Watch Coalition Board gathered to discuss improving the process. As a result, a revised version of the mini grant program was developed. The board presented the proposed

changes to the membership and they voted to increase the amount for grants from $350 to $500. The board also educated all neighborhood watch groups on the changes and the steps on applying for grants, *as this was not clear in years past*. Neighborhood watch groups can now purchase more items to help prevent crime and ensure community safety.

The Neighborhood Watch Coalition's mini-grants initiative aims to support grassroots efforts addressing various aspects of community safety, from organizing patrols to implementing Crime Prevention through Environmental Design (CPTED) strategies and hosting educational workshops. The Coalition encourages neighborhoods to present creative proposals highlighting their commitment to building safer, more resilient communities. Some examples of eligible projects would be:

1. Neighborhood Safety Workshops: Funding for workshops addressing topics such as personal safety, home security, and emergency preparedness.

2. Community Awareness Campaigns: Support for campaigns raising awareness about crime prevention measures, neighborhood watch programs, and available resources.

3. Neighborhood Improvement Projects: Grants to fund initiatives aimed at enhancing the physical environment of neighborhoods to deter criminal activity, such as installing lighting, signage, or landscaping improvements.

4. Youth Engagement Programs: Funding for initiatives that engage young people in positive activities, mentorship programs, or youth-led safety initiatives.

The process for applying for grants is as follows:

(1) Neighborhood Watches can obtain the application from the Newport News Police Department Headquarters at 9710 Jefferson Avenue, Newport News, Virginia 23602.
(2) Once completed, submit the application to the Community Youth and Outreach Division, formerly known as the Community Programs Unit.
(3) The Coalition Board then reviews the application and votes on approval or disapproval, including a vote sheet with their decision. Following approval, the Neighborhood Watch Coalition Executive Board's secretary submits a purchase request.
(4) If approved, submit all necessary documentation to the Administrative Technician of the Community Youth and Outreach Division for processing.

The NWC Mini-Grants program represents a valuable opportunity for our community members to take an active role in shaping the safety and well-being of their neighborhoods. By providing financial support and resources, the Neighborhood Watch Coalition aims to empower local initiatives to make a meaningful impact in reducing crime, fostering a sense of unity, and building stronger, safer communities. Together, let us work towards creating a safer future for all citizens.

Below are some significant reasons why these mini-grants are essential:

In 2021, the following Neighborhood Watch groups received mini grants: ***Shore Patrol Neighborhood Watch group*** $169.64, used to purchase yard signs. ***Wendwood Neighborhood Watch group*** $202.81 for cameras and cable locks. They were also issued two other grants: one for $32.99 for a camera security box and one for $129.99 for a memory card for cameras. ***Riverside Neighborhood Watch group*** $378.29 for onsite security hardware.

In 2022, the following Neighborhood Watch groups received mini-grants: ***Shore Patrol Neighborhood Watch group*** $487.32. They purchased neighborhood watch t-shirts for their group for National Night Out. ***Legacy Square Neighborhood Watch*** $422.04 for a 30 piece light set. They received a second grant for $344.94 for light bulbs. ***Miller's Cove Neighborhood Watch*** $199.95 for keychains with whistles.

In 2023, the following Neighborhood Watch received mini-grants: ***Salters Creek Neighborhood Watch*** group $496.00 for T-shirts. ***Shore Patrol Neighborhood Watch*** group $489.77 for hats. ***Windsor Great Park Neighborhood*** Watch $350.24 for a water leak detector. For the reporting period, a total of $3,704.16 was awarded to neighborhood watch groups.

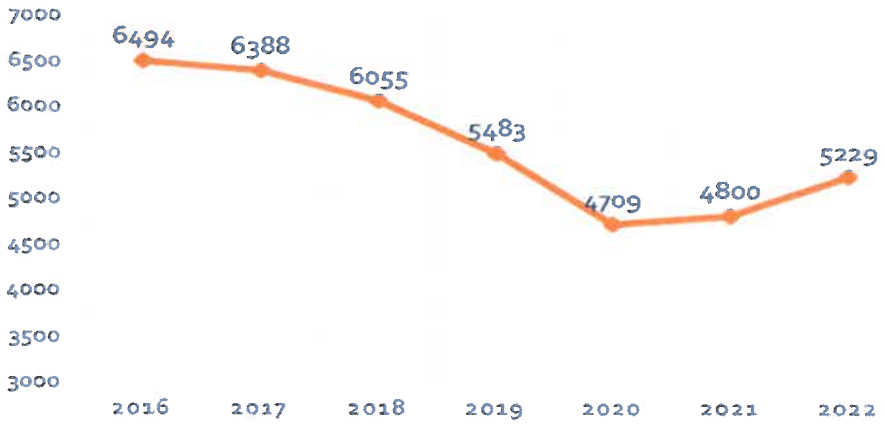
Resource allocation challenges in Newport News have led to the division of the city into three zones: south, central, and north. A captain, three lieutenants, twelve sergeants, and around sixty sworn officers oversee each zone. Given the city's size and the high volume of service calls, presenting comprehensive crime statistics citywide can be difficult. However, at each Neighborhood Watch Coalition Meeting, representatives from each zone deliver presentations on crime statistics, emerging trends, affected areas, and other relevant topics. This approach surpasses the objective of offering these statistics at each meeting, rather than just twice per year. Moreover, year-to-date statistics are furnished to enable citizens to compare crime rates between the current year and the previous years.

During neighborhood, watch meetings, law enforcement officers or precinct representatives present crime prevention statistics comparing year-to-date crime rates from the current year to the previous year. These statistics cover various types of crimes, including homicide, aggravated assault, larceny, rape, vehicle theft, property crimes, violent crimes, and robbery. Below is a breakdown of the crime statistics presented at each meeting:

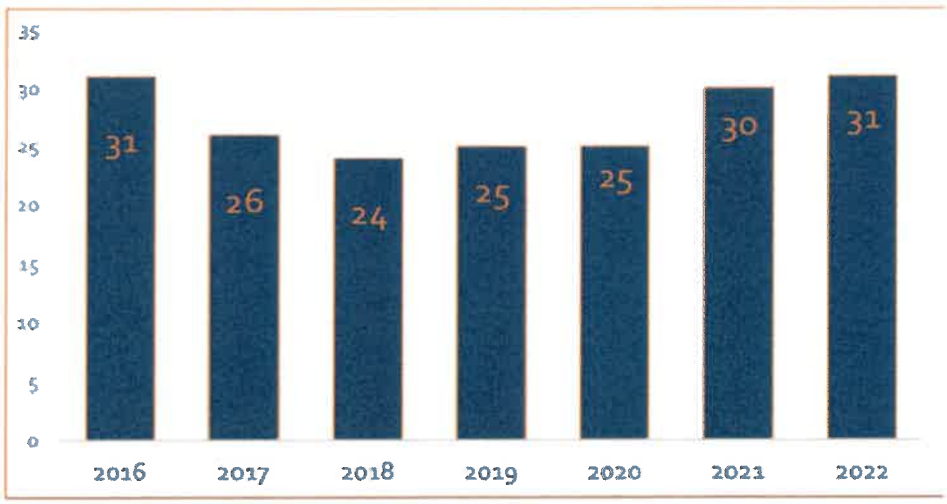
CITYWIDE CRIME STATISTICS

Incident	2021	2022	Change	% Change
Murder	30	31	1	3.3
Rape	41	36	-5	-12.2
Robbery	140	184	44	31.4
Aggravated Assault	802	724	-78	-9.7
Burglary	395	363	-32	-8.1
Larceny	3009	3511	502	16.7
Vehicle Theft	383	380	-3	-0.8
Total	4800	4254	429	8.9

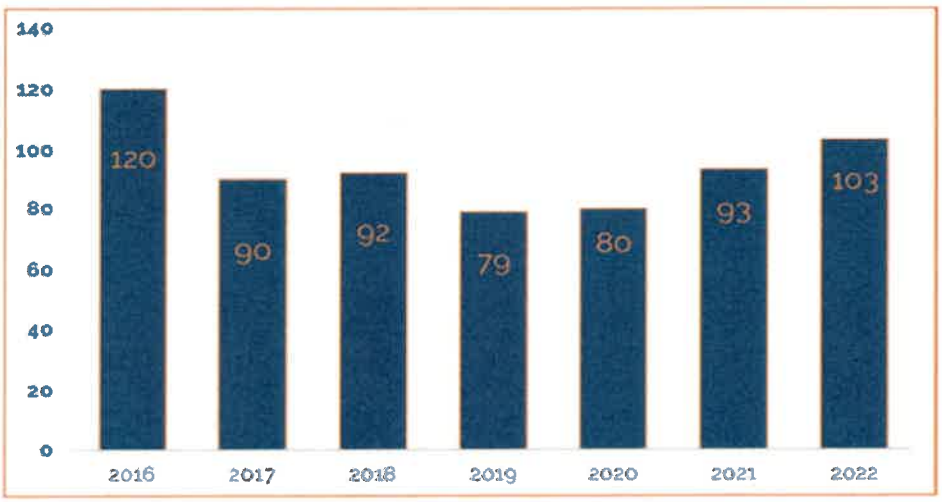
TOTAL CRIME (2016-2021)



Homicides (2016 - 2021)



Shootings (2016 - 2021)



In conclusion, the integration of subject matter experts, mini grants, and the reporting of crime statistics are vital components that contribute to the effectiveness and sustainability of neighborhood watch groups. Subject matter experts provide invaluable knowledge and guidance on various safety-related topics, empowering community members with the skills and awareness necessary to address local concerns proactively. Mini grants offer financial support to grassroots initiatives, enabling neighborhood watch groups to implement innovative projects that enhance community safety and cohesion. Additionally, the regular reporting of crime statistics not only informs residents about prevalent safety issues but also facilitates data-driven decision-making and resource allocation within neighborhoods. Together, these elements reinforce the importance of collaboration, education, and community engagement in fostering safer and more resilient communities through neighborhood watch initiatives.

New Goal and Objectives:

Goal: Continue to expand and communicate with our Neighborhood Watch Groups to further the department's crime-reduction and community outreach strategies.

Objective 1.
Conduct three meetings per year where the Precinct's Lieutenant goes over crime trends and crime statistics.

Objective 2.
Increase the number of Neighborhood Watch groups by two each year.

Objective 3.
Conduct two safety presentations to active Neighborhood Watch groups per year.

CORE IV:

COMMUNITY POLICING

IV: Community Policing

Old Goal and Objectives:

Goal: Focus on working with non-profits and agency partners to form a successful working relationship with the members of the community, with an emphasis on community building in otherwise underserved neighborhoods.

Objective 1.
Implement programs directed towards the Hispanic community, to include; one Spanish forum hosted by the police department for the community, one pamphlet to provide criminal justice information and resources directed towards the Hispanic population, and a community event in a predominantly Hispanic neighborhood.

Objective 2.
Host 3 neighborhood walks involving civilian non-profit organizations that target areas plagued by localized increases in crime, in order to pass out information regarding crime-reduction.

Objective 3.
Utilize the Newport News NEAT team, in tandem with police efforts, to address criminal blight complaints in at least one neighborhood in a focus area per year.

Program Accomplishment

In recent years, community initiatives addressing violence have gained momentum, reflecting a growing recognition of the need for support and advocacy in the face of tragedy. In Newport News, Virginia, two such initiatives stand out: the Homicide Support Group, established by the Newport News Police Department in 2019, and the Community Coalition against Domestic Violence (CCADV) established in 2023, spearheaded by the Newport News Domestic Violence Team. These efforts aim to provide support, education, and advocacy for those affected by violence, demonstrating a commitment to healing and prevention within the community.

The Newport News Police Department's Homicide Support Group serves as a beacon of support for individuals coping with the loss of a loved one to violence. Meeting monthly, the group offers a safe environment for members to share their experiences and find solace in the company of others who understand their pain.

In June 2023, members of the group organized a poignant Gun Violence Awareness Walk around the fountain in City Center, joined by NNPD personnel, chaplains, and members of the Newport News Fire Department, Mayor Phillip Jones, and concerned citizens. At the event, parents who had tragically lost children to gun violence shared their stories, while members of the Homicide Division and NNPD Chaplain provided vital support. Since its inception, the Homicide Support Group has grown to over 100 members, a testament to its significance in the community.

In parallel, the Newport News Domestic Violence Team launched the Community Coalition Against Domestic Violence (CCADV), a pioneering initiative aimed at empowering community members to combat domestic violence collectively. Meeting monthly, CCADV members hear firsthand accounts from those affected by domestic violence and receive education on current trends in the field. Each month, members report on their individual awareness projects and collaborate on larger initiatives to raise awareness. Comprising primarily community members, the CCADV pledges to confront all forms of violence with love, compassion, and a commitment to positive change.

In conclusion, the efforts of the Homicide Support Group and the Community Coalition Against Domestic Violence reflect a proactive approach to addressing violence within the Newport News community. By providing support, education, and advocacy, these initiatives foster healing, resilience, and a sense of solidarity among those affected by violence. Moving forward continued collaboration and community engagement will be essential in building safer, more compassionate neighborhoods for all residents.

Program Evaluation

Community policing is a concept that advocates for the implementation of organizational strategies that facilitate the collaborative use of problem-solving techniques and partnerships to address the underlying factors that lead to public safety issues such as crime, social disorder, and fear of crime.

The key elements of Community Policing include:

- ✓ **Partnerships**: Collaboration between law enforcement agencies and the community they serve is crucial in community policing. Strong relationships with community members, local organizations, businesses, and government agencies are essential.
- ✓ **Problem-Solving**: Community policing involves proactive problem-solving to address underlying issues contributing to crime, instead of solely reacting to crimes after they occur.
- ✓ **Community Engagement**: Community policing involves law enforcement officers engaging with residents through interactions, meeting attendance, and event participation to build trust and foster open communication.
- ✓ **Decentralized Decision-Making**: Decentralizing decision-making processes within law enforcement agencies is often a key part of community policing. This empowers local officers to customize their strategies to meet the unique needs of their community.

The Hispanic Citizen Police Academy (HCPA) is a dynamic program designed to engage and educate the Hispanic community on the inner workings of law enforcement. Serving as a bridge between police departments and the community, this initiative offers invaluable insights into the roles and responsibilities of law enforcement officers while fostering positive relationships. Delving into crucial topics such as *criminal law, patrol procedures, investigations, and community policing*, participants gain a comprehensive understanding of law enforcement practices. The benefits of the HCPA extend beyond mere education, as it cultivates trust, encourages civic engagement, and empowers community members to advocate for public safety initiatives. Moreover, for law enforcement agencies, the program enhances cultural competency, strengthens community partnerships, and serves as a platform for recruiting diverse talent into law enforcement careers.

As an integral component of the Newport News Police Department's Basic Law Enforcement (BLE) Academy process, each class of recruits participates in Community Week, a dedicated period where they immerse themselves in the community. This weeklong engagement involves interaction with residents, businesses, and the community at large, serving as a precursor to their graduation from the Academy and subsequent patrol assignments. Among the various activities planned for this week, community walks hold significant importance. These walks provide recruits with the opportunity to introduce themselves to residents, gain insights into the neighborhood from their perspective, and put into practice community policing techniques. Additionally, during these

walks, recruits, citizens, local business owners and volunteer police chaplains actively distribute information on crime prevention strategies and available community programs, fostering greater awareness and collaboration between law enforcement and the community they serve. Through these interactions, recruits begin to foster meaningful relationships and lay the groundwork for proactive engagement within the community.

2021

May 25, 2021	Richneck Community
May 28, 2021	Wickham Ave Community
October 4, 2021	Newsome Park Community

2022

May 9, 2023	Aqua Vista Apartments
September 12, 2023	Randolph Apartments and surrounding areas
September 13, 2023	Neighborhood behind Parkview Baptist Church

As the Latino population in Newport News continues to expand, the Hispanic Citizens Police Academy (HCPA) has been introduced to empower community members with the necessary knowledge and support to navigate legal matters effectively. Conducted in a language accessible to participants and covering crucial topics like immigration, the HCPA cultivates trust and cooperation between law enforcement and the Latino community. Held twice a year, the academy offers a structured platform for dialogue and learning, fostering mutual understanding and collaboration between officers and the communities they serve. The inaugural class of the HCPA graduated on November 2, 2022, with 16 graduates.

The second session of the Hispanic Citizens Police Academy commenced on March 15, 2023, concluding on April 26, 2023, with 18 participants graduating on May 3, 2023. On October 25, 2022, an event was hosted at the Brittingham Midtown Community Center in the heart of the city, sponsored by "Hispanos sin Fronteras," celebrating Hispanic Heritage Month from September 15 to October 15. Various organizations participated in the festivities, including bounce houses, food face painting, music, and traditional dancing. Local residents from predominantly Hispanic neighborhoods joined in the activities, with most being offered free of charge. Officers from the Newport News Police Department also participated in the event, which lasted from 10 am to 4 pm.

The Hispanic Advisory Committee (HAC) convenes on the fourth Monday of each month, comprising 15 individuals representing various sectors across Newport News, including Parks and Recreation, Newport News Public Schools, healthcare, public transportation, and Public Utilities. Collaborating with a unified purpose, the HAC ensures that the needs of Hispanic citizens are addressed and that adequate resources are made available.

In addition to making connections with our Hispanic community and hosting neighborhood walks, we also address blight complaints as part of our commitment to fostering a safer and more vibrant community.

On January 23, 2020, during a narcotics investigation related to a suspicious vehicle at Monitor Merrimac Overlook Park, Officer Katie Thyne tragically lost her life. This incident shed light on an area of concern within the City of Newport News, which is plagued by drug and prostitution-related crime. The park, boasting scenic views of Norfolk Harbor and several landmarks, including the Monitor Merrimac Bridge Tunnel and Fort Monroe, had become a hotspot for criminal activity, particularly in its parking area. However, the city's Department of Public Works initiated an Adopt-A-Spot program to combat blight and enhance the area's appeal, enlisting community members and organizations to conduct litter clean-ups. In June 2021, Master Police Officer Jensen, along with the NEAT Team spearheaded the establishment of an Adopt-A-Spot for Monitor Merrimac Overlook Park, aiming to engage the community and deter crime through collaborative efforts. Members of the NEAT Team are composed of representatives from Codes and Compliance, Fire Marshall, Department of Public Works, Alcohol Beverage Control (ABC), etc.

The initiative saw significant success in its first year, with 730.5 lbs. of debris removed and 16 clean-up events held. Building on this momentum, the program expanded in 2022 with the introduction of the "Team Challenge," encouraging partnerships with local organizations and youth involvement in community service. By 2023, the program had attracted multiple community groups and engaged citizens in regular clean-up activities, resulting in the removal of an impressive total of 13,365.86 lbs. of trash over the three-year period. These efforts not only beautified the beachfront and made it safer for recreational use but also led to a remarkable 91 percent reduction in crime at the location. Through collaborative problem solving and community engagement, the Newport News Police Department successfully transformed Monitor Merrimac Overlook from a crime-ridden area into a thriving recreational hub, honoring Officer Thyne's memory and ensuring a safer environment for all.

By actively involving citizens in efforts to address blight and crime, the Newport News Police Department exemplifies its commitment to fostering collaborative partnerships and empowering community members to take ownership of their neighborhoods. As we collectively strive towards creating safer and more vibrant communities, it is essential to recognize that ensuring public safety is a shared responsibility that requires active participation and cooperation from all members of

society. Through ongoing collaboration and mutual support, we can work together to build stronger, safer, and resilient communities for everyone.

New Goal and Objectives:

Goal: Enhance community safety and cohesion through comprehensive outreach initiatives, collaboration with stakeholders, and proactive measures to address localized issues affecting underserved neighborhoods.

Objective 1:
Expand outreach efforts to engage diverse communities by hosting two culturally sensitive forums per year.

Objective 2:
Partnership with eight organizations per year to promote crime prevention strategies, facilitate access to resources, and foster a sense of ownership and responsibility within the community.

Objective 3:
Implement a targeted intervention to address specific community challenges by hosting an annual seminar to address mental health.

CORE V:

ORGANIZED DISTRIBUTION OF COMMUNITY SAFETY INFORMATION

V. Organized Distribution of Community Safety Information

Old Goal and Objectives:

Continue to focus on community policing through awareness and transparency, while recognizing and adapting to the ever-changing nature of social media and online interaction by creating new ways to interact and share crime prevention information with our citizens.

Objective 1.
Continue providing high quality crime prevention tips and promote new forms of media and online interaction by creating and publishing at least 3 crime prevention videos per year.

Objective 2.
Share crime prevention tips and violent criminal wanted posters by utilizing available billboards along state highways, at least 4 times per year.

Objective 3.
Host community forums at least once per month, both online and in-person as available, to share information on how the department is approaching police reform, changes in policy, and updates on investigations.

Program Accomplishment

The Newport News Police Department successfully leverages the use of several social media platforms to dimmesinate information to the public. From 2020-23, the NNPD used the following outlets to connect with the community: Facebook, Instagram, Twitter/X, YouTube, Next Door, the Ring Public Safety app and LinkedIn. Posts on these outlets centered around department-related activities such as community events, officer interactions with citizens, wanted fugitive posters, crime awareness campaigns, DUI patrols, and recruiting efforts for police and 911 dispatcher positions. The department also uses these channels and traditional news media outlets to keep citizens updated on critical incidents within the city.

One of the regular efforts undertaken between 2020 and 2023 has been to provide information about DUI patrols and other crash statistics and driver safety. This campaign was to deter drunk driving, as well as encourage safer driving and use of safety equipment. These posts, which shared department operations regarding increased DUI patrols, as well as safety tips provided by the NHTSA (National Highway Transportation Safety Administration), were posted regularly each year. The department also posted additional information around holiday seasons, to combat the regular increases seen in DUIs during these times. The department averages approximately five posts per month regarding these patrols and safety campaigns.

Additionally, in 2023, NNPD's Public Information Office (PIO) worked collaboratively with the department's Crash Reconstruction Team to produce four driver safety videos, one during each

quarter of the year. The topics of these videos focused on the importance of citizens speaking to police after witnessing crashes; the dangers of driving at excessive speeds; motorists sharing the road with bicyclists; and the importance of using seat belts and driving sober.

Social media also continues to be the primary vehicle through which the PIO solicits anonymous tips from the public for the Newport News Crime Line campaign. All news releases about unsolved crime incidents within the city include information on how citizens can submit anonymous tips. In addition, the PIO restarted its series of Crime Line videos, highlighting recent unsolved cases, which are shared to the aforementioned social media outlets and Newport News TV. After restarting this video series in late 2022, 19 videos highlighting unsolved cases have been distributed.

NNPD also periodically makes use of its partnership with a local outdoor advertising agency to post images of wanted fugitives on billboards which are displayed on the interstate throughout Hampton Roads. NNPD highlighted two cases through this billboard campaign in 2023. One of the cases was later solved. Participation in this program is dependent on available space through the advertising agency which pays for these boards, and also on NNPD investigators having cases which they want to highlight in this manner. In the same vein, the department continued useage of its "Weekly Wanted" or "Wanted Wednesday" ads on social media, where individuals with active arrest warrants are displayed to encourage public assistance in locating them.

Citizen Crime Line tips have helped NNPD solve multiple homicides, bank robberies and other violent crimes in addition to catching wanted fugitives displayed on departmental social media ads. The year 2023 also notably included the largest drug bust in the history of the Virginia Peninsula Crime Stoppers organization, as one tip led to the confiscation of more than $2.4 million in illegal drugs. Below are Crime Line statistics from the last 4 years:

	Tips Received	Arrests	Charges Filed
2020	412	32	107
2021	497	14	38
2022	730	18	53
2023	648	23	48
TOTAL:	**2,287**	**87**	**246**

The PIO has continued its virtual "Chat with the Chief" Facebook sessions each month during this timeframe. These chats continue to be popular with the community, giving citizens two opportunities per month to ask questions of Newport News Chief of Police Drew and hear about

department initiatives and events in an informal setting. In-person forums were not advised during the first period of this timeframe due to COVID restrictions and best practices. However, due to the popularity of the online chats, that model was used throughout the time period.

Program Evaluation

During the 2020-23 timeframe, Facebook continued to be the most widely-used platform for NNPD which generated the most community engagement. At the end of 2023, the department had just over 49,500 Facebook followers, which represented an increase of more than 3,000 followers year-over-year. The department's Facebook following has nearly tripled in the last five years, but other outlets such as Instagram (particularly for video content) and the Neighbors app also appear to get significant interaction. They will remain part of the department's strategy to connect with the community moving forward.

Another tactic used by NNPD to prevent crime that was amplified by social media was the launch of catalytic converter VIN engraving events. These events, which were advertised ahead of time by the PIO on social media and documented after the fact, offer the community the chance to have their vehicle VIN numbers etched onto their catalytic converters and windows, a valuable anti-theft and theft recovery tool for citizens in the community. The events were launched in 2022 and expanded in 2023, occuring once each month from March through October in the most recent year. During 2023, NNPD provided this service to 522 vehicles. Not coincidentally, NNPD saw a 65% reduction in catalytic converter thefts from 2022 to 2023.

Communication with citizens is essential to NNPD's strategy of community policing, and the PIO's Chat with the Chief sessions will continue to be a part of this initiative. By keeping the forums online and offering two sessions per month, it appears as though the public is receptive to the "virtual" style of forums. Chats regularly average more than 40 viewers and upwards of 50 citizen questions/comments per session.

The PIO has continually focused on publishing information regarding these events, both before and after they occur. This serves to both increase public awareness of upcoming events in their area, illustrate the many crime fighting and education methods of the department, and at the same time, show positive interactions between police and citizens. The 2020-23 timeframe continued a recent upward trend in the distribution of community safety information from the PIO. There were no gaps in service.

New Goals and Objectives:

Continue to focus on community policing through awareness and transparency, while recognizing and adapting to the ever-changing nature of social media and online interaction by creating new ways to interact and share crime prevention information with our citizens.

Objective 1.
Continue providing high quality crime prevention tips and promote new forms of media and online interaction by creating and publishing at least 3 crime prevention videos per year.

Objective 2.
Share crime prevention tips and violent criminal wanted posters via social media channels at least 2 times per month.

Objective 3.
Host community forums at least once per month online to share information regarding department initiatives and crime-fighting efforts.

CORE VI:

COMMUNITY SAFETY & SECURITY

VI: Community Safety and Security Assessment

Old Goal and Objectives:

Goal: To work with community members and partners from other agencies to plan and implement strategies to improve safety, reduce nuisance activity, and resolve other neighborhood problems in order to achieve safe crime-resistant neighborhoods.

Objective 1.
Develop Serving our Seniors program by end of 2021 in which police personnel will partner with at least 30 seniors per year to start with in order to build a partnership and bridge a trust with the police. Increase the number of seniors to 40 by 2022. Officers will make contact with the seniors on a monthly basis, either virtually or in person, to provide communication, assistance, and aid for them.

Objective 2.
Conduct at least two security assessments for a faith-based organization per year.

Objective 3.
Conduct at least three security assessments for residential or commercial properties per year.

Program Accomplishment

Policing in the 21st Century has expanded, and officers are called upon to handle situations some may consider "outside of the realm" of the profession. A significant role in community safety is understanding the importance of community involvement in crime prevention. In 2019, the Newport News Police Department established the Homicide Support Group to provide an environment of support for those suffering from the loss of a loved one taken by violence. This open-ended group meets monthly, where members share similar experiences and help support each other through the grief process. Members of the Homicide Division and our volunteer police chaplains also attend to offer support and assistance.

Additionally, as domestic violence continues to be one of the most challenging social issues in our community, in April 2022, the Newport News Police Department hired a Domestic Violence Specialist to bridge the gap between law enforcement and victim support. In 2023, the Newport News Police Department Domestic Violence Team launched the Community Coalition against Domestic Violence (CCADV). This initiative seeks the support of community members to strategize ways to address domestic violence. This group also meets monthly, with chaplains offering continuous support.

These initiatives highlight the department's commitment to community-oriented policing and the importance of collaborative efforts in addressing complex social issues.

Program Evaluation

Seniors are often a forgotten population, facing unique challenges and isolation. In response to this, the Newport News Police Department launched the Serving Our Seniors program in August 2021. Initially, the program involved six officers and six seniors, aiming to foster meaningful weekly interactions. However, as departmental demands grew, maintaining these regular interactions became challenging. To adapt, the program transitioned into a pen pal initiative in partnership with the Newport News Redevelopment and Housing Authority (NNRHA). Twice a month, letters were mailed to seniors with a stamped return envelope to encourage correspondence. At its peak in October 2022, the initiative engaged 42 seniors. Although successful for a time, the program began to fizzle out in May 2023 due to declining responses. After discussions with the NNRHA, it was decided to give the program a six-week trial to explore possibilities for revival. Ultimately, it was concluded by both the Department and the NNRHA to end the program. Despite this, several members of the Unit continue to make occasional contact with their assigned seniors to check in.

During the same period, the Newport News Police Department also adopted a Meals on Wheels route to deliver meals to seniors once a month through the Peninsula Agency on Aging. This initiative continues to thrive, highlighting the Department's commitment to supporting and engaging with the senior community to ensure they feel valued and connected.

Faith-based organizations, dedicated to prioritizing the safety of their congregants, staff, and property, conduct security assessments regularly. By performing at least two security assessments annually, these organizations demonstrate their adaptability to evolving threats and significantly enhance their security posture. Faith-based organizations often draw large gatherings for worship, events, and outreach programs, making them potential targets for various threats. Regular security assessments help:

- Identify vulnerabilities in physical infrastructure (e.g., entrances, exits, lighting).
- Evaluate existing security protocols (e.g., surveillance systems, emergency response plans).
- Foster a culture of safety among congregants and staff.
- Ensure compliance with legal requirements or insurance mandates regarding safety protocols.

Below is a list of Faith-based organizations security assessments conducted during the reporting period:

- **2021**
  - *Restoration Outreach Christian Center – 15423 Warwick Blvd. (July 16, 2021)*
  - *Potter's House Christian Church – 7812 Warwick Blvd. (December 1, 2021)*
- **2022**
  - *Denbigh Church of Christ – 205 Denbigh Blvd. (November 18, 2022)*
  - *Menchville Baptist Church – 248 Menchville Road (December 14, 2022)*
- **2023**
  - *Hilton Presbyterian Church – 34 Main Street (September 14, 2023)*
  - *Denbigh Church of Christ – 205 Denbigh Blvd. (November 8, 2023)*

Due to increased reports of burglary, trespassing, and catalytic converter thefts in the area, the Newport News Public Schools warehouse requested a security assessment of their building. During the assessment, officers identified safety concerns, including the placement of cameras, holes in the fence, lighting issues, and the security of exterior doors. Following the officer's recommendations, NNPS made changes to their facility, resulting in a 20% reduction in crime trends in that area.

In 2021, despite the challenges posed by the COVID-19 pandemic and personnel reassignments, we regrettably fell short of conducting three security assessments. However, we successfully met our goals for both 2022 and 2023.

Churches have increasingly become targets for violent incidents such as shootings, trespassing, fights, and burglaries over the years. From 2021 to 2023, there has been a noticeable surge in such criminal activities. Law enforcement officials conducted an average of three security assessments per year to address these concerns. The churches where these assessments were done include: 2021: *Temple Baptist Church, First Baptist Church Denbigh, and Providence Baptist Church;* 2022: *New Beech Grove, Crossroads Church and World Outreach Center;* 2023: *Full Gospel Kingdom Church, Calvary Chapel and Our Lady of Mount Carmel.* Officers collaborated with church leaders to evaluate the effectiveness of security measures like cameras, lights, signs, doors, and locks, leading to tangible enhancements aimed at safeguarding church staff and congregations.

The Bowie Market, located in a high-crime area of Newport News, experienced two separate shooting incidents by May 2022, resulting in four gunshot victims. In response, the Newport News Police Department conducted a comprehensive security assessment. We collaborated with the store manager to evaluate their existing security camera system and integrated it into our Real Time Crime Center. Using Crime Prevention Through Environmental Design (CPTED) principles, we installed 16 LED lights in front of the store and surrounding areas. Our environmental team addressed property boundaries and updated the trespassing letter with the property manager and South Precinct captain. After implementing these measures, no further shooting incidents occurred for the remainder of the year.

In 2022, the Newport News Police Department also worked with ABC agents to assess the security at the Day and Night Market located at 2209 Wickham Avenue. Our environmental officer reviewed several security adjustments with the store manager, including upgrading to a hard drive that could store footage for 30 days and relocating the Virginia Lottery booth to avoid obstructing outside views. Additionally, numerous signs obstructed clear views, and the "No Trespassing" signs were not visible. The manager agreed to remove unnecessary signage and update the "No Trespassing" letter with the Newport News Police Department.

The YMCA provides a safe environment for children and adults, offering a range of activities and programs. Despite the absence of significant security issues at our five YMCA locations in Newport News, we conducted thorough security assessments at each site. Officers suggested enhancements to the child check-in/check-out system and led CRASE (Citizen Response to Active Shooter Events) presentations at each location. During facility walk-throughs, officers identified and resolved minor security concerns such as the location of the safe, window obstructions, and rear lighting. All recommendations were successfully implemented.

These initiatives reflect the Newport News Police Department's dedication to enhancing community safety and fostering strong, supportive relationships across various sectors, ensuring a safer and more connected community for all.

New Goal and Objectives:

Goal: To work with community members and partners from other agencies to plan and implement strategies to improve safety, reduce nuisance activity, and resolve other neighborhood problems to achieve safe, crime-resistant neighborhoods.

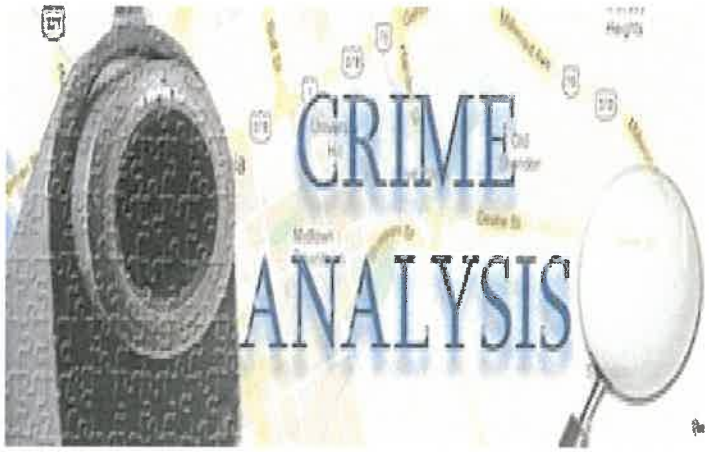
Objective 1.
Conduct 2 VIN etching programs a year for the citizens of Newport News.

Objective 2.
Conduct 2 CRASE Presentations per year for the YMCA staff.

Objective 3.
Annually conduct 3 site plans for businesses for the next three years.

CORE VII:

FUNCTIONAL CRIME ANALYSIS



VII. Functional Crime Analysis

Old Goal and Objectives:

Goal: To promote safety within Newport News by providing crime analysis and other crime related information to the citizens of Newport News, the Newport News Police Department, other city offices, i.e., Codes and Compliance, etc. as well as private agencies.

Objective 1.

Power BI dashboards- The analyst assigned to planning and strategic projects has been creating Power BI dashboards to be used by staff for quick information on current reported crimes, past or historical crime data, manpower staffing, and call data. This provides an up-to-the-minute view of any information needed to make quick and informed decisions. The plan is for him to create more dashboards to automate reports that require specific coding at this time.

Objective 2.

Continue advanced training that is necessary for the certified analysts that must maintain certification requirements. All analysts will have ArcPro/ArcMap 10 mapping and crime analysis training by June 2022. ESRI has advised that they will continue to support ArcMap 10 for a while to come. The analysts are scheduled to receive that training in November. The City Mapping Office has provided an overview of ArcPro training, and it is anticipated that IACA will be providing ArcPro training in the near future.

Objective 3.

Gang analysis is one of the issues that has suffered during the recent reorganization. The Organized Crime (Narcotics and Gang) Unit was disbanded, and there has been relatively little or no information developed on gang activity. Hopefully with the anticipated staffing of that unit in the near future, gang information will begin to flow in for analysis and then to be passed on to those detectives/officers on the street.

Program Accomplishment

This unit supports the department by providing information about identified patterns or crime trends as they occur throughout the community and aids in the identification of possible suspects engaged in criminal activity, using both spatial and statistical analysis tools. In addition, the Crime Analysis Unit seeks to identify crime patterns, hot spots, trends and provide patrol and detectives with information necessary to identify subjects involved in criminal activity. The information and data that the crime analysis unit generates allows for actionable information that assists in the guidance and allows decision-makers within the police department to streamline police resources and responses with effective, researched strategies.

The NNPD Crime Analysis Unit has grown in size from three analysts prior to 2000 at its onset to the currently staffed nine analysts in 2024. The unit is decentralized around the police department

with the analysts embedded within detectives in each of the units they are assigned, and analysts reporting to different supervisors. There is a great variation in the type of analysis completed among the analysts, and the reports that each analyst subsequently produces.

The Newport News Police Department has experienced many changes in its Crime Analysis Unit over the past several years, which has impacted the outcome of original goals and objectives. There are currently nine law enforcement analysts, without one central supervisor. All analysts now report to the Sergeant or Captain in the area that they are designated to work and assist investigators in criminal investigations. We also have had considerable turnover in the past three years, where seven analysts have been hired and have had to be trained.

We currently have three tactical/precinct analysts (one assigned to each precinct, one analyst is currently in training as a new hire), a homicide/special victim's unit analyst, an aggravated assault analyst, and a gang/narcotics analyst. We also now have a technical information unit analyst (a newly formed unit in past 1.5 years), where cellular devices are downloaded and analyzed. We have built a Real Time Crime Center (RTCC) where the Intelligence Analyst wasplaced, becoming an analyst for the RTCC, Intelligence for the department and the Fugitive Apprehension Unit (FAU). Lastly, with the creation of the Community Youth and Outreach Unit, which includes former Community Resource Officers (CROs) and School Resource Officer (SROs), there is now an analyst assigned to that unit.

With respect to Power BI Dashboards, and the turnover we have experienced, we no longer have an analyst with the skillset to perform the necessary functions in Power BI. This is not currently a system that the police department is utilizing as a result and NNPD does not possess an alternative system that runs/supports dashboards. The Law Enforcement Analysts of NNPD run data through SQL servers to pull necessary numbers and provide reports regarding calls for service, historical crime data and other needed reports regarding any statistical numbers needed for review and planning for NNPD. The analysts are very successful with running data in this method, as this is how it has been done for over 30 years at the agency, and the analysts are trained to pull and analyze the necessary data to track criminal offenses and calls for service.

Analysts have attended training classes when allowed. Training opportunities for analysts are limited and the department's finances also come in to play when funding becomes available. With limited opportunities and funding, and we are always on the search for free and applicable training. Each of the analysts who were trained in ArcPro/ESRI have parted ways with NNPD, therefore the knowledge base of that training that was provided left with each analyst. Former NNPD analysts were trained in ArcPro by a trainer with IACA the week of November 18 – November 22, 2019. The training was completed, however analysts who attended that training parted ways with NNPD since that time frame.

We are in the process of determining training for all nine current analysts in ArcPro/GIS. ESRI ArcGIS became a non-supported platform at the onset of April 2024. While the system still operates, it no longer will receive any updates or support. ArcPro for mapping is the supported platform that ESRI moved to for mapping needs and we are speaking with ESRI and IACA and researching other training opportunities in ArcPro to get the current analyst team of nine trained on this newest edition of ESRI mapping. At this time, pricing for training of all analysts ranges from $5000 to over $30,000, with more avenues being researched. There is also a free training available in a 12-week course through IACA online. However, not all analysts are connected to IACA with accounts, which is another process we are undertaking right now to allow analysts access to countless webinar (free) based training.

Our Gang and Narcotics unit was previously disbanded as stated, however is currently operational and staffed again as of 2020. There had been one analyst for each division, however now one analyst handles all requests for both gang and narcotics. Information is flowing to detectives and officers through the implementation of a bi-weekly Intelligence Meeting where information concerning narcotics and gangs are shared. The analyst also creates bulletins to be disseminated as needed to address any gang/narcotics issues within the City.

Program Evaluation

During the evaluation timeframe, the world experienced the COVID-19 pandemic which closed down many opportunities for training, until systems like TEAMS and Zoom meetings, allowed for some virtual training. Analysts also worked from home at the onset of the pandemic from March 2020 – July 2020, so they were largely disconnected from the investigators and their investigations.

We are hoping to bring more in-person training to the Newport News Police Department to allow for all analysts to attend who are in need of training in various platforms/software systems to include Arc Pro / ESRI mapping, Link Charting software i2, Intelligence Training like FIAT (Foundations of Intelligence Analysis Training).

Each analyst has a laptop computer, a city issued cellular phone, a desk phone and a police radio to maintain contact with each other, and to relay information as it develops during critical situations. The analysts no longer have tablets, as it was determined that the original reason for their purchase was not implemented. We also now have the ability to interact virtually for training and meetings with the use of TEAMS and Zoom.

Gaps in service

While we did not achieve our goals in the implementation and use of Power BI dashboards, the agency is always looking for methods and systems to make workloads more efficient and user-friendly. We are always looking for the new systems and platforms that could assist in pulling numbers for more efficient statistical analysis.

Moving forward, we will be obtaining training in ArcPro, and that research process is currently underway to find the most economical method to obtain training for nine analysts.

With analyst turnover and downsizing of number of analysts in the gang and narcotics division, we believe one analyst handling both gang and narcotics will allow for better communication and data sharing within the division.

New Goal and Objectives:

Goal: To promote safety within Newport News by providing crime analysis and other crime related information to the citizens of Newport News, the Newport News Police Department, other city offices, i.e., Codes and Compliance, etc. as well as private agencies, by providing our analyst team with the most thorough training available to enhance their already complex skill sets.

Objective 1.

Obtain further training that will be of value to all analysts by bringing FIAT (Foundations of Intelligence Analysis Training) to the Newport News Police Department, in-person. We are currently scheduled to host training the week of June 3 – June 7, 2024. FIAT curriculum is guided by the National Criminal Intelligence Sharing Plan (NCISP) and IALEIA's Analytic Standards booklet endorsed by the Global Justice Information Sharing. The five-day course covers topics such as History of Intelligence Analysis and the Purpose of Intelligence Analysis, as well as the various intelligence models and intelligence cycles. The course discusses intelligence analysis as a thought process and furthers that with analysis methods and skills, such as crime pattern analysis, association analysis, flow analysis, products of intelligence and more.

Objective 2.

The Senior Law Enforcement Analyst assigned to the Technical Investigations Unit directly supports and works side by side with the detectives in both the Digital Forensics and Electronic Evidence Recovery and Electronic Communication Data Acquisition and Analysis sections. The analyst assigned to this division is seeking to become a SME for Certification for Call Details Records/Cellular and Geolocation analysis, a certified Cellebrite Certified Operator (CCO) and Cellebrite Certified Physical Analyst (CCPA), in addition to receiving certification as a Cellebrite Advanced Smartphone Analysis (CASA) for the final requirement to obtain the Cellebrite Certified Mobile Examiner (CCME) Certification.

Objective 3.

Lastly, with the creation of the Community Youth and Outreach Unit, which includes former Community Resource Officers (CROs) and School Resource Officer (SROs), there is now an analyst assigned to that unit. The analyst largely is a Schools Analyst to handle the day-to-day research needed for criminal activity, or suspected criminal/gang activity, within the schools. This analyst works closely with various facets of the police department, as driven by the type of investigation.

In an effort to maintain collaborative communication with Newport News Public Schools, the Community & Youth Outreach Division Law Enforcement Analyst will attend monthly partnership meetings with personnel of the City of Newport News Public Schools.

CORE VIII:

COMPREHENSICE SCHOOL SAFETY AUDIT

VIII. Comprehensive School Safety Audit Program

Old Goal and Objectives:

Goal: To protect students, staff and property of Newport News Public Schools (NNPS) by using recommendations conceived through comprehensive school safety audits mandated by the Code of Virginia.

Objective 1.
To fully comply with all requirements of the Center for School Safety and Campus Safety Audits crises plan and reporting for school systems annually.

Objective 2.
The Newport News Police Department shall create and maintain a separate database documenting all crimes committed by Newport News Public School students on school property. This will be shared with the Newport News Public School Administration

Objective 3.
All Officers of the Newport News Police Department's School Resource Unit will participate in annual Virginia Department of Criminal Justice Services Training. This training will be specifically focused on their role as School Resource Officers.

Objective 4.
Officers of the Newport News Police Department's School Resource Unit will participate in lockdown and/or fire drills at their assigned school on an annual basis.

Program Accomplishment

The safety of students, staff, and visitors is paramount within any public school system to maintain an environment where students have the ability to succeed. Unfortunately, there have been several tragic incidents within Newport News Public Schools over the last several years. These incidents, while awful in every conceivable way, highlight the strength of our department's School Resource Unit and partnership with Newport News Public Schools.

In September 2021, a shooting occurred inside a crowded hallway at Heritage High School that resulted in the wounding of two juvenile students. Members of the Newport News Police Department's School Resource Officer (SRO) Unit responded along with other department members alongside state and federal agencies. A suspect was taken into custody shortly thereafter. In the weeks that followed, the SRO Unit changed procedures to ensure continuous coverage at all Middle and High schools in the city.

Shortly after in December 2021, a student was shot and killed in the parking lot of Menchville High School after a varsity basketball game. Due to a large crowd at the rivalry game, members

of the SRO unit and district officers from the police department had a large presence at the game prior to the shooting and therefore were able to respond quickly. The crowd was able to be cleared quickly and a suspect was immediately taken into custody on scene.

In January 2023, a 6-year-old student brought a gun to Richneck Elementary School and shot his teacher inside her classroom. This incident drew the attention of national and international news outlets and changed several procedures within NNPS to include the addition of weapons detection systems that students must pass through every day. A private K-9 company has also now been contracted to deter and detect weapons and narcotics during the school day and at school events. Students in every grade level district wide also use clear backpacks.

Program Evaluation

The Virginia Center for School and Campus Safety is located within the Virginia Department of Criminal Justice Services. A few of their state codified responsibilities include providing training, resources, and conducting the annual school safety audit.

NNPS participates in this audit annually and has successfully recertified in all areas. The last such audit includes re-certifications in August of 2023. Sections re-certified include Crisis Management Plans Review, Safety Inspection Checklist, Safety Audit Review, Division Survey Completion, and School Safety Survey Completion and Review. By participating in and completing this audit, the emphasis NNPS has placed on school safety is evident.

The records of the Newport News Police Department (NNPD) are maintained and collected in a database called On-Call Records. All sworn members, and select civilians, of the department, have access to this database that contains a vast array of information.

While inputting incident reports to this system, users have the option of indicating yes, no, or unknown for any school related incidents. If yes is selected, a daily weekday morning e-mail is generated and sent to select individuals within the police department and Newport News Public Schools. These individuals include members of the school resource unit and school leadership. This e-mail contains information indicating a student's name, report #, offense, and severity of incident, date/time of incident, location, and reporting officer.

Virginia State code 22.1-279.3:1. "Reports of certain acts to school authorities; reports of certain acts by school authorities to parents; reports of certain acts by school authorities to law enforcement" is relevant to this topic. This is a broad code section but includes language of required reporting by law enforcement agencies to school divisions. This e-mail also helps to satisfy the requirements in this code section. By creating this checkbox and daily e-mail, objective 2 listed above was accomplished.

The training academy of NNPD, as a state certified DCJS recognized training academy, provides not only Basic Law Enforcement Training but also a variety of additional advanced training course. During required yearly in-service training in 2022, all sworn members of the NNPD, to include all members of the SRO unit, was trained in Active Shooter Response Level 1 Training (ALERRT). This included both classroom and practical training in active threats and better prepared them to respond to such incidents.

Members of the SRO unit also attend the DCJS basic SRO course in a reasonable period of time after transferring to the SRO unit. Multiple members of our unit have attended this training during this review period to include MPO Hugh Blanchard, SRO Covington, and SRO Green. This course covers a variety of important topics imperative to their new role and understanding nuances of the law and best practices.

Each July, the state DCJS School Safety Conference is held at the Hampton Roads Convention Center. Available members of the SRO unit have attended this training each year to better our knowledge and preparedness in keeping our public schools safe.

All schools within the NNPS system, which currently consists of 42, conduct drills focused on either lockdowns or evacuations. These are to prepare for active threats, severe weather incidents, and any other scenario where school operations are severely impacted. The SROs, in their capacity as a school official, participate in these drills. Each school is required to conduct four fire and two lockdown drills per school year and the SRO participated in all of them unless absent from the school for court, leave, training, or another approved reason. They act as how they would act in these situations to prepare to respond effectively.

New Goal and Objectives:

Goal: To protect students, staff and property of Newport News Public Schools (NNPS) by using recommendations conceived through comprehensive school safety audits mandated by the Code of Virginia.

Objective 1.

To fully comply with all requirements of the Center for School Safety and Campus Safety Audits crises plan and reporting for school systems annually.

Objective 2.

All Officers in the School Resource Unit will participate in the threat assessment teams assembled by their assigned schools as incidents arise. They will be a member of the threat assessment teams and provide insight based on training and experience and make recommendations for the threat level posed by the student in question.

Objective 3.

Officers of the Newport News Police Department's School Resource Unit will participate in lockdown and/or fire drills at their assigned school on an annual basis. Two lockdown drills and four fire drills are required by state code and the School Resource Officer will participate in all of them unless absent from the school.

CORE IX:

BUSINESS WATCH

IV: Business Watch

Old Goal and Objectives:

Goal: Increase safety and security awareness for businesses through education and presentations to enhance the quality of the perception of safety for their customers and employees.

Objective 1.
To encourage businesses to make their workplaces safer, develop and present a series on "What Businesses Are Doing Right" to promote others to follow their lead by end of 2021.

Objective 2.
Conduct at least two (2) business camera inspections a year.

Objective 3.
Meet with at least three (3) businesses a year to discuss crime prevention tips. This can include holiday safety and robbery prevention.

Program Accomplishment

Problem-oriented policing (POP) is a proactive strategy aimed at identifying and addressing specific crime problems within a community by developing targeted responses to address underlying issues. In February 2023, Field Training Officer (FTO) Hopkins and Officer Dooley were recognized for their outstanding efforts in addressing a crime trend within the Beechmont corridor in the North Precinct area of our city.

FTO Hopkins identified a pattern where many assaults and property crimes were being committed by individuals previously banned from local businesses. To tackle this issue, Hopkins and Dooley developed a Problem Oriented Policing (POP) Project focused on the recurring problem of trespassing by banned individuals.

Key actions taken by the officers included:

- **Recruiting Local Stakeholders:** *The officers successfully engaged businesses and residential managers from the Beechmont corridor to participate in the project.*
- **Regular Meetings:** *They regularly met with these groups to discuss and coordinate their efforts.*
- **Enlisting Assistance:** *Police aides and officers from other shifts were enlisted to support the project.*
- **Maintaining Records:** *A comprehensive list of banned individuals and repeat offenders was compiled and maintained.*
- **Updating Enforcement Letters:** *All trespass enforcement letters were updated to ensure they were current and effective.*

- **Signage:** *Proper "No Trespassing" signage were posted throughout the business corridor to reinforce the bans.*

During the response phase, the officers made 19 arrests for criminal violations related to trespassing. The majority of those arrested were convicted and received court-ordered bans from the area. The analysis of the POP project showed it to be highly successful, leading to a reduction in assaults and property crimes within the Beechmont corridor.

The commendable efforts of FTO Hopkins and Officer Dooley not only addressed the immediate crime problem but also fostered a stronger sense of collaboration and security within the community, setting a standard for effective problem-oriented policing.

Program Evaluation

Businesses play a crucial role in maintaining community safety through active participation in initiatives such as Business Watch. This program fosters a collaborative relationship between local businesses and law enforcement, creating a network of vigilant eyes and ears that can quickly identify and report suspicious activities. Here is a breakdown of reports of suspicious activity reported by businesses:

Year	# of reports	Total
2021	2232	
2022	2340	
2023	2278	
		6,850

By sharing information, providing mutual support, and employing preventive measures, businesses help deter crime and enhance the overall security of the area. During the reporting period, a total of 102 initiatives were undertaken. These initiatives included the following: *patrol checks, encouraging businesses to utilize information-sharing networks like Nextdoor, encouraging coordinated security cameras systems to cover wider areas, effectively monitoring blind spots, establishing emergency response plans, educating businesses on Crime Prevention Through Environmental Design (CPTED) principles which include security lighting, alarm systems, and educating businesses and employees on how to recognize and report suspicious behavior.* Business Watch also promotes awareness and preparedness among employees, equipping them with the knowledge and tools needed to respond effectively to potential threats.

This collective effort not only protects individual businesses but also contributes to a safer, more resilient community.

In August 2021, MPO Young, a Crime Prevention Specialist, released two insightful videos aimed at enhancing business security. The first video, titled "How Can Natural Surveillance Keep Your Business Safe?", explores the role of natural surveillance in crime prevention. The second video, "Attention Business Owners: Have You Done What You Can to Keep Your Employees and Your Business Safe?", builds on this by addressing additional strategies such as access control, cameras, and mirrors.

Access control involves managing who enters and exits a business, using systems like key card access, biometric scanners, or coded entry points. Effective access control reduces theft, protects confidential information, and ensures that only authorized personnel can access sensitive areas, safeguarding assets and maintaining a secure environment for employees.

Natural surveillance employs environmental design to increase visibility within and around a business. By strategically placing windows, using open spaces, and maintaining clear sightlines, businesses can deter criminal activities. This approach creates a safer atmosphere by reducing blind spots and increasing the likelihood that unusual behavior will be noticed and reported.

Cameras and mirrors complement natural surveillance by adding layers of observation. Security cameras in key locations provide continuous monitoring and capture evidence of criminal activity, serving as a deterrent and offering valuable footage for investigations. Mirrors help eliminate blind spots, allowing for better visibility and enhanced situational awareness.

These videos were widely shared across all Department social media platforms and included in the city's daily newsletter, *Newport News Now*, to reach a broad audience. In July 2022, the Department continued its proactive approach by producing a "Crime Prevention & Community Safety" video for small businesses, further highlighting the importance of adequate safety measures.

The ongoing efforts of MPO Young and the Department illustrate a solid commitment to community safety. Through educational initiatives and proactive strategies, businesses are empowered to enhance their security measures, contributing to a safer environment for everyone. This dedication serves as a model for other cities, emphasizing the value of collaboration between law enforcement and local businesses in fostering secure and thriving communities.

In response to a 12% escalating crime rate, the Newport News Police Department has integrated advanced camera systems into its security infrastructure over the past three years (2021-2023). The introduction of the Real-time Crime Center and cutting-edge Flock cameras across critical city areas has empowered officers to monitor specific locations, such as businesses, apartment complexes, intersections, and parks, significantly enhancing security. Officers can remotely access these cameras using city-issued phones, ensuring functionality and quick resolution of any issues. Malfunctioning cameras are reported to the Real-Time Crime Center for immediate repair. Officers also conduct property surveys, 10 security assessments and Alcohol Beverage Control applications, promoting camera installations and educating business owners on their crucial role in community safety.

Due to a 8%-12% increase of violent activities, cameras were installed in these areas: Cottage Grove Apartments, Aqua Vista Apartments, and Newport Harbor Apartments in 2021 during Phase 1 of the Fusus integration. In 2022, the Crime Prevention Specialist and the Real Time Crime Center coordinated with apartment managers to integrate new camera systems with Fusus for officer viewing. In 2023, the Real Time Crime Center installed a Core device at Temple Sinai

Church and oversaw the installation of a new camera system at Aqueduct Apartments, similar to Patriots Crossing. The Real Time Crime Center also installed two Fusus Core devices on its campus in 2023, enabling camera sharing between the UJCVP and the Newport News Police Department. This installation involved collaboration with a surveillance contractor to ensure proper setup and functionality.

The Department set a goal to meet with at least three businesses yearly to discuss crime prevention tips, including holiday safety and robbery prevention. In January 2022, the Place of Worship Safety video was distributed as part of the annual report for 2021. Central Precinct Three Apartment Complexes were addressed in 2021, focusing on reducing crime and creating partnerships between managers and the police department.

For three years, the Big Apple Food Mart was a focus due to persistent crime, which significantly reduced violent offenses through various crime prevention methods. JC Penney was also targeted to reduce larceny/shoplifting crimes, achieving a 24% reduction through policy changes and additional patrols within three years.

In 2022, Dollar Tree, Inc. stores received guidance on best practices for handling robberies and shoplifting. Due to theft trends, North car dealerships enhanced security measures, and Walgreens stores saw improvements in surveillance systems. Virginia ABC stores collaborated with the Department to combat shoplifting, leading to better coordination and evidence sharing.

During the COVID-19 pandemic, Newport News faced a surge in certain crimes, impacting our community and neighboring areas. As we emerge from this challenging period, the Newport News Police Department has renewed its commitment to combating these trends. Installing advanced surveillance equipment and proactive measures has led to a significant decline in ABC larceny, catalytic converter thefts, and drug-related incidents. These efforts have not only allowed the police department to address criminal trends effectively but have also enhanced the sense of safety among Newport News residents.

The Newport News Police Department strives to build business relationships in our community. Our goal is to increase safety and security awareness businesses through education and presentations, enhancing their customers and employees perceptions of safety. Several ways our Department assisted business in increasing awareness and reducing crime included:

- *Provided 213 patrol checks for businesses*
- *Sent out 12 crime alerts and bulletins to businesses*
- *Conducted 10 security assessments/property surveys*

We effectively achieve our goals by completing objectives over a three-year period to ensure we build business relationships, conduct business camera inspections, and establish business safety measures and prevention awareness.

We continue with Problem-Oriented Policing (POP), a proactive strategy aimed at identifying and addressing specific crime problems within a community by developing targeted responses to address underlying issues. Officers are assigned to identify businesses that are vulnerable to crime trends. We evaluate the lighting, cameras, landscaping, window signage, trespassing signs and letters, and many other elements to enhance the quality of the business.

The Newport News Police Department fosters a collaborative relationship between 15 local businesses and educate business owners about their crucial role in enhancing safety and security within the community. Businesses in the city have provided the Newport News Police Department with access to their security cameras through the use of the black box. This device enables monitoring of the business premises. We encourage businesses to maintain community safety through active participation in initiatives such as Business Watch. Business Watch promotes awareness and preparedness among employees and identifies, reports suspicious activities by sharing information, providing mutual support, and employing preventive measures, businesses can help deter crime and enhance the overall security of the area.

Newport News Police Department has implemented advanced camera systems into its security infrastructure. Over the last three years (2021-2023), the department has introduced the Real-time Crime Center and deployed 20 cutting-edge Flock cameras across vital city areas.

The Newport News Police Department's commitment to enhancing community safety through strategic partnerships with local businesses has yielded significant results over the past few years. Through the implementation of advanced surveillance technologies, educational initiatives, and proactive crime prevention strategies like Business Watch, the department has successfully fostered a safer environment for both businesses and residents. By continuing to strengthen these relationships and adopting innovative solutions, Newport News is setting a benchmark for other cities in creating secure, resilient communities where businesses can thrive and citizens feel protected.

New Goal and Objectives:

Goal: Increase safety and security awareness for businesses through education and presentations to enhance the quality of the perception of safety for their customers and employees.

Objective 1.
Meet with 4 financial institutions to discuss suspicious activity and reporting procedures annually.

Objective 2.
Conduct 3 Civilian Response to Active Shooter Events (CRASE) training for business establishments annually.

Objective 3.
Meet with at 3 businesses annually to discuss area crime trends, safety, awareness, and crime reporting procedures and compare the crime trends for the reporting period.

CORE X:

ON SITE VICTIM WITNESS PROGRAM

X. On-Site Victim/Witness Services Program

Old Goal and Objectives:

Goal: Provide comprehensive information and direct services to crime victims and witnesses in accordance with the Crime Victim and Witnesses Rights Act.

Objective 1.

The Victim-Witness Program will be an active participate of the Newport News Police Department Domestic Violence Multidisciplinary Team formed in the spring of 2019.

Objective 2.

The victim-witness program will annually provide direct services to 5 high risk Domestic Violence cases that meet the established criteria in the Domestic Violence Multidisciplinary Team Standard Operating Procedure.

Objective 3.

The victim-witness program will provide expanded services to family members of Homicide victims, also known as co-victims of homicides, by participating in the Newport News Police Departments Homicide Survivor Support Group and through Partnership with the Virginia Victims Assistance Network will plan and implement a Homicide Support Group in 2019.

Program Accomplishment

From the years 2021 thru 2023, the Newport News Victim Services Unit has served over 3,800 victims of crime in the city of Newport News, with an average of approximately 1,290 victims each year. During COVID while offices were closed and our unit had to explore "out of the box" ideas for serving clients we were still able to offer services and support to those victims through telephone calls, zoom meetings and courtroom accompaniment. Many of our community partners were also still able to provide the same level of service while utilizing new and innovative ways to offer resources and support. In these last three years we have also seen a shift in our leadership team, with a new Program Manager and an interim Director. A new Director was selected in February 2024 and we are looking forward to new goals and initiatives for our future.

For the reporting period, our unit has maintained 23 Memorandums of Understanding with partnering organizations that provide support and services to victims of crime. We have also collaborated with a new program offered by our local health provider, Riverside Heath Systems, Hand in Hand Program. This program serves victims of major crimes while they are hospitalized and in support of them being released from the hospital with services in place.

Our advocates have also served on multiple Multidisciplinary Teams (MDT) with partnering agencies, to include Children's Hospital of the Kings Daughters MDT, the Newport News Sexual Assault Response Team, Newport News Elder MDT and the Peninsula Elder Abuse Forensic Committee MDT. In addition to these MDT's we are also participating in the Newport News Police Department's homicide support group, the Virginia Victims Assistant Network homicide support group hosted by our office, the Newport News Child Advocacy Team, Newport News Community Coalition Against Domestic Violence, the Hispanic Advisory Board amongst many other programs and initiatives that we support.

Each year we have promoted Child Abuse Awareness Month, Sexual Assault Awareness Month, Elder Abuse Awareness Month and Domestic Violence Awareness Month through various campaigns, signage, community events, speaking engagements and booths set up throughout the city. In 2023, we partnered with the Hampton Victim Services Unit for National Crime Victims' Rights Week at an outdoor event featuring multiple service providers and community organizations. We have also spoken at several awareness and educational events, training new recruits with the Newport News Police Department, the Navy's SART service members and other organizations that request our training on various topics. We have dispersed approximately $600,000.00 in restitution to individual and business victims of crime. We have also continued to host a Christopher Newport University student intern. This position has been instrumental in working with victims, updating resource information and sharing our work and mission with other students.

While the years immediately following COVID were challenging at first, our team has risen to the occasion and formulated new ways to reach those in need while also maintaining confidentiality and an exceptional level of service. We have been able to continue to work with our community partners to grow and collaborate and ensure that victims of crime are given the resources and support that they need while going through a difficult time.

Program Evaluation

A strong partnership between the Victim Witness Unit and the Newport News Police Department is essential for delivering comprehensive support to victims of crime. Through close collaboration, these entities can effectively bridge the gap between law enforcement and victim advocacy, creating a unified approach to addressing the needs of those impacted by criminal acts. The police department's frontline role in investigating and apprehending perpetrators is complemented by the Victim Witness Unit's specialized expertise in providing emotional support, guiding individuals through legal processes, and facilitating access to resources for victims. This synergy not only enhances the effectiveness of law enforcement efforts but also ensures that victims receive the integrated care and assistance they need to navigate the aftermath of traumatic experiences.

Furthermore, such a partnership facilities effective communication channels, enabling timely updates on cases progress and fostering trust between victims, law enforcement, and victim advocates. Ultimately, this collaborative alliance serves as a cornerstone in promoting justice, healing, and empowerment for individuals impacted by crime within the community.

The Victim Witness Unit was actively participating with the commonwealth's attorney and NNPD, NNSO, the Hampton/NN Criminal Justice Agency and Newport News Probation and Parole to identify cases of domestic violence considered high risk. This team began meeting in 2019 and met on a bi monthly basis to discuss cases where there was a high risk of lethality. We identified these cases through the incident based reporting system officers utilize when they respond to a call for service along with consideration of the results of the LAP questions and responses. LAP, also known as the Lethality Assessment Protocol, is a list of questions that a responding officer asks when they respond to a victim of domestic violence. These questions include:

1. Has the offender ever used a weapon against you or threatened you with a weapon?
2. Has the offender threated to kill you or your children?
3. Do you think he/she might try to kill you?
4. Does he/she have access to a gun or can get one easily?
5. Has he/she ever tried to choke you?
6. Is he/she violently or constantly jealous or does he/she control most of your daily activities?
7. Have you left him/her or separated after living together or being married?
8. Is he/she unemployed?
9. Has he/she ever tried to kill themself?
10. Do you have a child that he/she knows is not his/her?
11. Does he/she follow or spy on you leave or leave threatening messages?

A response of yes to any of questions 1-3 indicates a high level of lethality or yes to four or more questions 4 thru 11 also indicates a high level of lethality. In those incidences, the responding

officer should reach out to the local 24-hour domestic violence hotline for the victim to speak to an advocate for housing and resources.

Cases involving felony charges, charges related to weapons, defendants with violent criminal histories, histories involving gang activity, drug and gun charges, and high LAP scores where victims expressed extreme fear underwent screening by attorneys and the Newport News Police Department's Special Victims Unit for consideration as high risk. Following assessment, the Commonwealth Attorney's Office, Victim Witness Unit, Domestic Violence advocates, and the Newport News Police Department closely monitored and discussed these cases. The primary goal was to address the safety needs of victims and keep them informed about court dates and other criminal justice processes.

However, with the onset of the COVID-19 pandemic, the team ceased meeting in person at the beginning of 2020. The team did continue to correspond via email for the first few months of 2020 to coordinate concerns and ensure services were offered. It is important to note that all multidisciplinary teams encountered similar challenges during the COVID-19 restrictions. Despite the lifting of these restrictions, changes in management and staff have prevented the team from reconvening. These gaps in service provision during this period are apparent.

The Victim Witness Unit plays a vital role in extending support and assistance to individuals impacted by crime, serving as a crucial lifeline for those grappling with the intricacies of the legal system. With unwavering dedication, the Unit meticulously attended to five high-risk cases, each marked by the gravity and severity of the crimes involved. These cases represent a significant commitment to ensuring that victims receive the care, guidance, and resources they urgently require. The cases are listed in the table below:

	Concerns	**Resources**	**Outcome**
Defendant 1	*High LAP score* *Broke phone to keep from calling police* *Violations of PO's* *Struck victim with weapon* *Threats to kill*	*Shelter services* *Counseling for victim and children* *Met with CWA and advocate* *Court accompaniment*	*Defendant found guilty of multiple charges related to offense. Defendant sentenced to 20 years with 18 years and 5 months suspended. 10 ears of probation.*
Defendant 2	*High LAP score* *Long history of DV* *Defendant previously charged with homicide, convicted of manslaughter* *Slashed victims tires in an effort to keep her from leaving* *Documented gang member*	*Victim did not want to proceed with charges, numerous attempts were made to contact her, however, she did not respond.*	*Defendants were dismissed die to the victims lack of cooperation.*

Defendant 3	*High LAP score* *Punched victim in stomach while she pregnant* *Stole victims money* *Threats to kill* *Stole victims car* *Child witnesses* *Would not allow victim to leave the dwelling* *NNPD TOU call out*	*Coordinated assistance with NNPD to get money that was on defendant that belonged to victim* *Referral for medical services* *Referral for counseling services* *Referral to community resources* *Met with CWA and advocate* *Court and bond notifications* *Courtroom accompaniment*	*Defendant found guilty of multiple charges, defendant sentenced to 11 years with 9 years and 7 months suspended and 5 years of probation*
Defendant 4	*Long history of domestic violence with same victim* *Children in common* *Sexual Assault* *High LAP score* *Multiple violations of protective order* *History of use of weapon*	*Meeting with CWA and advocate* *Referrals to counseling services* *Communicated with NNPD DV team* *Courtroom accompaniment* *Referrals to community resources to assist with support funds*	*Defendant made Alford plea to Sexual Battery and Assault and Battery and given 10 months to serve.*
Defendant 5	*High LAP scare* *Documented gang member* *History of violence involving guns* *History of domestic violence with more than one victim* *Current incident broke/fractured multiple bones on victim to include the face* *Use of weapon during incident* *Child in common*	*Meeting with CWA and advocate* *Referral for shelter services* *Referrals for counseling for self and child* *Referral to community resources for financial support* *Applied for VVF* *Courtroom accompaniment*	*Defendant found guilty of multiple charges, sentenced to 27 years in prison, with 17 years suspended.*

From offering emotional support to guiding victims through legal proceedings, the Victim Witness Unit stands as a beacon of advocacy and compassion for those in need during their most vulnerable moments.

Our initiative to provide expanded services to family members of homicide victims is a crucial step in supporting those affected by such tragic events. By participating in the Newport News Police Department's Homicide Support Group and partnering with the Virginia Victim Assistance Network, the program aims to offer comprehensive support to those in need.

The decision to plan and implement a Homicide Support Group in 2019 demonstrates a proactive approach to addressing the emotional, psychological, and practical needs of individuals who have experienced the loss of a loved one due to homicide. Support groups can be invaluable resources for grieving individuals, providing a safe space to share experiences, receive guidance, and connect with others who understand their pain.

Through these efforts, the Victim Witness Program aims to not only offer immediate support but also to foster long-term healing and resilience within the community. By collaborating with local law enforcement agencies and established networks, they can leverage resources and expertise to ensure that co-victims of homicide receive the care and support they deserve.

In 2020, the Newport News Victim Services Unit began attending monthly meetings at the Newport News Police Department hosted for families of homicide victims. Due to the COVID-19 pandemic, the group switched to virtual meetings in the second quarter of 2020, the team continued to meet virtually through mid 2021. Since mid 2021, the meetings have returned to in person at the Newport News Police Departments Headquarters. In June of 2023, the Newport News Police Department held a gun violence awareness walk that was inspired by this group. Members of the Victim Services Unit participated in this walk to show support for these family members.

2021	12 Meetings
2022	12 Meetings
2023	12 Meetings

In 2019, the Virginia Victim Assistance Network began hosting meetings in partnership with the Newport News Victim Services Unit. These meetings are designed to support families who have experienced a loss due to homicide in a therapeutic way. The meetings were held at the victim services office and were led by a Resident in Counseling who specializes in working with individuals coping with loss. In 2024, we have moved the meetings to a centralized community center in Newport News in order to allow for easier access to the families.

2021	13 Meetings	18 participants
2022	16 Meetings	21 participants
2023	9 Meetings	14 participants

We share both of these resources with every family that has lost a loved one to homicide. Our Unit recognizes the importance of supporting these family members not only through the criminal justice process but also through their healing journey. It is our intention to help families experiencing grief and loss an opportunity to have somewhere that they can receive the

support and resources that they need and deserve. Knowing that their journey does not end when an arrest is made or when a trial is complete, we encourage families to participate in these groups at any point in time.

Old Goal and Objectives:

Goal: Provide comprehensive information and direct services to crime victims and witnesses in accordance with the Crime Victim and Witnesses Rights Act.

Objective 1.

The Newport News Victim Services Unit will distribute at least 50 folders per academic year containing information and resources pertaining to domestic/dating violence and protective orders to Christopher Newport University Title IX office and CNU police department for dissemination to students in need.

Objective 2.

The Newport News Victim Services Unit will serve at least 75 Spanish-speaking citizens per year through the commonwealth attorney's office, Newport News Police Department and community events designed to reach the Spanish speaking population.

Objective 3.

The Victim Witness Program will participate in the Naval Weapons Station Sexual Assault and Prevention Response team to educate active duty service members on the role of the civilian judicial processes along with a Newport News Commonwealth Attorney quarterly for the reporting period.

CORE XI:

DELINQUENCY PREVENTION PROGRAM

XI. Delinquency Prevention Program

Old Goal and Objectives:

Goal: Increase and improve communication, collaboration, and cooperation among and within all sectors of the Newport News community to promote delinquency prevention.

Objective 1.
The TOP program will provide services to at least 150 youth over the next three years.

Objective 2.
The Children in Need of Services (CHINS) program will provide services to at least 50 juveniles per year for the next three years.

Objective 3.
The Newport News Court Services Unit will divert 5 % of all diversion eligible cases

TOP program (Teamwork~Options~Pathways) is a delinquency program which currently utilizes the state's child welfare database, OASIS, as the primary method of tracking youth participants. OASIS is a state created system that tracks CPS history/background and case history for all DHS case management programs (CPS, Family Stabilization, Foster Care, Prevention [TOP], and CHINS). For monthly reporting, TOP Family Services Specialists track outcomes on all open families. We currently track items include but are not limited to: *No New valid CPS complaints; No new requests for housing assistance; no new family incidents/crises; no new community incidents/crises; improvement/no decline in grades; no new school incidents; no new criminal charges/justice involvement; no new display of trauma symptoms/behaviors; and family engaged in services.*

Currently, the Department of Human Services uses the NCFAS-G Assessment and the Trauma & Well-Being Assessment on all families that are open to TOP, upon intake, interim, and at case closure. This assessment assists the case managers with creating a family service plan which assures that appropriate services are provided to the families, to help meet family goals.

Program Accomplishment

In late 2019, the TOP program moved its home office from the South Morrison Education Center to Rouse Tower---the home base of its governing department, the Department of Human Services. Since the move, significant restructure and strategic initiatives have been explored. Two efforts the TOP Program is excited to share are the utilization of the SEAS Trauma Screening tool and the adaptation of a Two Generational Whole Family Approach to service-provision.

SEAS Trauma Screening

Under the Virginia Heals Model of service-delivery, Screening for Experiences and Strengths (SEAS) is a toolkit used to determine the presence of trauma in the lives of children. The brief evidence-informed screening tool, formerly known as the Virginia Victimization Screen (VVS) is accessible across systems to identify various forms of victimization and trauma among children/youth up to the age of 21. The SEAS is to be used to support referrals and any need for additional support and/or services. Case Managers and staff from the TOP Program were trained on how to use the tool in October 2022, and began implementation of the tool in January of 2023. Case Managers have offered the screening for every existing case since January of 2023, and within the first 90 days of every new case received. In combination with the team's Trauma and Well Being Assessment, the SEAS tool helps to inform and develop holistic service plans that seek to address the issues plaguing families as a result of past and current traumatic experiences.

Two Generational Whole Family Approach (2 Gen)

Though whole-family service provision is not an entirely new concept for the TOP Program, the TOP program aimed to revolutionize the traditional model by intentionally integrating a two-generational, whole family approach to service delivery. This innovative methodology recognizes that the well-being of children is intricately linked to the well-being of their parents or caregivers. By addressing the needs of both generations simultaneously, TOP strive to break the cycle of intergenerational poverty and disfunction, and improve outcomes for families in our community. In late 2023, the TOP program laid the foundation and explored how the existing program thoroughly addressed the vast majority of the Key Components of "2 Gen", and began to develop a proposal to outline how the program would enrich the following objectives:

1. To provide comprehensive case management services that address the needs of both children and their caregivers.
2. To empower families to set and achieve their goals by providing them with the necessary resources and support.
3. To foster collaboration among various community agencies and stakeholders to ensure a holistic approach to service delivery.
4. To measure and evaluate the effectiveness of the program through outcome-based metrics and feedback mechanisms.

Program Evaluation

TOP receives referrals from various agencies and individual sources. They include but are not limited to: *interagency (e.g. CPS, CHINS, The 4 Oaks Day Service Center, Healthy Families, Family Stabilization, etc.); Newport News Public Schools; Newport News Police Department; parent self-referrals; and community partners.*

Services currently offered to families are open to TOP case management include but are not limited to: *mentoring; tutoring; in-home counseling; outpatient counseling; summer programs; afterschool programs; rental and utility assistance; furniture assistance; and housing assistance.* Additionally, one of the caveats of the TOP program is the ability to offer and fund interest-based services to offer a more holistic approach to service planning. Examples of those services include sports-related team registration, arts activities, community clubs, and leadership groups.

- 2020– 73 families were referred to TOP (81 youth received direct services and 74 youth received indirect services)
- 2021 – 59 families were referred to TOP (64 youth received direct services and 50 youth received indirect services)
- 2022– 71 families were referred to TOP (75 youth received direct services and 44 youth received indirect services)
- 2023– 281 families were referred to TOP (100 youth received direct services and 57 youth received indirect services)

In 2020, the TOP program saw a decrease in referrals. Some of the reasons of the decline in referrals are:

  - The COVID-19 Pandemic had a major impact on referrals to the program. While schools were closed, we saw a significant drop in referrals from teachers, counselors and other school personnel in 2020 and 2021.
  - The COVID-19 Pandemic caused a few of our service providers to close their doors, resulting in decreased referrals.
  - Several position vacancies within the CFD team temporarily decreased our capacity. Additionally, turnover and vacancies with the department and other community agencies cause a need for heighted awareness efforts and education about the program, in order to reset the referral flow.

However, despite challenges with referrals, the TOP program was able to surpass its objective of serving at least 150 youth during the time period---serving a total of 545 youth from 2020 through 2023, with 320 of those youth receiving direct services. Direct service youth each have unique services plans due to their identified challenges, while indirect youth reside in the household, but only receive services indirectly through household supportive services, parental services, and residual impact from sibling improvements.

Additionally, CFD developed a Virtual Engagement Protocol with NNPS to address online school attendance truancy. Additionally, the team (equipped with new staff) took advantage of community programming opportunities to promote TOP internally and externally, resulting in a major referral increase in 2023 (+396%).

The TOP Program provides intensive wraparound case management services for families experiencing various challenges. Throughout 2023, Community and Family Development (or CFD, the Unit that facilitates the TOP Program) had 4 Family Services Specialists, carrying caseloads of families in need, while also developing and facilitating community programs (FSS dual roles is a new development for CFD). Some of the needs of TOP families are moderate, but in recent years many cases were very intense. When qualified families exhibit challenges that take extra focus and effort, our experienced Case Managers never give up on them---they continue to wrap services and supports around the family through their storms. The stories below follow the X family (Dad- "Mr. X", 3 children) and the Z family (Mom- "Mrs. Z", 13 year-old son "James", and 16 year-old daughter "Jessica"). **Names changed to protect client privacy**

The X Family

The inspiring journey of the X family within the TOP program is a testament to resilience and determination. Initially referred by the DHS internal program Child Protective Services, Mr. X, alongside his three children (2 biological and one court-appointed custodial child), embarked on a transformative path towards stability and success. Mr. X was navigating challenges while living with his mother, and his 3 children in a single-family home. Mr. X remained steadfast, balancing his responsibilities as a parent with employment through Rent-A-Center, while also providing the care for his mother.

The TOP Program started working with the X Family in 2016, but during the family's time with the TOP program January 2020-February 2021, the family encountered legal hurdles concerning custody, ultimately resulting in Mr. X securing permanent physical custody of his two sons. Despite the absence of the boys' mother, Mr. X persevered, ensuring his children's well-being while seeking case management and financial assistance through TANF.

With determination, Mr. X seized opportunities for personal and professional growth, as he was awarded a scholarship via Thomas Nelson Community College and was able to obtain his CDL license, securing full time employment by NNPS as a school bus driver.

All 3 children were referred and flourished through participation in Big Brothers Big Sister's mentoring program. The children also engaged in the C. Waldo Scott Center community initiatives, such as the after-school program, holiday programs and summer program.

Unfortunately, the family faced another hurdle, as they were forced to leave their home due to financial constraints, and Mr. X's mother was relocated to Arizona to live with her daughter. Despite the setback, after a brief stay in a shelter Mr. X's resilience stood out, as he secured housing in Aqua Vista in April 2021. TOP provided funds for the security deposit and first month's rent in order for the family to move into their new apartment (utilizing preservation funds from the Promoting Safe and Stable Families Grant).

April 2021 marked a significant milestone as the family successfully achieved their service plan goals, leading to the closure of their case. Their commitment to growth persisted, as they continued engagement in counseling services and community youth programs.

The X family's journey exemplifies determination, resilience, and the invaluable support provided by the TOP program in facilitating their path to stability and success.

The Z Family

Community and Family Development, in collaboration with the Newport News Youth Collective and a host of community partners such as NNPD, Alternatives, NNPL, NNPS, Boys and Girls Club, and NNPR, coordinated an exceptional summer camp experience tailored specifically for middle school students. This initiative served as a commitment to youth development, aimed to enrich the lives of middle school adolescents during the summer months.

During the summer camp, a male youth revealed a need for specialized support. Recognizing this, in July 2023, the Z family embarked on a transformative journey with CFD's TOP program. James Z, age 13, a student at Newport Academy located in New Horizons Regional Education Center that supports students on the Autism spectrum, navigated the complexities of high-functioning autism. His challenges including shutting down, difficulty processing emotions, and struggle with adapting to change were met with wraparound support from the TOP program.

His older sister, Jessica Z, age 16, attends Hampton Roads Academy and faces her own battles with generalized anxiety, ADHD, reservations, and insecurities.

Mrs. Z also desired support with James and Jessica. Since participating in therapeutic services, the family has begun to blossom. James has received 3 hours of mentoring services weekly from Quality of Life, and medication management through CSB to support his diagnoses. As a result of services in place, James' behaviors have become manageable as he is continuing to learn coping mechanisms and social skills.

Now flourishing socially, Jessica has been inducted into the Newport News Mayor's Youth Commission where she is working with other NN students consulting with the City leadership on projects throughout the year, concerned with improving the conditions for youth in Newport

News. Jessica also receives 3 hours of mentoring services weekly from Quality of Life, overcoming insecurities and developing socially.

Beyond individual growth, participating in TOP has also led the family to join a local church after attending CFD's IMPACT community event. This has allowed Ms. Z to find pastoral support, a sense of belonging and spiritual nourishment, increasing a sense of community. James and Jessica also both participate in youth activities and responsibilities within the church, further supporting the youth socially.

The family's journey towards self-sufficiency displays the transformative power of community support. As they continue to achieve their service plan goals, their story serves as a testament to the boundless potential of collaboration and compassion.

TOP, coordinated through the Department of Human Services, is a centralized intake, assessment, referral, and monitoring prevention strategy, providing critical wraparound and case management services to disconnected youth and families in Newport News. TOP utilizes a positive youth development approach in connecting youth and families to needed resources.

Youth who participate in TOP are:

- Connected to community-based programs and services where they can participate in positive activities, and interact with healthy peer groups
- Able to develop healthy relationships with caring adults
- Encouraged to consciously make positive choices regarding their behaviors
- Able to improve their self-esteem, academic performance, and relationships
- Empowered to make positive contributions to their family and community

TOP maintains a network community partner organizations offering programs and activities, such as counseling and therapeutic services; mentoring; tutoring; health and life skills; sports, fitness & recreation; and character & leadership development.

Despite current preventive measures, issues concerning juvenile delinquency are still relevant in the state of Virginia. For their elimination complex, comprehensive approaches and engagement of both the state and the society are needed at every stage of the crime. The efficiency of these measures requires that prevention programs reach all members of the risk groups and be fully accessible.

Below are the number of CHINS referrals received and community-based services provided to families in the community for 2021, 2022, and 2023. The numbers below are based on the total number of referrals received for youth/families served each year and does not include the number of CHINS cases/families/youth that rolled over/continued from the prior year.

Total Number of New CHINS Referrals Received in 2023:	**118**
CHINS Court Referrals	**42**
Truancy Court Orders	**25**
CHINS Direct Referrals	**50**
Transferred from Family Stabilization/CPS	**1**
Family denied/non-responsive (not included in # above)	**21**
Total Number of New CHINS Referrals Received in 2022:	**115**
CHINS Court Referrals	27
Truancy Court Orders	4
CHINS Direct Referrals	81
Transferred from Family Stabilization/CPS	3
Family denied/non-responsive (not included in # above)	**41**
Total Number of New CHINS Referrals Received in 2021:	**74**
CHINS Court Referrals	14
Truancy Court Orders	1
CHINS Direct Referrals	39
Transferred from Family Stabilization/CPS	20
Family denied/non-responsive (not included in # above)	15

The Program Evaluation highlights our comprehensive approach to providing intensive wraparound case management services to families facing various challenges in Newport News. The TOP program receives referrals from multiple agencies and sources, offering a range of services including mentoring, counseling, and assistance with housing and utilities. Despite facing challenges such as decreased referrals due to the COVID-19 pandemic and staffing issues, TOP exceeded its objective of serving 150 youth, reaching a total of 545 youth from 2020 to 2023. Through individualized service plans and community partnerships, TOP supports families in achieving stability and success, as demonstrated by the transformative journeys of families like the X family and the Z family. Additionally, TOP actively engages youth in positive activities and provides resources to empower them to make positive contributions to their families and communities. The evaluation underscores the importance of collaborative efforts and

comprehensive prevention strategies in addressing juvenile delinquency and supporting at-risk youth and families.

New Goal and Objectives:

Goal: Increase and improve communication, collaboration, and cooperation among and within all sectors of the Newport News community to promote delinquency prevention.

Objective 1.

The TOP program will provide services to at least 250 youth and support at least 100 parents and other adult family members over the next three years (utilizing the "2 Gen" Approach).

Objective 2.

The Children in Need of Services (CHINS) program will provide services to at least 75 juveniles per year for the next three years.

Objective 3.

The Newport News Police Department will collaborate with Newport News Public Schools to assist with delinquency prevention programming for the next 3 years, targeting 600 youth.

CORE XII:

CALEA ACCREDIATION

XII. CALEA Accreditation

Old Goal and Objectives:

Goal: To remain in compliance and meet all standards necessary for re-accreditation as a professional agency with the purview of the Commission on Accreditation for Law Enforcement Agencies (CALEA).

Objective 1.
To maintain files as proof of meeting the standards set forth for accreditation.

Objective 2.
Achieve satisfactory results in each of our annual CSM reviews.

Objective 3.
Maintain the agency's Tri-Arc status by having a successful re-accreditation for all three programs in 2020.

Program Accomplishment

The Newport News Police Department was once again reaccredited in 2020, remaining one of CALEA'S few Tri-Arc agencies in the United States, Canada and Mexico. The NNPD will meet with the CALEA commissioners in March 2024, to determine reaccreditation to be awarded. The NNPD has maintained Tri-Arc status in accreditation namely in Law Enforcement since March 1986, Training Academy since March 2012, and Communications since April 2016. For the past four years 2020-2023, the NNPD has been in compliance with maintaining the CALEA files with satisfactory results through our annual web-based assessments in PowerDMS. Also, in November 2023, we completed our on-site assessment with no noted deficiencies.

Program Evaluation

The Newport News Police Department continues to demonstrate professional excellence in maintaining CALEA accreditation since 1986. During 2020-2023, the Department has maintained the required files for continuous compliance in each of our assessments law enforcement, training academy, and communications. Our goal is to remain in compliance and meet all standards necessary for re-accreditation as a professional agency with the purview of the Commission on Accreditation for Law Enforcement Agencies (CALEA).

Since 2015, CALEA required all agencies receiving reaccreditation to use PowerDMS to manage the process. The system is still a valuable tool to store and maintain all proofs for compliance in one location, clone past audits for reaccreditation, and provide electronic up-to-date information. The files are able to be maintained and accessed from anywhere to view compliance records at all times.

The NNPD continues to achieve satisfactory results in each of the annual remote web-based assessments. In 2021's, remote web-based assessment 175 standards were reviewed for Law Enforcement, 39 for Training Academy, 53 for Communications and the findings denoted 3 standard issues that were resolved. In 2022, the remote assessment included 108 standards for Law Enforcement, 28 for Training Academy, and 30 for Communications with 4 standard issues that was resolved. In 2023, 155 standards that were reviewed were reviewed for Law Enforcement, 26 for Training Academy, and 34 Communications there were 3 noted standard issues that were resolved. Overall, the Law Enforcement, Training Academy and Communications assessment at the end of the cycle had 100% compliance verification with no standard issues.

In March 2024, the NNPD is expected to obtain reaccreditation through CALEA. NNPD has received satisfactory results in the remote assessments, as well as site-based assessment activities as components of the accreditation process. During the November 2023, on-site inspection of each of the three programs resulted with no noted deficiencies with the standards. Our compliance was verified, and we have been recommended to the CALEA board of Commissioners to determine our reaccreditation of all three programs in March 2024. The NNPD will maintain the agency's Tri-Arc status by having a successful re-accreditation for all three programs namely law enforcement, training academy, and communications in 2024. The NNPD next reaccreditation will be in 2027.

New Goal and Objectives:

Goal: To remain in compliance and meet all standards necessary for re-accreditation as a professional agency with the purview of the Commission on Accreditation for Law Enforcement Agencies (CALEA).

Objective 1.

To improve delivery of public safety services by maintaining a body of professional standards that support the administration of accreditation programs through maintaining 100% electronic records through PowerDMS annually.

Objective 2.

Create organizational transparency through accurate reporting in CIMRS annually.

Objective 3.

Maintain successful re-accreditation for all three programs namely law enforcement, training academy, and communications in 2024 and continue to maintain tri-arc status until the next reassessment in 2027.

OPTIONAL ELEMENTS

OPTIONAL I:

TRIAD/SALT

I. TRIAD/SALT

Old Goal and Objectives:

Goal: Improve the quality of life for seniors by providing an opportunity for the exchange of information between law enforcement and senior citizens.

Objective 1.
Continue to provide the Senior Safety Summit annually to seniors in Hampton Roads with a goal of educating 800 seniors over the next 3 years.

Objective 2.
Offer two CarFit events annually.

Objective 3.
Offer a Citizen Police Academy for Seniors academy annually and participate in at least four senior-related events.

Program Accomplishment

The Newport News Police Department's decision to adopt Meals on Wheels once a month represents a meaningful commitment to serving and supporting the most vulnerable members of the community. By participating in this program, offered through Peninsula Agency of Aging officers extend beyond their traditional law enforcement duties to address the holistic needs of residents, particularly seniors and individuals with disabilities who may be isolated or unable to access nutritious meals. Adopting Meals on Wheels not only provides essential sustenance to the needy but also fosters positive interactions between police officers and community members, enhancing trust, empathy, and social cohesion. This initiative reflects the department's dedication to proactive community engagement and reinforces its role as a compassionate and responsive partner in promoting the well-being and safety of all Newport News residents. The Department has delivered 792 meals for the past three years. The seniors look forward to interacting with police officers and civilians who drop off their meals monthly.

For the reporting period, there were no gaps in service.

Program Evaluation

Through our commitment to enhancing the well-being of our senior community, we have successfully organized and hosted the Senior Safety Summit annually for the past three years. This initiative aimed to educate and empower seniors, successfully reaching our target of educating 800 seniors over the past three years. The breakdown is as follows:

Year	Attendance	Total
2023	304	
2022	298	
2021	199	
		801

The Senior Safety Summit has not only been a platform for education but has also fostered a sense of community, providing seniors with valuable resources and connections. Attendees have reported increased knowledge about safety measures, improved access to support services, and an enhanced sense of security in their daily lives.

The Peninsula Senior's And Law enforcement Together (SALT) Council's commitment extends far beyond the summit itself. We have taken proactive measures to ensure a lasting impact on the safety and well-being of our senior communities through follow-up programs, widespread distribution of informational materials, and close collaboration with local agencies. Our initiatives cover a range of vital topics such as *Personal Safety for seniors, Holiday Safety, Mental Wellness, Elder Abuse Prevention, Fall Prevention, Fraud Protection, Adaptive Devices, and Medication Management*. These programs in partnership with esteemed organizations including the *Peninsula Agency on Agency, Riverside Hospital's Occupational Therapists and Nurses, Hampton-Newport News Community Services Board, InnoVage, BayAging, Hampton Roads Community Action Program (HRCAP), and AARP.*

We have made valuable resources accessible to seniors, including free pillboxes, literature on adaptive devices for homes and vehicles, safety tips, fraud prevention information (including guidance on obtaining free annual credit reports), and brochures on personal safety and reporting suspicious activities. The resounding success of the Senior Safety Summit not only met but also exceeded our initial objectives, reinforcing our unwavering dedication to the health and safety of our senior population.

For the reporting period, TRIAD/SALT sponsored six CarFit events and 74 seniors were properly "fitted" for their vehicles.

Year	Date	Total
2023	11/6/2023	17
	5/1/2023	12
	9/19/2023	16
2022	4/26/2022	11
2021	4/7/2021	8
	9/1/2021	10
		74

In addition to the Senior Safety Summit annually, the SALT Council has agreed to host at least two car fit programs a year to ensure our seniors are safe behind the wheel of their vehicles.
The term "car fit" typically refers to how well a vehicle accommodates a particular individual based on various factors. It involves assessing whether a car is suitable for a person's needs, preferences, and physical characteristics.

The main areas we discuss with seniors during their checkup is:

- ✓ Physical Comfort: Seating and Ergonomics to include Leg and Head room
- ✓ Accessibility: Ease of entry and exit
- ✓ Driving Position: steering wheel, pedal Reach and visibility
- ✓ Safety Features: seatbelts, tire pressure, airbags, warning flashers, etc.

In an effort to protect our seniors from being victims of crime, it is important we continuously educate seniors on personal safety and other relevant topics. For the reporting period, the Newport News Police Department offered three Citizen Police Academies for Seniors (CPAS). Unfortunately, due to Covid19, one of the class offered received little to no interested and was cancelled due to low enrollment. However, we were able to educate 30 seniors through the two classes offered. The goal, regardless of the number of seniors enrolled, is to allow seniors to gain valuable insight into police procedures, crime prevention strategies, and community policing efforts, empowering them to be informed and proactive members of their neighborhoods. Overall, the Citizen Police Academy for Seniors promotes positive interaction, mutual respect, and collective efforts towards creating safer and more vibrant communities.

Our focus remains on equipping seniors with the knowledge and awareness necessary to enhance their safety within the community. Through various avenues such as classes, presentations, and events, we aim to empower seniors to become more vigilant and resilient against potential threats. For the reporting period, we offered a total of 23 programs and activities tailored specifically for seniors. These included initiatives like CarFit events, health fairs, Citizen Police Academy for Seniors (CPAS) classes, forums and Safety Summits. Each of these programs contributes to our

overarching goal of making seniors more informed and capable of navigating their surroundings securely. Below is a breakdown of the programs provided:

Date	Program	#of senior attendees
12-6-2023	*Yuletide Greetings Program*	*196*
10-27-2023	*Denim, Diamonds & Pearls Senior Dance Party*	*74*
10-7-2023	*Neighborhood Watch Conference*	*31*
9-19-2023	*Lifelong Citizenship Awards*	*78*
9-6&7, 2023	*TRIAD Conference*	*186*
8-10-2023	*JenCare Senior Health Fair*	*82*
7-25-2023	*Senior & Law enforcement breakfast*	*61*
6-24-2023	*Shred Day*	*291*
4-14-2023	*Senior Dance Party*	*82*
4-12-2023	*Spring into your best self – health fair*	*123*
3-30-2023	*What are you seeing, saying doing mental health forum for seniors*	*50*
3-20-2023	*Seniors & Law Enforcement Breakfast*	*65*
3-1-2023	*Forum on Aging*	*528*

Seniors play a vital role in our society and their safety remains paramount. By staying attuned to their unique needs and preferences, we contribute to their overall quality of life. We are steadfast in our commitment to keeping seniors safe, engaged, and informed as they embark on every journey, and we look forward to continuing to create meaningful and positive impacts in their lives through our ongoing initiatives. Through education, engagement, and collaboration, we aim to empower seniors to take an active role in safeguarding themselves and their peers. As we continue to evolve and adapt to the changing needs of our senior population, we remain committed to fostering a culture of vigilance and resilience. Together, we can build a stronger, safer community for all.

For the reporting period, meticulous attention was devoted to the SALT Program ensuring there were no gaps in service for seniors. Through coordinated efforts among stakeholders, including *law enforcement agencies, social workers, healthcare providers, and community organizations*, a seamless network of support was available for seniors. By bridging any potential service divides, the program upheld its commitment to safeguarding the well-being and dignity of seniors, fostering a thriving and inclusive community for older adults.

New Goal and Objectives:

Goal: Improve the quality of life for seniors by providing an opportunity for the exchange of information between law enforcement and senior citizens.

Objective 1.
Continue to provide the Senior Safety Summit annually to seniors with a goal of educating 880 seniors over the next 3 years.

Objective 2.
Aim to achieve a 10% increase in the number of seniors attending senior-related activities annually.

Objective 3.
Provide CarFit Training and/or refresher training annually.

Objective 4.
Train at least 3 Technicians per year for the next 3 years.

OPTIONAL II:

NATIONAL NIGHT OUT

II: National Night Out

Old Goal and Objectives:

Goal: In order to increase crime prevention awareness and reduce crime, The Newport News Police Department will continue efforts to keep the community aware of new and updated crime prevention methods through collaboration with neighbors and businesses at National Night Out.

Objective 1:
Demonstrate new technology techniques that the police department is using to assist in solving crimes to the public at National Night Out events by 2021.

Objective 2:
Encourage other community organizations to participate in National Night Out and increase this number by two per year for each event.

Objective 3:
Educate the Neighborhood Watch Coalition at National Night Out (in order to reach more people) by 2020, on how the Domestic Violence Team works and how they can partner with this group to assist them. Updates on the partnerships can be presented at the National Night Out events annually.

Program Accomplishment

In 2023, National Night Out was a tremendous success, marked by the highest number of participating businesses, with a notable presence of eleven actively engaged businesses. Those businesses included *Mission BBQ, 7-11, Pearl Bailey Library, Grissom Library, Main Street Library, Boys & Girls Club (Aqueduct and Hampton Ave), McDonald's, Patrick Henry Mall, New Beech Grove, and Smoke BBQ.* The K-9 demonstrations were a hit as always, drawing large crowds eager to see these skilled dogs in action. Additionally, the Drone Unit made a debut displaying innovative technology and techniques. Allowing citizens to see how the utilize technology to assist with crime prevention efforts. Each year National Night Out provides an opportunity to create memorable experiences and enhances the importance of police-community relationships.

Program Evaluation

National Night Out promotes a healthy relationship between citizens, shareholders, businesses and the Newport News Police Department. This program fosters cooperation, problem solving, networking and getting neighbors actively involved in fighting crime within the community.

Partnerships: *Collaboration between members of the community, businesses, stakeholders and law enforcement. Community involvement in crime prevention is generated through a multitude of local events such as: block parties, cookouts and parades.*

Problem Solving: *National Night Out assists with problem solving because it builds trust between the community and businesses and creates a healthy environment for thought-provoking, productive and open conversations.*

Community Engagement: *National Night Out involves law enforcement and other public safety entities to engage with residents through interactions with the community. Residents, shareholders and business participate in activities and network amongst each other.*

Decentralized Decision Making: *Decentralized decision making among law enforcement agencies is a key part of National Night Out. Business owners and residents are encouraged to have conversations to make decisions within their own communities to make them safer to live, work and play.*

The Newport News Police Department remains at the forefront in using technology to improve public and officer safety. We have been using digital technologies for years, and during 2021, we were able to expand on what we have and implement new strategies. In addition to officer and community safety, technology is helping to solve crime faster, improving time management and maximizing resources.

In 2021, the NNPD's Real Time Crime Center (RTCC) became fully functional. The technologies available in the center allow officers to respond to emergency situations more effectively and efficiently within a much shorter timeframe. In addition, The RTCC allows the vast amount of data, information and intelligence to be managed efficiently resulting in accurate and immediate access to critical information. Additionally, the Department updated its Records Management System (RMS) and Computer-Aided Dispatch (CAD) software from Hexagon. These upgrades bring the department up-to-date with the latest software available for public safety. Furthermore, for the first time ever, NNPD equipped all officers with city-issued mobile phones. These phones enable them increased mobility and to have access to the latest technology, even when they are out of their patrol cars, as well as utilize law enforcement related apps.

Several critical technological advancements affected the Newport News Police Department in 2022. Most notable among these was implementation of the Fusus system and Flock cameras. By integrating available camera feeds into Fusus, NNPD personnel, from patrol officers to homicide

detectives, have been better able to track fugitives and verify investigative facts. The launch of Flock cameras (automated license plate readers) has drastically improved response time in addition to aiding in stolen vehicle recovery and in tracking fugitives. Other advancements in 2022 included the purchase and rollout of five covert cameras, which aid in ongoing investigations and cover blind spots in the existing city camera system; and improvements in the Shot Spotter app, to include more precise GPS tracking of gunshot incidents.

The Department's investment in ShotSpotter technology has proven to be a game-changer in enhancing the safety of neighborhoods. With a network of acoustic sensors, ShotSpotter can detect gunfire and quickly pinpoint its location, alerting officers and dispatchers in less than a minute. The successful implementation of this technology in the South Precinct has led to its expansion into the North Precinct in 2023. The installation of Flock cameras in an area known for high volumes of violent crime has resulted in a significant reduction in criminal activity. The cameras were installed during the summer of 2023 and have made a notable impact, with reductions in homicides and other violent crime. This success can be attributed to the advanced technology of the Flock cameras, which provide high-quality video footage that has helped law enforcement identify and apprehend suspects. Information on technology updates were highlighted annually in the Department's annual report, which is made available for citizens through the Newport News Police Department website.

Furthermore, as technology continues to play a crucial role in organizing and enhancing National Night Out events and community initiatives, the importance of fostering direct, personal connections between law enforcement and citizens through neighborhood watch gatherings becomes even more evident. National Night Out events are invaluable opportunities for law enforcement officers to engage with citizens in a welcoming environment outside of the police station. These events foster positive interactions between officers and community members, breaking down barriers and building trust. By meeting residents on their own turf, officers can establish meaningful connections, gain firsthand insights into neighborhood concerns, and collaborate with citizens to address local issues proactively. This face-to-face interaction not only humanizes law enforcement but also strengthens the sense of partnership and mutual respect between police and the community they serve, ultimately contributing to safer and more cohesive neighborhoods.

For the reporting period, there were a total of 43 events. In 2021, there were 14 events. Those events included socials, parades, games and ice cream socials. In 2022, there were 13 events. Those events included music, potlucks, cookouts and a cakewalk. In 2023, there were 16 events. Those events included pizza parties, block parties and giveaways. Moreover, community organizations have played a crucial role in National Night Out events. We understand how crucial it is to engage community organizations in partnerships for National Night Out as their involvement fosters stronger community cohesion and enhances the effectiveness of crime prevention efforts. Several organizations have collaborated with Newport News Police Department over the past 3 years. We have made a positive impact on the community for National Night Out so many of the same organizations come out every year.

In 2021, we had 14 organizations participate in National Night Out. They were Wendwood Apartments they had a social gathering; Willow Green Neighborhood held a parade, Burkdale Neighborhood Watch gave a Barbecue, Grissom Library conducted a Splatter Paint Event, Mission

Barbecue had a barbecue dinner, Riverside Neighborhood Watch held a get together, Cottage Grove Apartments held a barbecue dinner and an ice cream social, See and Tell Crime Watch had a barbecue, The Scott Center teamed with The Pearl Bailey library and had popcorn and drinks, Zion Baptist had a barbecue, Shore Patrol had a barbecue, Maxwell Gardens had an ice cream social, Main Street Library presented "Harold Wood, circus in a suitcase", Shore Park neighborhood had a potluck.

In 2022, we had 13 businesses come out to join National Night Out. Those that participated were: Mission Barbecue, they served barbecue, Pearl Bailey Library had music, games and refreshments, East End Neighborhood Watch had a cookout, East Russel Courts had a potluck, Nettles Drive Apartments had a meet and greet, Main Street Library had games and refreshments, Berkley South Apartments held a meet and greet, Highwater Flates had food and fun, Riverside Neighborhood Watch had a meet and greet, Maxwell Gardens had a get together, Brookdale Neighborhood Watch had a cookout, Grissom Library-music, games and refreshments, Regency Square Apartments had snacks, games and a cake walk.

In 2023, we had the highest number of neighborhood watch participants at National Night Out then we have had since 2019 (Pre-Covid). In 2019, there were 21 participants. We still had a very good turnout of 16 with Boys and Girls Club making appearances from 2 different clubs. Those in attendance were: Willow Green Neighborhood had a pizza party, Maxwell Gardens had a meeting, Nettles Drive Apartments had an informal meeting, Riverside Neighborhood Watch, Grissom Library had food and fun, Shore Park Neighborhood had a cookout and games, Boys and Girls Club had a cookout, Pearl Bailey Library had free food and fun, another Boys and Girls club had a block party, Shore Patrol had a meet and greet, Salter's Creek had refreshments, Clark Neighborhood Watch had a potluck, East Russel Courts Neighborhood Watch had a potluck, Main Street Library had food and fun, and Regency Square Apartments had giveaways.

The Department and these organizations collaborated closely with the Newport News Police Department's Domestic Violence (DV) Team. Together, they leverage NNO as an additional platform to address the epidemic of domestic violence. This partnership underscores the collective commitment to raising awareness and providing support within the community.

Regrettably, we fell short of our target to increase business participation by two from 2021 to 2023. The Newport News Police Department remains actively engaged through our Neighborhood Watch Coalition and monthly Executive Board meetings held every second Monday at Police Headquarters. We established collaborative efforts with the Domestic Violence (DV) Team, notably during National Night Out events. In August 2020, the DV Team conducted outreach at the virtual National Night Out event hosted by NNPD. In September 2020, we facilitated a virtual DV outreach presentation for a Neighborhood Watch group in the North precinct.

Looking ahead to 2024, we aim to boost participation through a referral system and leveraging social media platforms to engage business owners and partners. Social media has proven to be an effective tool for disseminating information, alongside the continued efficacy of our referral system. The current Executive Board is actively discussing strategies to recruit more community watch members, and we encourage generating referrals during patrol officers' business checks to encourage participation in National Night Out initiatives.

In conclusion, the overall significance of technology, community organizations, and domestic violence awareness for National Night Out cannot be overstated. By harnessing the power of technology, communities can amplify their efforts in promoting safety and fostering connections among residents. Collaborating with community organizations not only enhances the reach and impact of National Night Out events but also strengthens the fabric of local communities, making them more resilient and supportive. Additionally, raising awareness about domestic violence during National Night Out underscores the importance of addressing this critical issue and creating safe spaces for all members of the community. Together, these elements contribute to building safer, more inclusive communities where everyone can thrive.

New Goal and Objectives:

Goal: To build a safer and more resilient community, the Newport News Police Department aims to establish year-round crime prevention initiatives that foster proactive engagement, empower residents with comprehensive crime prevention knowledge, and strengthen partnerships between law enforcement, neighbors, and businesses, to include the National Night Out.

Objective 1:

Partner with one neighborhood watch group at National Night Out to implement an interactive workshop or presentation. Educate residents on practical crime prevention strategies and foster stronger community partnerships by 2024.

Objective 2:

Establish a comprehensive outreach plan to engage diverse community groups and organizations in ongoing crime prevention initiatives throughout the year, aiming to expand participation in National Night Out events by 10% annually by 2024.

Objective 3:

Enhance community outreach by incorporating a Newport News Public School student's participation in the National Night Out kickoff ceremony annually with a goal of increasing school –age participation.

OPTIONAL III:

CRIME LINE

III. Crime Line

Old Goal and Objectives:

Goal: To enhance crime-solving and prevention capabilities for police departments through the availability of the anonymous tip line and P3tips.

Objective 1.
Conduct two organized fundraisers to publicize the program and financially support the cash awards annually.

Objective 2.
Profile a crime each week in print, television, and social media.

Objective 3.
The board will meet monthly to review the status of pending tips and facilitate the payment of awards.

Objective 4.
Continue to promote Crime Line through various departmental social media platforms.

Program Accomplishment

For the past four years (2020-23), there have been a total of 2,287 tips to the Newport News portion of the Virginia Peninsula Crime Line Program (formerly the Peninsula Crime Line), resulting in 87 arrests. The 1-888-LOCK-U-UP number continues to be the second most recognized phone number besides 911 utilized in Hampton Roads. The four local TV stations (WVEC-13, WAVY-10, WTKR-3, FOX-43) air the phone number and website, P3Tips.com, daily. The print media, Daily Press and Virginian-Pilot, frequently advertise the phone numbers and website in related news articles.

The Newport News Crime Line program had several notable arrests in 2023. Three homicide cases were cleared thanks to this program. In two instances, tipsters provided the location of a homicide suspect who had warrants on file, who were later arrested due to this information. In a third case, a tipster provided the identity of the perpetrator of a homicide, and the suspect was later charged and arrested.

In addition, the Newport News Crime Line also received a tip in regards to a large marijuana "pop-up" market being held at a vacant business on Jefferson Ave. One evening, officers noted activity in the area and investigated. Four individuals were arrested on drug and weapons charges, and more than $2.4 million worth of drugs, guns and cash was recovered – the richest bust in the history of the Virginia Peninsula Crime Stoppers program.

The program has averaged about two arrests per month since 2020. The board met monthly throughout the evaluation period, either in-person or virtually, to review statistics and arrests from the surrounding jurisdictions, including Newport News.

Program Evaluation

Since 1982, the Virginia Peninsula Crime Stoppers Program (formerly the Peninsula Crime Line and Virginia Peninsula Crime Solvers) has been successfully fighting crime on the Peninsula through its partnership with the community, law enforcement and the media. The Virginia Peninsula Crime Stoppers Program serves the cities of Newport News, Hampton, Poquoson, Williamsburg, and the counties of James City and York. Crime Line tipsters use the number 1-888-LOCK-U-Up or the website P3Tips.com to give anonymous tips to police. Crime Line pays rewards up to $1,500 when the tip leads to an arrest, recovery of stolen property, or seizure of illegal drugs. From 2020-23, the Newport News Crime Line received 2,287 tips and made 87 arrests. The reward amount was increased from a maximum of $1,000 to $1,500 in 2023.

Citizens often play an important role in solving crimes. Without their calls to law enforcement to investigate tips and the media's assistance in releasing the information, many crimes would not have been solved.

The Virginia Peninsula Crime Stoppers Program has been advertised through various outlets. For example, throughout the Peninsula, a local company, Adams Advertising, provides a space on their digital billboards for law enforcement agencies to highlight specific fugitives and crimes. This resource is used when the most violent and dangerous criminals are sought. Hundreds of thousands of commuters see these requests for information in reference to violent crimes committed in the city.

The Newport News Police Department also advertises Crime Line through local television websites, Newport News TV and social media outlets Facebook, Instagram, YouTube, Next Door and Ring Neighbors app. "Weekly Wanted" fugitive ads are posted on social media to solicit the public's assistance in finding individuals with outstanding criminal warrants for crimes committed within the city. Periodic "attempting to identify" social media posts are also made to highlight cases where the police need help identifying a suspect in a surveillance photo or video. The Crime Line phone number and website are always publicized in these posts, and in news released following critical incidents, to encourage citizens with information to come forward anonymously. Local media often publicize these cases in their news reports, as well.

The Virginia Peninsula Crime Stoppers Program is a non-profit organization that relies solely on tax deductible donations from citizens, businesses, and corporations. It does not receive any tax dollars from local, state or federal governments. The Crime Line Board of Directors sponsored a Salute to Law Enforcement dinner or luncheon in both 2022 and 2023, where officers from the surrounding jurisdictions are honored for outstanding performance of duties (events were not held due to COVID-19 in 2020 and 2021). In 2020, 2022 and 2023, the Crime Line Board also held a fundraiser at a local comedy club where ticket sale proceeds benefitted the crime line (event was

not held in 2021 due to COVID-19 concerns). Additionally, the Virginia Peninsula Crime Stoppers participated in a yearly travel raffle with other regional crime stopper organizations, raffling off a vacation while raising money for crime line initiatives. Finally, the Virginia Peninsula Crime Stoppers also raise funds throughout each year through corporate grants and private donations. These funds help pay for the regional Crime Line tip number (1-888-LOCK-U-UP) and pay rewards to tipsters whose tips lead to arrests.

Crime Line has been beneficial to the Newport News Police Department, as the community has taken a stand to provide law enforcement with the necessary information to solve crimes in recent years.

Gaps in Service

The only gaps in service were the cancellation of some of the in-person fundraisers in 2020 and 2021 due to COVID-19 concerns. Other fundraisers were still conducted that did not require face-to-face meetings during this time, however.

New Goal and Objectives:

Goal: To enhance crime-solving and prevention capabilities for police departments through the availability of the anonymous tip line and P3tips.

Objective 1.
Conduct at minimum one organized fundraiser to publicize the program and financially support the cash awards annually.

Objective 2.
Continue to promote Crime Line through regular departmental social media posts and news releases at least once per month.

Objective 3.
The board will meet monthly to review the status of pending tips and facilitate the payment of awards.

OPTIONAL IV:

SCHOOL RESOURCE OFFICER

IV. School Resource Officer

Old Goal and Objectives:

Goal: Through education and the enforcement of state laws and Newport News city ordinances interact with students and faculty in a non-confrontational setting in order to reduce incidence of crime and violence in schools.

Objective 1.
Conduct joint training on an annual basis between members of the School Resource Unit and NNPS Security.

Objective 2.
Continue the Young Adult Police Commissioner's Program. High School students throughout NNPS will be included as members with law enforcement from the School Resource Unit helping to coordinate the program.

Objective 3.
The SRO unit will participate in 3 sporting events during this rating period with students enrolled in NNPS. This may include football games, softball games, or any other events with the focus on positive interactions between police and school students.

Program Accomplishment

The Partnership between the Newport News Police Department and Newport News Public Schools contains many examples of non-confrontational interactions that benefit the safety and security of students and staff and demonstrate a model partnership.

Communication is paramount to nearly every successful relationship. Monthly meetings are held at the NNPS administrative office and attended by the leadership of the NNPD SRO Unit, the Newport News Juvenile Intake supervisor, select members of the NNPS administrative team, and the assistant principals of operations from High Schools. These meetings offer a consistent opportunity to speak frankly about current issues, recent events, and ways to improve the partnership. Chief of Police Steve Drew will personally attend this and other meetings at school administration when scheduling allows.

NNPS has assisted in allowing NNPD to continue and expand its youth programs. As detailed below in the program evaluation, on a weekly basis during the school year, officers transport students from each High School to participate in our Young Adult Police Commissioners Program. The set-up of the program is to have a freshmen, sophomore, junior, and senior from the high schools attend for a total of 24 students in the program. Recruiting is done at school and staff helps recruit students in addition to allowing SROs to place flyers around the building to advertise this

and other programs offered. Active Attack Training is consistently conducted and participated in throughout the NNPD to include by each Basic Law Enforcement class, the Tactical Operations Unit, and other specialized classes. Being able to perform this training on site at real locations that the police department would respond to is instrumental in making training as realistic as possible. On numerous occasions, NNPS has allowed NNPD to conduct training in their buildings. Examples include at Denbigh High School, Kiln Creek Elementary School, and Menchville High School.

When selecting officers to transfer to the position of SRO within the NNPD, part of the process is a panel interview. Diversity and mixed perspectives is strived for on this panel. Thanks to the strong partnership, an administrator from NNPS sits on the panel and is part of the process of selecting which officer to transfer within NNPD.

Aside from the above mentioned items, there is consistent communication between SROs with their building administration after regular school hours, and SRO supervisors with various school administrators after hours. These open lines of communication show the dedication of all parties involved to maintain the safest learning environment possible in our city's public school system.

Program Evaluation

While the Covid-19 pandemic limited training opportunities, members of the SRO Unit and NNPS school security took advantage of possible opportunities.

Prior to the start of the new school year in August of both 2022 and 2023, the entire SRO unit attended a training session being held by school security. This was held at Warwick High School in 2022 and Heritage High School in 2023. At these sessions, members of the SRO unit, and several members of our larger Community and Youth Outreach Division, introduced themselves and provided an overview of their specific position to school security. Questions were also answered from both sides of our roles in the school and how we can work together to ensure safe learning environments. This type of open communication and relationship building is imperative to our success together.

The Young Adult Police Commissioners Program (YAPC) is a key component of the Newport News Police Department's outreach efforts to youth in our community and school system. Consisting of students from each grade level at all city high schools, this group meets weekly during the school year with members of the School Resource Unit. They are also given direct access to Chief of Police Steve Drew as he visits a majority of meetings to interact with the youth. 24 students are slotted to be in the program which includes a student from each grade level in the city High Schools (6).

Over 70 students have spent time in this program learning about different aspects of the police department through hearing and seeing firsthand from members of the various units and services offered during this reporting period. This could be a discussion with our domestic violence specialist Dr. Cheryl Chavers, a presentation from members of our tactical operations unit, or a tour of our innovative real time crime center. Students were exposed to the heritage of our city while touring the Newsome House. Breaking down the barrier between law enforcement and youth is also critical so time is made for fun team building activities as well such as visits to Surge, a local trampoline park.

Members of this program complete an application and must agree to follow the rules therein. There are formal events such as a swearing in ceremony with a real judge from our city, and the yearly Gala event. This program has allowed for deeper connections and mentoring opportunities between the youth and law enforcement.

Officers in the School Resource Unit, along with others from the Community and Youth Outreach Division, consistently participated in a variety of sporting events during this period. The In Touch Basketball Tournament, in both August 2022 and August 2023, provided officers the opportunity

to interact with youth and play basketball alongside them. These valuable opportunities show the common interests and connections we can build with those that sometimes only see officers in uniform. This tournament was highlighted on a local news station, Wavy News, in August 2022. It is estimated that a few dozen youth participated in each of these events.

The Tri-Cities Hurricanes are a youth sports organization in our area. We have collaborated with them on two occasions to play flag football with the youth in this organization at both Ella Fitzgerald Middle School and Newport News Park. A few dozen children, aged middle through high school, participated in these games.

New Goal and Objectives:

Goal: Through education and the enforcement of state laws and Newport News city ordinances, interact with students and faculty in a non-confrontational setting in order to reduce incidence of crime and violence in schools.

Objective 1.

The Newport News Police Department, to include members of the School Resource Unit, will conduct a joint training exercise with school officials for an active attack scenario inside a school building at least once during this reporting period.

Objective 2.

Provide mentoring to students enrolled in Newport News Public Schools. This will be done through both formal and informal programs with the goal of improving the well-being of students and breaking down barriers between youth and law enforcement. This will be done with the goal of reaching at minimum 50 students annually.

Objective 3.

School Resource Officers will take one of the Newport News Police Department's Police and Pals Trailers, on three different occasions during this reporting period, to different locations for pop-up events. This will be done while school is not in session for the purpose of interacting with youth in an informal setting and to demonstrate our commitment to interacting with them in a non-confrontational setting.

OPTIONAL V:

CITIZEN POLICE ACADEMY

V. Citizen Police Academy

Old Goal and Objectives:

Goal: Build relationships and create a cadre of citizens more informed regarding police operations.

Objective 1.
Continue to offer Citizen Police Academies (General, Senior & Youth) over the next three years educating at least sixty citizens per year.

Objective 2.
Develop and launch a Citizen Police Academy for Clergy by January of 2021.

Objective 3.
CPAAA will participate in at least 4 events per year and will use these opportunities to spread the word about the Citizen Police Academies offered through the Newport News Police Department.

Program Accomplishment

The inaugural Citizen Police Academy for Hispanics, hosted by the Newport News Police Department, marked a significant step towards fostering trust and inclusivity within the community. This initiative reflects the department's commitment to engaging with and understanding the needs of the Hispanic population. Participants had the opportunity to gain insight into law enforcement procedures, enhance communication with officers, and contribute to a safer environment for all. By actively involving the Hispanic community through this endeavor, the Newport News Police Department demonstrates its dedication to building relationships and promoting cultural understanding and respect. On November 2, 2022, sixteen citizens graduated from the first class. To date, the Newport News Police Department offers a class annually.

Program Evaluation

The Newport News Police Department Citizen Police Academies play a pivotal role in fostering a deeper understanding and collaboration between law enforcement and the community we serve. Its importance lies in several key aspects from building trust, to create an atmosphere of education and awareness to improving the dialogue and demystifying police work, these classes give citizens the opportunity to get an inside look at the Department.

Here are several key reasons why these academies are important:

- ✓ **Community Engagement and Trust Building**: Citizen Police Academies provide an opportunity for members of the community to engage directly with law enforcement officers, ask questions, and gain insights into police operations, policies, and procedures. This engagement helps build trust, transparency, and positive relationships between police departments and the community members they serve.
- ✓ **Education and Awareness**: The academies offer participants a comprehensive understanding of law enforcement practices, including crime prevention strategies, investigative techniques, and emergency response protocols. By educating citizens about the complexities of policing, these programs empower them to make informed decisions, enhance their personal safety, and contribute to the overall security of their neighborhoods.
- ✓ **Promotion of Civic Responsibility**: Citizen Police Academies promote civic responsibility by encouraging community members to participate in crime prevention efforts and public safety initiatives. Through hands-on training sessions, a ride-along, and interactive workshops, participants gain practical knowledge and skills that enable them to become effective partners in promoting lawfulness and community well-being.
- ✓ **Enhanced Communication and Collaboration**: By bringing together law enforcement personnel and community members in a collaborative learning environment, Citizen Police Academies facilitate open communication, mutual understanding, and cooperation. This collaboration fosters a sense of shared responsibility for public safety and encourages constructive dialogue on relevant issues, such as crime trends, neighborhood concerns, and community policing strategies.
- ✓ **Crime Prevention and Reduction**: Citizen Police Academies contribute to crime prevention and reduction by empowering participants to recognize and respond to suspicious activities, report crimes effectively, and implement proactive safety measures in their communities. By equipping citizens with knowledge and skills to identify and address potential risks, these programs help create safer and more resilient neighborhoods.

Our Department offers four citizen police academies per year, two Citizen Police Academy (CPA) classes, on Citizen Police Academy for Seniors (CPAS) and one Citizen Police Academy for Youth (CPAY). A breakdown for each class is below:

Class	# of participants
Citizen Police Academy (#45)	15
Citizen Police Academy (#46)	24
Citizen Police Academy (#47)	11
Citizen Police Academy (#48)	21
Citizen Police Academy (#49)	17
Citizen Police Academy (#50)	13
Total graduates	**101**
Citizen Police Academy for Seniors (#27)	16
Citizen Police Academy for Seniors (#28)	*Cancelled due to lack of enrollment/Covid-19*
Citizen Police Academy for Seniors (#28)	14
Total graduates	**30**
Citizen Police Academy for Youth (#22)	21
Citizen Police Academy for Youth (#23)	21
Citizen Police Academy for Youth (#24)	23
	65
Total all classes	**195**

For the reporting period, 76 citizens enrolled in one of the three Citizen Police Academy classes in the 2020/2021 year, 53 for 2022 and 67 enrolled for the 2023 program year. Unfortunately, we did not fully meet the objective however; we offered classes every year for the reporting period.

While the Newport News Police Department did not proceed with launching a Citizen Police Academy for Clergy, we initiated a faith-based initiative to engage with clergy members on a monthly basis. Although this effort eventually fizzled out, *approximately six months after its inception*, the department remains steadfast in its commitment to fostering partnerships with the clergy in Newport News. The Department chose not to launch an academy specifically for clergy influenced by several factors, including a lack of consistent commitment from clergy members and limited resources within the Department. Time constraints and competing priorities also played a role in the decision making process. Given these challenges, the Department deemed it was more practical to focus resources and efforts on existing programs catering to a broader audience while still providing opportunities for clergy members to participate and engage with law enforcement. There has been no gap in services as clergy members who desire to attend a class still have the opportunity to attend our Citizen Police Academy (CPA) on Thursday nights or attend the Citizen Police Academy for Seniors (CPAS), which takes place during the day on Wednesdays. These alternate classes offer valuable insights and training relevant to their roles and responsibilities, ensuring clergy members still have access to resources and opportunities for engagement with law enforcement. To date, six clergy members have graduated from the classes we currently offer. The goal is to remain committed to leveraging resources effectively.

Recognizing the vital role that religious leaders play in the community, the department values their insights, support, and collaboration in addressing various social issues and enhancing public safety. This year marked the department's inaugural participation in "Faith in Blue", an initiative aimed at strengthening relationships between law enforcement agencies and faith-based organizations. Despite setbacks, the department plans to continue this initiative annually, demonstrating its ongoing dedication to building trust, fostering dialogue, and promoting collaboration between law enforcement and the clergy to serve the community more effectively.

Another valuable partnership, the Newport News Police Department has is with the Citizen Police Academy Alumni Association (CPAAA). They serves as a vital extension of the Newport News Police Department's efforts to engage with the community and promote public safety. Comprising graduates of the Citizen Police Academy, this association plays a crucial role in supporting law enforcement initiatives, fostering positive relationships between citizens and police, and enhancing community awareness about law enforcement practices. Through various outreach activities, volunteer efforts, and educational programs, members of the alumni association contribute their time, expertise, and resources to assist the police department in achieving its mission. Whether through participating in community events, organizing neighborhood watch programs, or providing support during emergencies, the association serves as a valuable asset in promoting collaboration, communication, and trust between law enforcement and the community. Moreover, by serving as ambassadors for the police department, alumni association members help bridge the gap between law enforcement agencies and the residents they serve, ultimately contributing to a safer and more cohesive community in Newport News. Here are a list of activities they participated in the reporting period:

- ✓ **2023**
  Foundation Friends of the Badge Breakfast, Children's Festival, SALT Safety Summit, Catalytic Converter Vin-etching event, Impact Day, National Night Out, Fall-o-ween
- ✓ **2022**
  Children's Festival, Denbigh Day, Cannon Company Picnic, Catalytic Converter Vin-etching event, National Night Out
- ✓ **2020-2021**
  Shred Day, Friends of the Badge Breakfast, Catalytic Converter event, Community Explosion (virtual)

In conclusion, community partnerships with citizens, faith leaders, and support organizations like the Newport News Citizen Police Academy Alumni Association are essential pillars of the Newport News Police Department's commitment to public safety and community well-being. By fostering open communication, mutual trust, and collaboration among all stakeholders, these partnerships enable the police department to gain valuable insights, leverage resources, and implement effective strategies to address complex social challenges and crime-related issues. Moreover, by actively involving citizens and community organizations in crime prevention efforts, the department not only enhances public safety but also promotes a sense of ownership, empowerment, and shared responsibility among residents. Ultimately, these partnerships strengthen the fabric of the community, build resilience against crime, and contribute to a safer, more inclusive, and thriving Newport News for all.

New Goal and Objectives:

Goal: Build relationships and create a cadre of citizens more informed regarding police operations.

Objective 1.
Continue to offer Citizen Police Academies annually, reaching a minimum of forty-five citizens a year.

Objective 2.
Continue to offer the Citizen Police Academy for Hispanics annually with a goal of 12 participants per class.

Objective 3.
The Newport News Citizen Police Academy Alumni Association (CPAAA) will establish CPAAA Cares to support Newport News Police Department employees by January 2025. The goal of this project will be to spread joy and tokens of appreciation on a regular basis to assist with moral of the officers and the Department.

OPTIONAL VI:

TRAFFIC SAFETY

VI. Traffic Safety Unit

Old Goal and Objectives:

Goal: Create more informed and safety conscious citizens by providing them with information regarding crime prevention, thus reducing their risk of victimization.

Objective 1.
The Special Operations Unit in conjunction with the Community & Youth Outreach Division (CYOD) will film a traffic safety video targeting teens and young adults about What To Do When Stopped by the Police?

Objective 2.
Conduct quarterly operations to address specific traffic safety issues utilizing the Special Operations Division and precinct resources.

Objective 3.
To conduct at least two Public Safety Announcements via video on particular motorcycle safety and/or pedestrian vehicle safety based on past fatality crashes in Newport News.

Program Accomplishment

The Crash Reconstruction Team, comprised of police officers with advanced motor vehicle crash investigation and reconstruction skills, meticulously investigates all fatal crashes on city streets and those involving city equipment operated in emergency mode. Additionally, they extend their expertise to assist with crashes beyond the scope of a patrol officer's training. Their ultimate objective is to analyze traffic incidents thoroughly, providing accurate conclusions to enhance safety measures. For the reporting period, the team conducted 71 serious and complex crash investigations, of which 36 were fatal.

Despite the disbandment of our traffic unit, speeding complaints persist across various locations within our city. In response, during the summer of 2023, a School Resource Officer was temporarily reassigned to address speeding concerns. Particularly, routine complaints arise from the Hilton Village area of Warwick Boulevard, spanning approximately half a mile through a business corridor with a 25 mile per hour speed limit. Dedicated solely to RADAR and LIDAR enforcement, this officer diligently enforced speeding regulations from June 19, 2023, to August 18, 2023. Despite being a one-person traffic unit, the officer issued an impressive 392 summonses during this period. Moving forward, continued collaboration between law enforcement and the community will be essential in addressing traffic concerns and fostering a culture of compliance with traffic regulations for the well-being of all residents.

Program Evaluation

The Newport News Police Department is committed to enforcing traffic laws in order to maintain road safety and ensuring the smooth flow of traffic. Consistent enforcement helps deter violations and reducing the risk of accidents caused by speeding, distracted driving, and other hazardous behaviors. Traffic safety enforcement reassures the public that our police department prioritizes their safety, thereby enhancing our communities trust in our actions. The Newport News Police Department identified patterns of dangerous driving and implemented targeted interventions.

Due to logistical challenges and scheduling conflicts, the Special Operations Unit and the Community & Youth Outreach Division (CYOD) faced obstacles in producing a traffic safety video aimed at educating teens and young adults on proper conduct during police stops. Despite the setback, the teams remained committed to their mission of promoting road safety and devised an alternative solution: the creation of a comprehensive brochure.

This brochure was created in February of 2021 and serves as a valuable resource, providing essential information on what individuals should do when stopped by the police, including practical tips for safely interacting with law enforcement officers. It covers topics such as remaining calm, following instructions, and understanding one's rights, offering cleat guidance to help alleviate anxiety and ensure respectful communication during traffic stops.

By distributing this brochure within the community, the Special Operations and CYOD can continuously provide vital information to individuals of all ages, fostering greater awareness and understanding of proper protocol when encountering law enforcement officers. This ongoing effort not only empowers citizens with knowledge but also strengthens trust and cooperation between the police department and the community we serve.

Furthermore, the availability of this educational material helps bridge the communication gaps and promotes positive interactions between law enforcement and the public. By proactively disseminating the information both the Special Operations Unit and CYOD contribute to the overall safety and well-being of the community, fostering a culture of mutual respect and cooperation on the roadways. After seeing how beneficial the educational brochure is to the community, the Department began incorporating "What to Do When Stop by Police" as a part of the Citizen Police Academy for Youth (CPAY) curriculum. For the reporting period, approximately 70 youth received the brochure but also actively engaged in mock training scenarios. These immersive exercises offered participants a firsthand glimpse into the perspective of law enforcement officers during a traffic stops. By experiencing simulated encounters with police, the youth gained valuable insights into the challenges and responsibilities faced by officers in ensuring public safety on the roads.

By combining educational materials with interactive training experiences, youth are not only equipped with practical knowledge but also fostering empathy and understanding between the community and law enforcement.

The Newport News Police Department addressed specific traffic safety issues during this reporting period utilizing the Special Operations Division and precinct resources. Throughout various periods between 2021 and 2023, law enforcement agencies in the specified precincts undertook strategic initiatives to address traffic violations and enhance public safety. These initiatives included operator's license checkpoints and radar enforcement operations in areas prone to speeding and criminal activities. By targeting unlicensed drivers, impaired motorists, and speeding offenders, these efforts aimed to reduce accidents, deter criminal behavior, and increase police visibility in key locations.

In February 2021, Central Precinct held an operator's license checkpoint on Nettles Drive to address unlicensed or suspended drivers. Nettles Drive, serving as a cut-through from Warwick Boulevard to Oyster Point Road, experiences heavy traffic.

In May 2021, Central Precinct conducted another operator's license checkpoint in the 10000 block of Warwick Boulevard. This aimed to target drivers without valid licenses or those driving impaired.

July 2021 saw Central Precinct conducting an operator's license checkpoint in the 700 block of Adams Drive, enhancing police visibility in a high-crime area and checking for invalid licenses.

By December 2021, Central Precinct held an operator's license checkpoint in the 10000 block of Warwick Boulevard, ensuring heightened police presence during the Christmas period and identifying drivers without valid licenses.

In April 2022, South Precinct addressed speeding complaints in the 7300 block of Wickham Avenue, assigning two officers for radar enforcement and issuing five tickets.

June 2022 witnessed an operator's license checkpoint on Chestnut Avenue and 41st Street by South Precinct, resulting in 12 summonses out of 103 vehicles stopped.

December 2022 brought numerous speeding complaints in the Huntington Heights neighborhood near the shipyard to South Precinct. Over a two-week period, radar enforcement was conducted, leading to 52 tickets issued.

February 2023 saw officers conducting radar enforcement in the Beechmont Drive area, which carries an enhanced penalty for speeding.

In May 2023, North Precinct held an operator's license checkpoint on Atkinson Way, aiming for high visibility before the Memorial Day weekend.

August 2023 saw North Precinct conducting radar enforcement again on Beechmont Drive to enhance visibility before the school year.

December 2023 witnessed officers conducting traffic enforcement in the area of Atkinson Way, targeting DUI drivers.

The efforts of law enforcement agencies in conducting operator's license checkpoints and radar enforcement operations have contributed to promoting road safety and crime prevention within their respective precincts. By targeting specific areas and addressing various traffic violations, these initiatives have not only led to the issuance of citations but have also underscored the importance of proactive policing in ensuring the well-being of the community. As a result, continued collaboration between law enforcement and the community will be crucial in maintaining these efforts and fostering safer neighborhoods for all residents.

To address bicycle/motorcyclist and pedestrian safety issues, the Newport News Police Department completed two Public Safety Announcements based on past fatality data. In June of 2023, the Newport News Police Department posted a Public Safety Announcement regarding bicycle safety after two recent fatalities in Newport News. Bicycle related fatalities were up 125% in Virginia for the first half of 2023. At the time, 9 total bicycle fatalities were recorded in Virginia, and 2 of the 9 deaths were in Newport News. Our PSA gave tips to bicyclists and motorists to avoid potential crashes. The PSA provided helpful information regarding some causes of bicycle accidents, such as distracted driving, and highlighted a previous crash from 2021. Bicyclists were told to wear protective reflective gear, bicycle helmets, and always ride in the same direction of traffic. Motorists were told to give 3 feet of clearance when driving next to a bicyclist, and yield to bicyclists in intersections.

In 2021, the Newport News Police Department had 9 pedestrian fatalities from being struck by a vehicle. The Newport News Police Department published a pedestrian safety PSA in October of 2022. The video highlighted statewide statistics for 2023, indicating Virginia had seen 123 pedestrian fatalities up to that point. Our PSA highlighted tips for pedestrians: wear reflective clothing, carry a light at night, and avoid walking with distractions, such as a cellphone. Most importantly, pedestrians should cross roadways in a crosswalk or at places drivers would expect pedestrians to be.

For motorists, drivers were told to pay attention to speed limit signs and not drive impaired. The video also highlighted the loss of daylight and lowered visibility for both pedestrians and motorists at earlier times of the day.

Traffic safety is critical for protecting the citizens of Newport News and to ensure the smooth flow of vehicles on the road. Our department implemented measures such as the enforcement of traffic laws and public education to promote safe driving behaviors. Based on our crime driven data, we deployed targeted traffic enforcement interventions in all three of our precincts, as well as utilized the data to target our educational efforts towards high-risk behaviors. Our traffic safety efforts are essential to preventing fatalities, improving our citizen's education of traffic laws, and promoting increased police visibility in key areas.

New Goal and Objectives:

Goal: Domestic Violence Unit will seek to promote healthy relationships utilizing a multi-pronged approach to mitigate public safety issues related to domestic violence.

Objective 1.

Actively engage community members in intentional healthy relationships strategies and domestic violence awareness initiatives through the Community Coalition against Domestic Violence (CCADV). Annually CCADV members will engage in a minimum of 20 awareness projects

Objective 2.

The Newport News Police Department Domestic Violence Team will engage with ten (10) civic organizations annually to facilitate a workshop/ presentations about domestic violence.

Objective 3.

The Newport News Police Department Domestic Violence Team will make outreach to more than 100 individuals on an annual basis who have experienced intimate partner violence to assess for safety, link to community resources and provide domestic violence

OPTIONAL VII:

PRE-TRIAL

VII. Pre-Trial Corrections Program

Old Goal and Objectives:

To improve the responsiveness and costs to the court system in management of pretrial cases while ensuring safety to the public.

Objective 1.
To perform pretrial investigations in 40% of the eligible cases brought in Newport News

Objective 2.
To increase the percentage of negative drug screens to 80% in the next 3 years.

Objective 3.
Keep the failure to appear in court rates below 5% for our pretrial defendants over the next three years.

Program Accomplishment

The CJA conducted 3,372 tests on Pretrial individuals from July of 2020 until June of 2023. Of these, 68% were negative in FY21, 73% in FY22 and 77% in FY23. We have reviewed our SOPs recently to try and improve our rate up to and past the 80% goal. Our Probation Officers are also working on success plans with individuals to assist with this as well.

The Hampton-Newport News Criminal Justice Agency (CJA) achieved an overall Court appearance rate of 88% in the last few years (90% in FY21, 87% in FY22 and 87% in FY23), meaning over 88% of defendants active on Pretrial supervision appeared in Court as required. Our goal is to keep the failure to appear in court rates at or above 95% for our pretrial defendants over the next three years. We have experienced staffing shortages over the past few years and our no-show rate for intake has increased, all adding to why our failure to appear in court rates are higher than we want them.

Our Public Safety rate (the percentage of Pretrial clients who are not rearrested while active) has increased to 98% over the past few years. It was 99% in FY21, and 98% in FY22 and FY23. The CJA has maintained these high numbers even though our Pretrial department has experienced difficulty in hiring and/or keeping staff since Covid-19.

Program Evaluation

The mission of the CJA is to promote public safety through the provision of community based pretrial and post-conviction programs. We provide research-based prevention and intervention services with a commitment to changing the lives of our clientele, regardless of their past or present circumstances.

The CJA's Pretrial Services Division provides judicial officers with crucial defendant background information so that they may make more informed release decisions. Supervision is available for qualified individuals awaiting trial.

The number of pretrial investigations performed by the CJA decreased drastically due to the effects of Covid-19. Due to the safety concerns on both sides, there was a significant amount of time where we didn't go into the jails to complete investigations but we are continuing to see our numbers increase now – our number of investigations was only 3 in FY21 but has jumped to 1,338 in FY23. We met our goal in FY23 as we had an investigation rate of 43%. We have already surpassed that in the first half of FY24.

Since the Covid-19 virus, the Hampton-Newport News Criminal Justice Agency (CJA) has suspended urine screens and has been conducting oral testing. Instead of calling a phone number every day to see if they are being tested the next day, our probation officers are scheduling them to come in for a test. We continue to strive to keep the tests random by officers mostly scheduling them for a test on the day they are coming in to see their officer without telling them they are also being tested.

The CJA's number of Pretrial clients has remained steady with over 1300 each of the last three years. The estimated cost savings of Pretrial Services so far this fiscal year are $9.3 million. This figure was obtained by multiplying our total number of supervision days this year by the average cost of jail for a day ($117.28) versus the average cost of Pretrial Services for a day ($5.99). Then, we subtracted the cost of Pretrial Services from the costs of being in jail. Our officers are carrying much larger caseloads than they were three years ago. We are seeking additional funding to help ease this situation.

Gaps in Service

We have experienced staff shortages in the past few years, which has increased our Officers' caseloads. We are also receiving more individuals on Pretrial whose primary language is not English. We have a contract with an interpreter for office visits, but cannot use the service with our other providers. In addition, we recently lost our sex offender treatment provider. This affects our Community Corrections Division more than Pretrial – but we would offer the service to any of our Pretrial individuals who requested it.

New Goal and Objectives:

To improve the responsiveness and costs to the court system in management of pretrial cases while ensuring safety to the public.

Objective 1.
To perform pretrial investigations in 50% of the eligible cases brought in Newport News.

Objective 2.
To increase the percentage of negative drug screens to 80% in the next 3 years.

Objective 3.
Keep the Court Appearance and Public Safety rates above 95% for our pretrial defendants over the next 3 years.

CORE ELEMENT PROOFS

NEIGHBORHOOD WATCH COALITION

NEWPORT NEWS NEIGHBORHOOD WATCH COALITION
BYLAWS

ARTICLE I - ORGANIZATION

Section I
The objective of the Newport News Neighborhood Watch Coalition is to bring together representatives of all Neighborhood Watch organizations in the City of Newport News to work together in harmony to help reduce crime, prevent community deterioration, educate the community on crime issues, discuss crime issues within the city, and provide a means for professional interaction and problem solving. The Coalition, because of the size of the City and the many Neighborhood Watch organizations, will be divided into specific geographical watch areas corresponding to police department patrol precincts. These areas can either increase or decrease in number based on police department changes due to population changes and/or rezoning.

Section II
The Coalition, in concert with the Newport News Police Department, is encouraged to organize Neighborhood Watch organizations within its boundaries for the purpose of mutual support and cooperation.

Section III
All neighborhood watch organizations will be governed by a Neighborhood Watch Coalition Executive Board as provided for in subsequent articles of these Bylaws. Each geographical watch area will have area representatives on the Executive Board.

ARTICLE II - MEMBERSHIP

Section I
The general membership of the Neighborhood Watch Coalition is defined as anyone who is an active member of an active, police department-approved, Neighborhood Watch organization who has attended Neighborhood Watch Coalition meetings in the past year. The general membership shall vote on business matters and other issues at the discretion of the Executive Board. In addition, any individual who is either elected or appointed as head of a specific Neighborhood Watch organization shall be known as the chairperson. The chairperson shall attend Coalition meetings or send a representative in their absence.

Section II
Just as the Coalition supports Neighborhood Watch organizations, the Neighborhood Watch organizations are expected to support other Neighborhood Watch organizations and the Coalition in their various endeavors.

Section III
The number of area representatives on the Executive Board from each of the various geographical watch areas will not be fewer than two (2). Additional area representatives of the Executive Board may be added upon the recommendation and approval of the Executive Board at a regular meeting.

Section IV
In the event that any geographical area, or the general membership of the Neighborhood Watch Coalition, does not nominate area representatives to serve on the Executive Board, the Executive Board shall seek nominations in accordance with Article V, Section IV.

Section V
The Coalition will include a Newport News Police Department representative to serve as liaison to the Coalition. The Liaison will provide technical advice, assistance, and aid with the coordination of crime prevention-related activities.

ARTICLE III - EXECUTIVE BOARD

Section I

The Executive Board shall meet at least once a quarter or as determined by the President. Special meetings may be called by the President (as set forth in Article VII, Section II). The Executive Board may meet via video or telephone conference with 24 hours notice via e-mail.

Section II
The Newport News Police Department liaison shall attend all meetings of the Executive Board and Neighborhood Watch Coalition. Community Resource Officers are encouraged to attend.

Section III
Any voting member of the Executive Board who is absent without cause for consecutive meetings, may be replaced in accordance with these bylaws.

Section IV
All Executive Board members must possess a working telephone and e-mail account and have access to transportation.

ARTICLE IV - DUTIES OF OFFICERS

Section I The President shall:

A. Preside over all meetings of the Neighborhood Watch Coalition.
B. Perform duties as described in the bylaws and/or requested by the Executive Board.
C. Ensure the duties of fellow officers and committees are being conducted in compliance with the objectives of the Neighborhood Watch Coalition.
D. Be a member ex-officio of all Committees except the Nominating Committee.
E. Organize on-going training for chairpersons of Neighborhood Watch organizations.
F. Provide the agenda to the Executive Board for each meeting by appropriate means no later than three (3) days prior to the meeting date.
G. Only vote for the purpose of breaking a tie vote.
H. In consultation with the Executive Board, prepare and submit the annual City grant application for Coalition funding for the next fiscal year.
I. Prepare the annual general meeting and Executive Board meeting schedule for Board approval.
J. Arrange speakers to present information to Coalition Members.
K. Ensure a smooth transition of officers following elections.

Section II The Vice President shall:

A. Assist the President.
B. Perform the duties of the President in their absence, incapacity, or resignation.

C. Be responsible for the management of the Newport News Neighborhood Watch Coalition's civic activities and events.
D. Assist the President in the training of Chairpersons and Block Captains in Neighborhood Watch operations.
E. Perform the duties of the Treasurer in their absence, incapacity, or resignation.

Section III The Secretary shall:

A. Keep accurate records of all meetings via written or electronic record and produce all documents upon request.
B. Maintain a current copy of the Constitution, Bylaws, approved minutes, newsletters and all other pertinent Neighborhood Watch Coalition documents. These documents shall be securely stored in the Neighborhood Watch office or another location that is agreed upon by the Executive Board. A printed copy of minutes shall be provided to the Executive Board members each month.
C. Maintain a current roster of the members of the Executive Board, committee chairpersons, and committee members. In addition, maintain an up-to-date list of each active Neighborhood Watch Coalition organization in coordination with the Newport News Police Department liaison.
D. At each Executive Board meeting, distribute a meeting package to each Board member that includes the meeting agenda, Treasurer's report, minutes from the last Board and general meetings, grant applications, purchase orders, Neighborhood Watch organization monthly meeting record, and any other item that pertains to the business of the Board for that meeting.
E. At each general meeting, distribute an agenda for the meeting, the minutes from the last general meeting, and any handouts or other material that may be of interest to the general membership assembled for the meeting.

Section IV The Treasurer shall:

A. Provide a Treasurer's report to the Executive Board at each regularly scheduled Board meeting.
B. Provide a Treasurer's report to the general membership at each regularly scheduled general meeting.
C. Use basic bookkeeping skills to track the initial funds for each fiscal year, the amount expended for each cost code and category, and the amount of funds remaining.
D. Reconcile the Treasurer's report with the Administrative Assistant, Community & Youth Outreach Division monthly.
E. Update the physical inventory of the Coalition trailer at least semi-annually and resupply the trailer as necessary.
F. Maintain the inventory of polo and t-shirts and the lapel pins for board members and new Neighborhood Watch organization chairpersons.
G. Prepare purchase orders and Executive Board approval forms for any Coalition expenditures.

Section V Area Representatives shall:

A. Live within the area they represent and be a member of a police department-approved Neighborhood Watch organization
B. Represent up to fifteen (15) Neighborhood Watch organizations within their particular Neighborhood Watch area.
C. Maintain contact with represented groups.
D. Partner with the Community Resource Officers in starting new Neighborhood Watch organizations.
E. Serve as Ambassadors for the Coalition to the Neighborhood Watch organizations.
F. Serve as advocates for the community at Executive Board meetings.

Section VI General

A. All officers shall perform their duties as outlined in these bylaws to include additional duties that may be assigned periodically.
B. Upon the expiration of term of office or in the case of resignation, each outgoing officer shall submit to the President all records, books, and other materials pertaining to the office.
C. In the event of death or the incapacitation of an officer, the Newport News Neighborhood Watch Coalition shall pursue retrieval of all records, books, and other materials pertaining to the office.

ARTICLE V - ELECTION PROCESS

Section I

The Executive Board of the Newport News Neighborhood Watch Coalition shall consist of the following officers: President, Vice President, Secretary, Treasurer, and at least two (2) representatives from each geographical watch area. Area representatives shall have equal voice and vote. Officers shall be elected by the voting membership of the Newport News Neighborhood Watch Coalition during the month of November in each election year. The voting membership is defined as any person who holds general membership as described in Article II, Section III. A simple majority of the votes cast shall constitute an election. The Newport News Police Department liaison is a non-voting member.

Section II

To promote continuity of operations, the President, Treasurer, and one representative from each Neighborhood Watch Area shall be elected in even numbered years. The Vice President, Secretary, and one representative from each geographical watch area shall be elected in odd numbered years. Should a Neighborhood Watch Area have an odd number of representatives, the majority of the representatives will be elected in the even numbered year and the remaining representative(s) will be elected in the odd numbered year. The newly elected officers of the Newport News Neighborhood Watch Coalition will assume their duties in December after being installed at the December meeting, or as provided by the Executive Board.

Section III

There shall be a Nominating Committee composed of an uneven number, but not less than three (3) members. One member from each of the three geographical watch areas of the city shall serve to provide equal representation. This Committee shall be elected by the Newport News Neighborhood Watch Coalition at a regular meeting in September. The Chairperson shall be appointed by the Executive Board. The Nominating Committee shall nominate an eligible person for each office to be filled and report the nominees at the regular October meeting. An eligible person is defined as any member of the Neighborhood Watch Coalition who is considered part of the general membership. The election will occur at the November meeting. Prior to voting, additional nominations may be made from the floor by any voting member if seconded by another voting member. Only those persons who consent to serve if elected shall be nominated for office.

Section IV

The Vice President shall succeed the President should the President vacate that position. All other vacancies shall be filled by special election, which will be conducted by the Neighborhood Watch Coalition general membership. Precedence of nominations to fill the vacancy of an Area Representative shall be 1) any willing chairperson of a Neighborhood Watch organization in the vacated area, 2) any Neighborhood Watch organization member residing in the area affected by the vacated position, and 3) any active Neighborhood Watch organization member.

Section V
Elected officers of the Newport News Neighborhood Watch Coalition Executive Board shall serve a term of two (2) years, but no more than two (2) consecutive terms, unless no other person runs for the position. Executive Board positions terminate in December at the end of the 2-year term for that specific position, even if the vacancy was filled in the middle of the term.

Article VI - MEETINGS

Section I
Regular meetings of the Newport News Neighborhood Watch Coalition shall be held on the 2nd Monday of each month, unless otherwise approved by the Executive Board with at least ten (10) days notice given.

Section II
Special meetings of the Newport News Neighborhood Watch Coalition may be called by the Executive Board. At least three (3) days notice must be given.

Section III
The annual Newport News Neighborhood Watch Coalition business meeting shall be held during the month of December, unless otherwise called by the Executive Board.

Section IV
Newly elected Executive Board members shall be installed during the annual meeting or at another meeting, as previously set forth in Article V, Section II.

Section V
A sign-in sheet shall be provided at each meeting. The sign-in sheet shall become a part of the official minutes.

Section VI
All meetings shall be conducted in accordance with the current edition of Robert's Rules of Order.

Section VII
A majority of the Executive Board shall constitute a quorum for meetings and for voting purposes.

Article VII - VOTING

Section I
The Executive Board shall vote on all business matters, elections, and all financial matters. Executive Board approval of a matter brought to a vote must have a majority of the Board members in favor of that matter for it to be approved.

Section II
The Executive Board may vote on urgent matters via e-mail.

Section III
The general membership as set forth in Article II, Section III shall vote on business matters, elections, and other issues at the discretion of the Executive Board.

Article VIII - COMMITTEES

Section I
Committees shall be appointed by the Executive Board. The purpose of these committees will be to assist in furthering the overall objectives of the Coalition. The Committees may include, but are not limited to: Neighborhood Watch Development, Public Relations, and National Night Out, etc.

Section II
The Executive Board shall establish the specific purpose for each committee and shall provide operating guidelines including funding and other resources that may be expended by the committee without further petition to the Executive Board.

Section III
Each committee shall have a chairperson appointed by the Executive Board.

Section IV
Each committee chairperson will appoint a vice chairperson and select the members of the committee and shall provide the Newport News Neighborhood Watch Coalition Secretary a current, up-to-date roster. The committee will create objectives to meet the purpose for which the committee was created. A final committee summary report must be presented in writing. The Secretary shall include the report in the minutes of the Coalition.

Section V
Committee chairpersons shall attend all regular Newport News Neighborhood Watch Coalition meetings and render reports on their committee activities. In addition, they may also be requested to attend Board Meetings to discuss the committee's progress.

Section VI
The committee chairperson may enlist the assistance of any qualified persons in the Newport News Neighborhood Watch Coalition to perform research, collect data, and otherwise assemble information that could possibly be useful to the committee in its work.

Article IX - MINI-GRANTS

Section I
Individual Neighborhood Watch organizations may apply for a mini-grant, not to exceed $500. Mini-Grants will be awarded at the discretion of the Executive Board to active, police department-approved, neighborhood watch organizations. Materials obtained by a neighborhood with mini-grant money shall only be for active members who support their groups. Neighborhood Watch Coalition members shall not solicit donations of funds from an outside agency without prior authorization from the Executive Board.

Section II
A neighborhood watch organization is considered to be active when it regularly communicates with the police department liaison and the Coalition Area Representative.

Section III
To qualify for a mini-grant, Neighborhood Watch organizations should demonstrate the ability to provide diversified services to their neighborhood. The organization should emphasize crime prevention projects and quality of life issues. It should include community involvement, neighborhood improvements, and/or education that apply to crime prevention and personal or neighborhood safety.

Section IV
The evaluation data (section C of the mini-grant application) must be turned in upon completion of the program/project. Failure to follow these guidelines may result in the discontinuation of funds.

Article X - AUDIT

All financial records and funds held by the Newport News Neighborhood Watch Coalition shall be audited annually by either an independent auditor or an internal auditor.

Article XI - AMENDMENTS

Section I
These bylaws shall be reviewed each year following an election. A Board member shall be appointed to propose revisions to the bylaws and submit the proposal to the Executive Board for vote. The proposed changes must be fully discussed by the Board prior to voting. Once approved by the Executive Board, the newly drafted bylaws must be ratified at a regular or special meeting of the Neighborhood Watch Coalition by a two-thirds (2/3) vote of those who make up the general membership (as set forth by Article II, Section III) in attendance. A written copy of the proposed changes must be made available to the general members the month prior to the vote.

Section II
Should the general membership not ratify the bylaws as established in Article X, Section I, the President shall attempt to reconcile the issues during the meeting until the bylaws are ratified. Failing this effort, the bylaws will reenter the revision process to address the concerns of the general membership.

These Bylaws were approved by the Executive Board August 10, 2020 and ratified by the general membership on October 23, 2020.

Appendix A - Definition of Terms

"**Area Representative**" shall refer to anyone nominated by the geographical Neighborhood Watch area who is elected to the Executive Board to represent up to fifteen (15) Neighborhood Watch organizations within a Newport News Police patrol precinct. Area representatives must live in the geographic area in which they represent.

"**Chairperson**" shall refer to any person who is elected or appointed as head of a Neighborhood Watch organization.

"**Coalition**" shall refer to the Newport News Neighborhood Watch Coalition.

"**Geographical Neighborhood Watch Area**" shall refer to a designated area corresponding to police department patrol areas.

"**Executive Board**" shall refer to the governing body of the Newport News Neighborhood Watch Coalition. The governing body consists of: President, Vice President, Secretary, Treasurer, Area Representatives, and the non-voting advisory liaison assigned by the Newport News Police Department.

"**Member**" refers to any person who is an active member of a police department-sanctioned Neighborhood Watch organization who has attended at least (6) Neighborhood Watch Coalition meetings per calendar year.

"**Neighborhood Watch Organizations**" shall refer to any organized Neighborhood Watch group within the city of Newport News that is recognized and approved by the police department. For simplicity, the primary purpose is crime prevention and education.

Neighborhood Watch Coalition

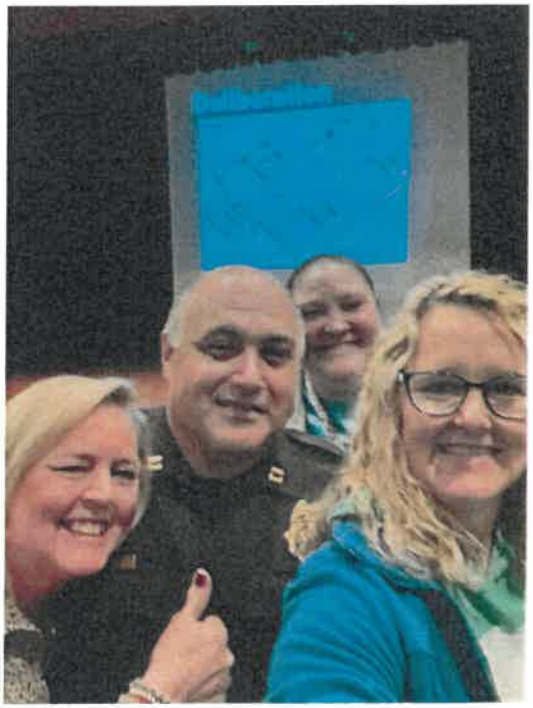
CRIME PREVENTION SPECIALISTS

David A Dutrow Elementary School *(Source NNPD Facebook post)*

October 21, 2022

CRASE Training with the amazing Randy Cupp! #NNPSProud Newport News Police Department #TeamDutrow 💙🌏



Newport News Police Department *(Source NNPD Facebook post)*

September 14, 2022 ·

MPO Young had a great time giving a CRASE presentation at Christ United Methodist Church Newport News,VA Saturday morning. She said there was great turnout. Nearly 100 people showed up for the training!

CRASE (Civilian Response to Active Shooter Events) aims to prepare individuals how to respond if there is an active shooter incident. Email MPO Young if you would like to host a CRASE presentation for your group: youngvm@nnva.gov

NEIGHBORHOOD WATCH

Neighborhood Watch Coalition

Mini-Grant Application Process

- Obtain mini-grant application form. Locate the items your group would like to purchase. Identify the business where the items can be purchased, the quantity, sizes (if applicable), and model and/or SKU numbers for the items requested and include the information with the application. Most businesses will include a print-out or invoice that you can attach to the application. Because the City is a tax-exempt organization, the City will not pay taxes, so make sure the invoice or estimate reflects a tax-free price.

  To qualify for a mini-grant, Neighborhood Watch organizations should demonstrate the ability to provide diversified services to their neighborhood. The organization should emphasize crime prevention projects and quality of life issues. It should include community involvement, neighborhood improvements, and/or education that apply to crime prevention and personal or neighborhood safety.

- Completely fill out and return the application. Note that only active neighborhood watch groups may request and receive a mini-grant. In addition to having an active watch group, a member of that group must have attended three consecutive Coalition meetings.

- Applications may be submitted to a Coalition Board member or dropped or mailed to the Newport News Police Department, c/o Community & Youth Outreach Division, 3303 Jefferson Ave, Newport News, VA 23605

- The Coalition Board will consider the application and conduct a vote to approve or disapprove the application. A majority vote in favor is required to proceed with the purchase.

- If approved, a purchase order will be created by the Community & Youth Outreach Division for signature. The purchase will be made with the agency credit card by a member of the Community & Youth Outreach staff.

- The receipt will be retained and filed. If an exchange or return of the purchased items is required, the Watch representative will contact the Community & Youth Outreach staff for assistance at the number below.

- The evaluation data (Section C of the mini-grant application) **must** be completed and turned in to the Community & Youth Outreach Division within 10 days of the completion of the project/program. **Failure to follow this requirement may result in discontinuation of funding or ineligibility for future funding**.

- During the process, if you have questions, please contact the Community & Youth Outreach Division at 757-975-5100.

Newport News Neighborhood Watch Coalition Mini-Grant Application

All proposals must provide the information requested below, including the specific work plan information. Mini-grants cannot be awarded for more than $500. Proposals may not exceed five (5) double-spaced typewritten pages. Submit two (2) copies of the application to:

Newport News Police Department
Community and Youth Outreach Division
3303 Jefferson Ave
Newport News, VA 23607

(1) **Organization Name** _____

(2) **Chairperson Name** _____

(3) **Chairperson Address** _____

(4) **Phone Number(s)** _____

(5) **Work Plan**

A. Purpose/Goal of Project/Program.

B. Mission/Objectives. How will your organization implement the project/program?

- Provide a brief history of your Neighborhood Watch group.
- Describe how your group has been active in the Neighborhood Watch Coalition.
- Give a description of the programs or services to be provided if the Grant is awarded.
- List the materials/resources needed and those available for your program.
- Provide a budget for the program and the amount requested.
- Describe your group's method of financial management.

C. Evaluation: Evaluation data is due within ten (10) days of completion of the project/program. Failure to submit an evaluation of the proposed project/program will eliminate eligibility for future mini-grant funding.

- Number of people reached
- List of Neighborhood Watch members who participated in the project/program
- Resources utilized
- Dates of project/program
- Number of volunteer hours expended for the project/program
- Explain whether the project/program achieved the desired goals
- Should other Neighborhood Watch groups implement this project/program?

Mini-grant funds cannot be spent to supply food or alcoholic beverages and are subject to the rules governing the use of City funds.

Newport News Neighborhood Watch Coalition

C. **Evaluation data should include:** ***(Evaluation is due within ten (10) days of completion date of program/project. Failure to submit an evaluation of the current project will eliminate future eligibility to secure mini-grant funds.)***

- Number of people reached
- Resources utilized
- Dates of participation
- Number of volunteer hours
- Explain whether or not the program reached/achieved the desired goals
- Would you recommend that other Neighborhood Watch Groups implement this program/project

********* Please be aware that City funds cannot be spent to supply food or alcoholic beverages. All mini-grants are subject to the rules governing all City funds.*********

Organization Name: Legacy Square Neighborhood Watch Group (LSNWG)
Chairperson(s) Name: Dr. Shawna Lawson, Mona Robinson, A'na Grace
Phone Number: 646-226-0641

A. Purpose/Goal of Project/Program
The purpose and goal of this program is to provide safe, residential lighting and deter people from committing any type of criminal acts while possibly supplying any clues/evidence to the police if any criminal activity occurs.

B. Mission/Objectives
The organization will implement this project by installing "dusk to dawn" light fixtures on residential homes at no cost to homeowners.

The Legacy Square Neighborhood Watch Group began organizing in 2018. A primary goal for this group is fostering a sense of safety in our community. We communicate via the Next Door social media app and there is active participation from our neighborhood residents. This group also has 3 residents serving on the Neighborhood Watch Coalition board. We have community members attend the public forums/meetings on a monthly basis and have been involved for many years.

When this grant is awarded the LSNWG will work in collaboration with Casa De Suenos, a local resource organization, to install "dusk to dawn" lighting throughout the East End/South District neighborhood.

To this end, LSNWG will need to order **Bioluz BR40 Flood Light/20 per pack**. Three (3) packs needed at $114.99 for a total of $344.97. The Casa De Suenos organization will provide free installation.

The budget for this project is $500.00. The LSNWG does not collect money and therefore has no need of a bank account or financial management.

The East End/South District community is located south of 25th Street between I-664 and the Hampton city line. This is a large historic Newport News neighborhood and has maintained an active neighborhood watch groups over the past 20 years.

The groups were formed out of concern for our residents and restorative development in the area. We also want to ensure that our community is recognized as taking a stand against violence and fostering a sense of safety for all its' residents. We meet monthly to keep updated and aware of issues that are vital for our wellbeing.

Thank you for your consideration of this grant request and please contact us if you need more information.

Sincerely,

Dr. Shawna Lawson
Mona Robinson
A'na Grace

Organization Name: Legacy Square Neighborhood Watch Group (LSNWG)
Chairperson(s) Name: Dr. Shawna Lawson, Mona Robinson, A'na Grace
Phone Number: 646-226-0641

A. Purpose/Goal of Project/Program
The purpose and goal of this program is to provide and inform community stakeholders with resource information that improve quality of life.

B. Mission/Objectives
The organization will implement this project by providing school supplies to neighborhood children during a community service event. "Enlighten the Night" Please see attached flyer.

The Legacy Square Neighborhood Watch Group began organizing in 2018. A primary goal for this group is fostering a sense of safety in our community. We communicate via the Next Door social media app and there is active participation from our neighborhood residents. This group also has 3 residents serving on the Neighborhood Watch Coalition board. We have community members attend the public forums/meetings on a monthly basis and have been involved for many years.

When this grant is awarded the LSNWG will work in collaboration with Casa De Suenos, a local resource organization, to install "dusk to dawn" lighting throughout the East End/South District neighborhood.

LSNWG will need the 50 piece Back to School Supply Kit Bundle Value Pack. Each kit is $22.99. Four (4) kits will be needed for a total of $91.96. Additionally, Bulk Backpacks, 24 per case at $95,00; Four cases will be needed for a total of $380.00. This purchase totals $471.96

The budget for this project is $500.00. The LSNWG does not collect money and therefore has no need of a bank account or financial management.

The East End/South District community is located south of 25th Street between I-664 and the Hampton city line. This is a large historic Newport News neighborhood and has maintained an active neighborhood watch groups over the past 20 years.

The groups were formed out of concern for our residents and how easily they could become victims. We also want to ensure that our community is recognized as taking a stand against violence and fostering a sense of safety for all its' residents. We meet monthly to keep updated and aware of issues that are vital for our wellbeing.

Thank you for your consideration of this grant request and please contact us if you need more information.

Sincerely,

Dr. Shawna Lawson
Mona Robinson
A'na Grace

C.A.R.E. WALK North Precinct

On Thursday, April 21, 2022, approximately 1:41 a.m., Newport News Police responded to a report of a shooting in the 300 block of Royal Springs Ct. When officers arrived at the scene, they found 33-year-old Sean William Lilly shot inside a residence. He was pronounced deceased at the scene. The circumstances of the incident remain under investigation. There is no suspect information at this time.

Kudos to everyone who recently chipped in to help clean up the woods near a local school. Officer Ross noticed a homeless camp in the woods near the school and was concerned about students being exposed to it. With the help of Environmental Officer MPO Greathouse, Officer C. Fredenburg, the Four Oaks Center, School Custodial Staff and Newport News Codes and Compliance Inspector Harvey, the area was cleaned up and assistance and services were provided to the homeless population. Thank you to Officer Ross for watching out for the students and helping to make our community safe.

ORGANIZED DISTRIBUTION OF COMMUNITY SAFETY INFORMATION

Newport News Police Department
Published by Chandler White · August 30, 2023 ·

NNPD, along with its partners as the Virginia State Police HEAT Program and National Insurance Crime Bureau, hosted another vehicle theft prevention day last weekend at headquarters. Ninety-three vehicles had VIN engraving/etching done on their catalytic converters and windows and received theft prevention materials. We also distributed a number of free gun locks upon request.

We plan to host another event on Sept. 23 for those interested.

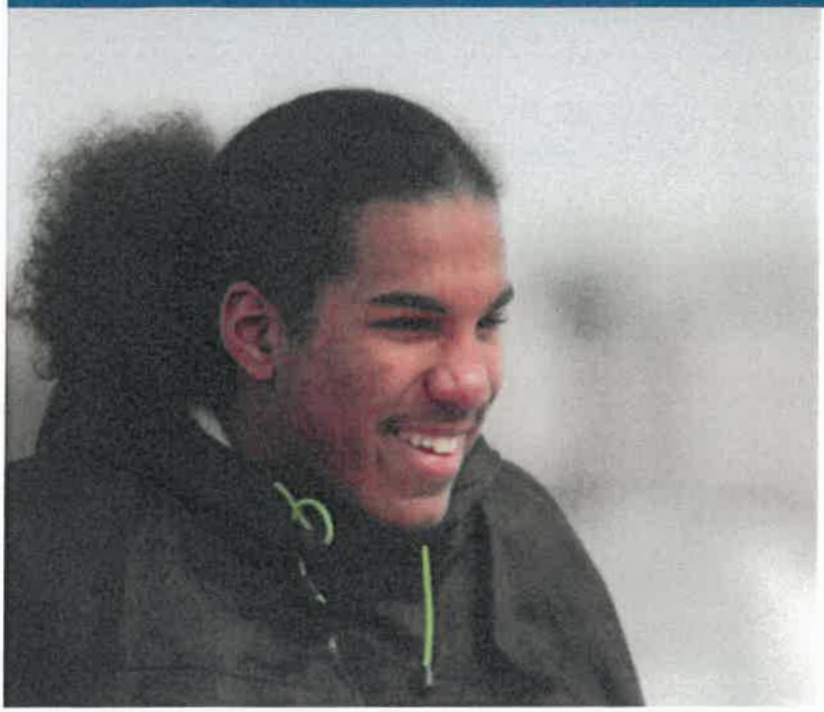
COMMUNITY WALK South Precinct



On March 31, 2007, about 7 p.m., Newport News police responded to a shooting in the 2100 block of Chestnut Avenue. Officers found Michael "Mikey" Zylberberg suffering from a gunshot wound. He died at the scene. The investigation revealed 17-year-old Michael was leaving a store when two unknown suspects began shooting and ran. The investigation remains ongoing.

Subject: RE: Senior Pen Pal project

Good Morning,

Our first batch of letters went out to our 26 adopted seniors on or around October 7th. To date, we have only heard back from 3 seniors. We are enclosing stamped return envelopes with the letters to make it easier for them to reply. Please encourage the seniors to respond from time to time. It will make it a little easier to continue to write them if we are learning more about them and their lives.

November letters will be sent out by next week. Thank you for your assistance with this matter. If you have ANY questions or concerns, please feel free to contact me. Thanks, and have a good day!

Subject: Re: Senior Pen Pal project

Good Afternoon,

Please see the email below regarding the initial email I sent to Mr. Carl Williamson and Larry Calloway about the Senior Pen Pal Project. Earlier today, Mr. Williamson sent me the names of 26 seniors total from multiple communities. Our Unit plans to mail the first batch of letters on or before October 7, 2021. We have also encouraged our team members to reach out by phone from time to time as well. We want to ensure before they receive any communication from us, they are aware we will be in contact with them. Please let them know prior to us sending letters or making calls. We appreciate ALL your support and look forward to this amazing partnership. If there are any questions or concerns, please feel free to contact me. Thanks, and have a great day!

email: whiteml@nnva.gov

Good Afternoon,

The Newport News Police Department, Community & Youth Outreach Division (CYOD), is interested in partnering with the Newport News Redevelopment & Housing Authority to establish a pen pal project with approximately 25 seniors to start with, *assigning 2 to 3 seniors to each team member*. These seniors can be from one community or multiple communities.

Our goal is to reach those seniors who may not have family in the area or may have mobility issues which limits them to getting out and about. A member of our unit would send a card or handwritten letter once a month to brighten a senior's day. It's a simple project. In this pandemic season we know more and more seniors could use the positive encouragement, *couldn't we all*?!

If NNRHA would like to support this initiative, all we would need are the names and addresses of the seniors to begin. If there are any additional questions or concerns, please feel free to contact me. Thanks for your attention to this matter. I look forward to hearing back from you or someone from your organization. Have a great day!

Teen gets 10 years for Heritage High School shooting

by: Jane Alvarez-Wertz
Posted: Aug 5, 2022 / 01:05 PM EDT
Updated: Aug 8, 2022 / 03:53 PM EDT

SHARE

NEWPORT NEWS, Va. (WAVY) – A Newport News judge sentenced a teenager to 10 years active prison time Friday for a shooting at Heritage High School last fall.

16-year-old **Jacari Taylor pleaded guilty in April** to six felonies: malicious wounding, felony use of a firearm, possessing a firearm on school property and discharging a firearm on school property.

Taylor was involved in a a fight at lunchtime on September 20, during which Taylor pulled out a gun and fired several shots in a busy hallway at the high school.

Deputy Commonwealth's Attorney Travis White said the shooting "destroyed the sense of sanctuary we should have in our schools, where kids should feel safe. Every parent was hoping it wasn't their kid who got shot".

A 17-year-old boy and girl were wounded by the gunfire. They both survived, but the boy's father said his son has permanent injuries, including hearing loss. White says the girl has signs of despair and gets flashbacks when she hears loud noises.

At the time of the Heritage High School incident, Taylor was wearing an ankle monitor bracelet after a juvenile conviction on gun and malicious wounding charges for shooting someone. Attorney Emily Hunt, one of Taylor's public defenders, said that earlier shooting – when Taylor was just 14 – was connected to the Heritage High incident through Taylor's brother, but did not give further details.

ADVERTISEMENT

Hunt tried to draw a line between what happened in the Heritage hallway and what we commonly call "school shootings", saying Taylor didn't go to class that day intending to shoot up the school. "This wasn't Columbine," she said.

Judge Christopher Papile sentenced Taylor to 10 years active time. During the sentencing, Papile said he could not ignore that this was not his first crime. Taylor will serve a blended sentence, meaning some of the time will be served in the juvenile justice system. Once he turns 21 in 2027, he will enter the adult system.

Taylor told Newport News detectives shortly after the shooting that he had the gun for protection and didn't know how to fight. Taylor has a slight build – Hunt said he's about 5'9" tall and weighs 115 pounds.

Murder charge maintained against teen in shooting outside Menchville High basketball game

by: Brian Reese, Chris Horne
Posted: Mar 10, 2022 / 07:59 AM EST
Updated: Mar 11, 2022 / 08:52 AM EST

SHARE

NEWPORT NEWS, Va. (WAVY) — A murder case stemming from a shooting outside a December high school basketball game in Newport News will now move to Circuit Court.

Demari Batten, the 18-year-old former Warwick High School student charged in the shooting death of 17-year-old Woodside High student Justice Dunham, appeared in court on Thursday for a preliminary hearing.

Batten is **charged with second-degree murder** in the case.

Family of teen killed in Menchville High School parking lot speaks out; community holds vigil ›

Justice's father Mike Dunham **says eyewitnesses told him that Justice was under attack at the time.**

ADVERTISEMENT

Friends say 18-year-old accused in fatal shooting at Newport News high school is a quiet, good kid >

In court Thursday, defense attorney James Broccoletti called the deadly shooting "at best, a case of self-defense, and at worst a case of voluntary manslaughter," but the judge kept the murder charge in place and moved the case forward to the higher court.

Batten brought a gun with him to the game and left it inside his friend's Hyundai Elantra when they went inside the gym. Batten's attorney says he was fearing he might need it.

"He didn't have an argument inside the game. The way the detective related it was [Batten] recognized people at the game that had issues with him, so there was no confrontation. He left to avoid a confrontation," Broccoletti said.

Batten went back to the car with about a minute left in the game and was standing next to it with the passenger door standing open. Batten told police that a young man went directly toward him and kept Batten from closing the door.

Batten then said he feared that the Glock pistol with an extended magazine that he had loaded with at least 20 bullets might be stolen. He reached for it — and Batten said a second person tried to enter the car from the driver's side.

Batten fired one shot toward the driver's door, striking Dunham in the chest. Two others were close behind, but a detective said they were not trying to get in the car.

Newport News: Boy aged six detained after shooting teacher in US

7 January 2023

Share

By Matt Murphy
BBC News

Reuters

The shooting happened at Richneck Elementary School in the city of Newport News

A six-year-old boy has been detained by police after shooting a teacher in the US state of Virginia, officers say.

The shooting happened shortly after 14:00 local time (19:00 GMT) at Richneck Elementary School in the city of Newport News, Chief Steve Drew said.

It is unclear how the child obtained the gun, but Mr Drew said the incident was not "an accidental shooting".

The teacher - who has not been named and is said to be in her 30s - was left with life-threatening injuries.

She was taken to a local hospital and is being closely monitored by doctors. The incident took place in a first grade (ages six to seven) classroom after an altercation between the pair.

But Mr Drew emphasised that the shooting had been an isolated incident and stressed that officers "did not have a situation where someone was going around the school shooting".

Officials said that while the school - which has around 550 students - had metal detection facilities, students were checked at random and not every child was inspected.

Police declined to name the weapon used in the incident, but said the boy had used a handgun.

School District Head Dr George Parker said officials would "be looking at any instance that may have occurred that may have caused this incident".

"This is terrible, something like this should never occur," Dr Parker added. "We want to ensure nothing like this happens again."

He said the school would be closed on Monday, and pledged that students and parents would be offered support to help them deal with the traumatic event.

Mayor Phillip Jones - who took office just three days ago - said the shooting marked "a dark day for Newport News".

"We're going to learn from this and we're going to come back stronger," he told reporters.

Virginia Governor Glenn Youngkin said he had offered assistance to local officials, adding that his administration was "ready to help in any way we can".

"I am continuing to monitor the situation and am praying for the continued safety of all students and the community," he wrote on Twitter.

Newport News is a city of around 180,000 people and sits about 70 miles (112km) to the south of the state capital Richmond.

Weapons detection systems installed at Newport News elementary schools, childhood centers

by: Courtney Ingalls
Posted: Apr 18, 2023 / 06:43 AM EDT
Updated: Apr 18, 2023 / 06:43 AM EDT

SHARE

NEWPORT NEWS, Va. (WAVY) – Newport News Public Schools will be launching weapons detection systems Tuesday at all elementary schools and childhood centers.

This launch comes three months after police say a first grader shot his teacher at Richneck Elementary School.

Complete Coverage: Richneck Elementary School Shooting ›

School leaders have been working to get the weapons detection systems set up, however, delivery delays continued to push the launch back.

The district spokesperson says 90 new weapons detection systems were ordered, which is enough to put in all Newport News Public Schools.

Previous: Newport News to install metal detectors after elementary school shooting ›

Even though security staff and administrators have been trained to use the new systems, students told 10 On Your Side last month that they are worried about being late to school.

"They told us were doing it every single day so it's going to be a hassle getting all the kids inside," Maleah Natal said.

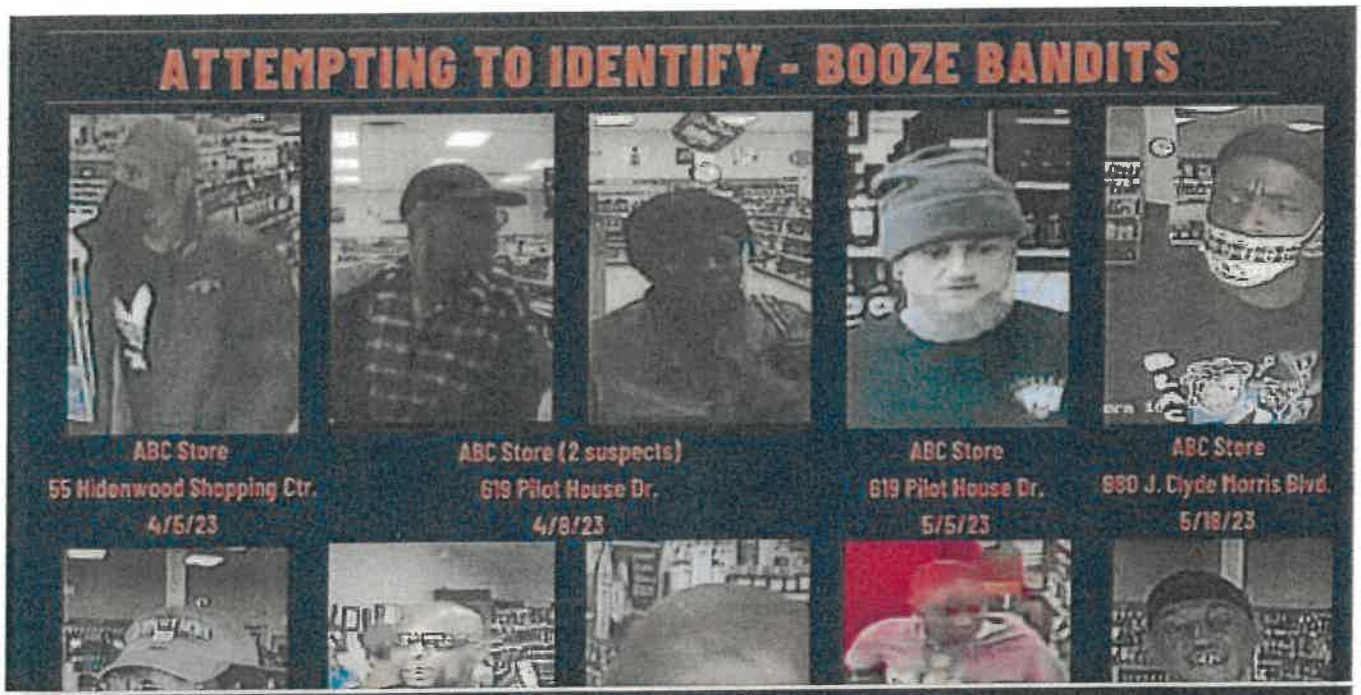
BUSINESS WATCH

Newport News Police Department
August 31, 2023 ·

ATTEMPTING TO IDENTIFY*: *LARCENY* & *FRAUD SUSPECTS

Do you recognize any of these individuals? If so, call the anonymous Crime Line at 1-888-LOCK-U-UP or submit a tip online at P3Tips.com or through the P3Tips app. Tipsters never have to testify in court, and tips that lead to an arrest could be eligible for a reward of up to $1,500.



March 23, 2023

COMMUNITY BULLETIN

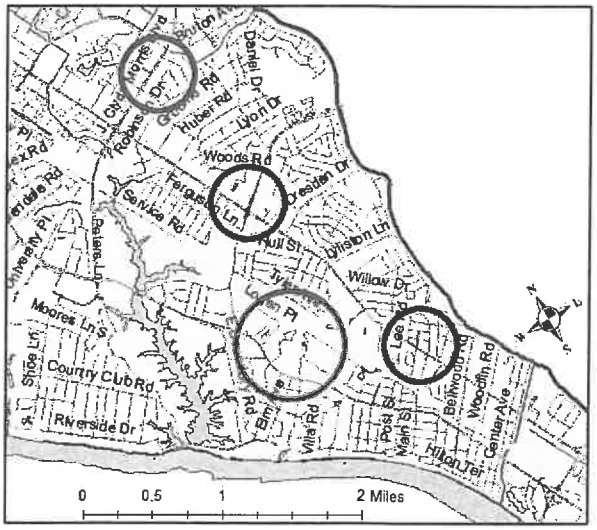
NEWPORT NEWS POLICE DEPARTMENT
CRIME ANALYSIS UNIT

TO: COMMUNITY PARTNERS
SUBJECT: COUNTERFEIT $20 BILLS

FROM: Crime Analysis Unit

SYNOPSIS:

There has been a recent series of a suspect utilizing counterfeit $20 bills at multiple businesses for both deliveries in the area of Colonial Place and payment in store. Businesses that have been impacted thus far include pizza restaurants and convenience stores (see the map for further information on locations of the incidents). Please do not confront or notify the suspect of this bulletin. Call police immediately should the suspect attempt to pass counterfeit money.



SUSPECT:

Unknown young black male possibly between the ages of 18 to 24. During one incident, the suspect was described as having dreadlocks.

RECOMMENDED *ACTION:* We encourage everyone with relevant information, regardless of how insignificant it may seem, to contact the police department. If you have any knowledge of this incident or know the suspect(s) involved in these crimes, please call the CRIME LINE at 1-888-LOCK-U-UP or go to www.p3tips.com. Your tip, if it leads to an arrest, could earn you a cash reward of up to $1,500 dollars. Crime Line calls are **confidential** and callers are **not required to leave their names, telephone numbers or to ever testify in court**.

10/20/2023

Code of Virginia
Title 18.2. Crimes and Offenses Generally
Chapter 5. Crimes Against Property

§ 18.2-105.1. Detention of suspected shoplifter.

A merchant, agent or employee of the merchant, who has probable cause to believe that a person has shoplifted in violation of § 18.2-95 or § 18.2-96 or § 18.2-103, on the premises of the merchant, may detain such person for a period not to exceed one hour pending arrival of a law-enforcement officer.

1976, c. 515.

10/20/2023

Code of Virginia
Title 18.2. Crimes and Offenses Generally
Chapter 3. Inchoate Offenses

§ 18.2-23. Conspiring to trespass or commit larceny.

A. If any person shall conspire, confederate or combine with another or others in the Commonwealth to go upon or remain upon the lands, buildings or premises of another, or any part, portion or area thereof, having knowledge that any of them have been forbidden, either orally or in writing, to do so by the owner, lessee, custodian or other person lawfully in charge thereof, or having knowledge that any of them have been forbidden to do so by a sign or signs posted on such lands, buildings, premises or part, portion or area thereof at a place or places where it or they may reasonably be seen, he shall be deemed guilty of a Class 3 misdemeanor.

B. ~~If any person shall conspire, confederate or combine with another~~ or others in the Commonwealth ~~to commit larceny or counsel, assist, aid or abet another in the performance of a larceny, where the aggregate value~~ of the goods or merchandise involved ~~is $1,000 or more~~, he is guilty of a felony punishable by confinement in a state correctional facility for not less than one year nor more than 20 years. The willful concealment of goods or merchandise of any store or other mercantile establishment, while still on the premises thereof, shall be prima facie evidence of an intent to convert and defraud the owner thereof out of the value of the goods or merchandise. ~~A violation of this subsection constitutes a separate and distinct felony.~~

C. Jurisdiction for the trial of any person charged under this section shall be in the county or city wherein any part of such conspiracy is planned, or in the county or city wherein any act is done toward the consummation of such plan or conspiracy.

Code 1950, § 18.1-15.1; 1960, cc. 99, 358; 1975, cc. 14, 15; 2003, c. 831; 2018, cc. 764, 765; 2020, cc. 89, 401.

10/20/2023

Code of Virginia
Title 18.2. Crimes and Offenses Generally
Chapter 5. Crimes Against Property

§ 18.2-104.1. Liability upon conviction under § 18.2-103.

Any person who has been convicted of violating the provisions of § 18.2-103 shall be civilly liable to the owner for the retail value of any goods and merchandise illegally converted and not recovered by the owner, and for all costs incurred in prosecuting such person under the provisions of § 18.2-103. Such costs shall be limited to actual expenses, including the base wage of one employee acting as a witness for the Commonwealth and suit costs. Provided, however, the total amount of allowable costs granted hereunder shall not exceed $250, excluding the retail value of the goods and merchandise.

1976, c. 577.

10/20/2023

Code of Virginia
Title 18.2. Crimes and Offenses Generally
Chapter 5. Crimes Against Property

§ 18.2-103.1. Organized retail theft; penalty.

A. As used in this section:

"Retail mercantile establishment" means any place where merchandise is displayed, held, stored, or offered for sale to the public.

"Retail property" means any article, product, commodity, item, or component intended to be sold in retail commerce.

"Retail property fence" means a person or business that buys retail property knowing or believing that such retail property has been unlawfully obtained.

B. Any person who conspires or acts in concert with another person to commit simple larceny of retail property from one or more retail mercantile establishments, with a value exceeding $5,000 aggregated over a 90-day period, with the intent to sell such retail property for monetary or other gain, and who takes or causes such retail property to be placed in the control of a retail property fence or other person and either (i) receives or possesses any retail property that has been obtained by simple larceny from one or more retail mercantile establishments while knowing or having reasonable grounds to believe the property was unlawfully obtained or (ii) conspires or acts in concert with two or more other persons as an organizer, supervisor, financier, leader, or manager to engage for profit in a scheme or course of conduct to effectuate the transfer or sale of property obtained by simple larceny from one or more retail mercantile establishments is guilty of organized retail theft.

C. A violation of this section is punishable as a Class 3 felony.

D. Any larceny of retail property occurring in more than one county or city may be aggregated into an alleged violation of this section.

E. Venue for the trial of any person charged with an offense under this section may be in the county or city in which (i) any act was performed in furtherance of the offense or (ii) the person charged with the offense resided at the time of the offense.

2023, cc. 357, 358.

10/20/2023

Code of Virginia
Title 18.2. Crimes and Offenses Generally
Chapter 5. Crimes Against Property

§ 18.2-103. Concealing or taking possession of merchandise; altering price tags; transferring goods from one container to another; counseling, etc., another in performance of such acts.

Whoever, without authority, with the intention of converting goods or merchandise to his own or another's use without having paid the full purchase price thereof, or of defrauding the owner of the value of the goods or merchandise, (i) willfully conceals or takes possession of the goods or merchandise of any store or other mercantile establishment, or (ii) alters the price tag or other price marking on such goods or merchandise, or transfers the goods from one container to another, or (iii) counsels, assists, aids or abets another in the performance of any of the above acts, when the value of the goods or merchandise involved in the offense is less than $1,000, shall be guilty of petit larceny and, when the value of the goods or merchandise involved in the offense is $1,000 or more, shall be guilty of grand larceny. The willful concealment of goods or merchandise of any store or other mercantile establishment, while still on the premises thereof, shall be prima facie evidence of an intent to convert and defraud the owner thereof out of the value of the goods or merchandise.

Code 1950, § 18.1-126; 1960, c. 358; 1970, c. 652; 1975, cc. 14, 15; 1994, c. 706; 2018, cc. 764, 765; 2020, cc. 89, 401.

NEWPORT NEWS POLICE DEPARTMENT
An Internationally Accredited Agency
Steven R. Drew, Chief of Police

May 26, 2021

Good day,

Thank you for taking the time to speak with me last week and for being willing to meet with your fellow apartment managers and your local officers.

I can't wait to see you on June 1, 2021, at 100pm. As discussed, we will meet in the Central Precinct Conference Room at 611 Dresden Drive, Newport News, VA 23601.

I am excited for you to hear from our Community Youth and Outreach and Real Time Crime Center officers, and for the potential that we have to partner in future endeavors. I encourage you to bring questions and to network with other managers in this area, especially since several of you share property boundaries.

The following complexes are currently expected be in attendance:

Pebblestone Gardens Apartments
Ada Park Apartments
Harborstone
Collinwood South
Regency Square
Jefferson Flats

Have a great day and see you next week.

Sergeant B. Keller
Central Precinct
Watch II
Desk: 757-926-4732

VICTIM WITNESS

L.A.P. SCREEN

TRANSITIONS
FAMILY VIOLENCE SERVICES

24 Hour Crisis Hotline: (757) 723-7774

MNADV

Officer:	Date:	Case #:
Victim:	Offender:	

☐ **Check here if victim declined to be screened**

☐ **Check here if the officer could not administer the screen**

A "Yes" response to any of Questions #1-3 is an automatic High-Danger assessment			
1. Has he/she/they ever used a weapon against you or threatened you with a weapon?	☐ Yes	☐ No	☐ Not Ans/Unk
2. Has he/she/they threatened to kill you or your children?	☐ Yes	☐ No	☐ Not Ans/Unk
3. Do you think he/she/they might try to kill you?	☐ Yes	☐ No	☐ Not Ans/Unk

"Yes" responses to at least four of Questions #4-11 is an automatic High-Danger Assessment			
4. Does he/she/they have a gun or can they easily get one?	☐ Yes	☐ No	☐ Not Ans/Unk
5. Has he/she/they ever tried to choke you?	☐ Yes	☐ No	☐ Not Ans/Unk
6. Is he/she/they violently or constantly jealous or does he/she/they control most of your daily activities?	☐ Yes	☐ No	☐ Not Ans/Unk
7. Have you left him/her/them or separated after living together or being married?	☐ Yes	☐ No	☐ Not Ans/Unk
8. Is he/she/they unemployed?	☐ Yes	☐ No	☐ Not Ans/Unk
9. Has he/she/they ever tried to kill himself/herself/themself?	☐ Yes	☐ No	☐ Not Ans/Unk
10. Do you have a child that he/she/they knows is not his/hers/theirs?	☐ Yes	☐ No	☐ Not Ans/Unk
11. Does he/she/they follow or spy on you or leave threatening messages?	☐ Yes	☐ No	☐ Not Ans/Unk

Is there anything else that worries you about your safety? (If "yes") What worries you?

An officer may make a High-Danger Assessment if the officer believes the victim is in a potentially lethal situation.

Check one:	☐ **Victim is High-Danger based on score**
	☐ **Victim is High-Danger based on officer belief**
	☐ **Victim is not assessed as High-Danger**

If victim is High-Danger, did officer make a call to the hotline? (757) 723-7774	☐ Yes	☐ No
Did the victim speak with the hotline advocate?	☐ Yes	☐ No

Note: *The questions above and the criteria for determining the level of risk a person faces is based on the best available research on factors associated with lethal violence by a current or former intimate partner. However, each situation may present unique factors that influence risk for lethal violence that are not captured by this screen. Although most victims who are assessed as "High-Danger" would not be expected to be killed, these victims face much higher risk than that of other victims of intimate partner violence. All domestic violence is serious. This Screen should not be used to determine whether someone is a victim or is at risk of re-assault.*

This project was supported by Grant No. 2011-TA-AX-K111 awarded by the Office on Violence Against Women, U.S. Department of Justice. The opinions, findings, conclusions, and recommendations expressed in this publication are those of the authors and do not necessarily reflect the views of the Department of Justice, Office on Violence Against Women.

© Lethality Assessment Program, a project of the Maryland Network Against Domestic Violence (MNADV). Use of the Lethality Screen without training approved by MNADV is prohibited.

This form must be completed and emailed to nnpddvteam@nnva.gov by the end of the officer's shift

DELINQUENCY PREVENTION

NEWPORT NEWS DEPARTMENT OF HUMAN SERVICES

YOUTH SERVICES

The Newport News Youth Services Unit is ready to help you chase your dreams and realize your potential! Our quality programs and strong community partnerships engage young people and empower families. We offer:

Diverse, unique and fun informational and awareness programs, initiatives and public events, including back-to-school events, holiday activities, cookouts, family movie nights and much more!

Community Education & Training

Classes and training on a wide variety of topics to educate and inform you about issues and trends impacting young people and families.

Committed and engaged fathers are vital to the growth and development of children. We hold programs and lead initiatives to engage, educate and celebrate fathers of all ages and stages in life.

Youth Development

Diverse programs, engaging sessions and [illegible] are facilitated by a dynamic and caring staff and [illegible]ners.

The City promotes student involvement on local boards and commissions. We educate young people about opportunities to make a difference and ways to have their voices heard. We identify students who exhibit an eagerness to serve and affect positive social change, and engage young people on the Mayor's Youth Commission. Members of this group represent their schools and work/consult with the Mayor and City Council on projects designed to improve the lives of youth, such as the Mayor's Initiative to End Bullying.

Family Case Management

The Newport News Youth Services Unit focuses on the entire family, providing vital supports that engage young people and encourage family development. Our family support services include the Teamwork~Options~Pathways (TOP) program. TOP is an intensive, wraparound case management program that connects families with community-based resources and services to build on strengths and enhance the family unit.

To become part of the TOP program, young people and their families must meet the following criteria:

- Youth under the age of 18 or youth enrolled in Newport News Public Schools
- Families residing in Newport News or families with youth enrolled in Newport News Public Schools
- Youth facing challenges in the home, school, or the community
- Families managing life events, circumstances, or relationships

TOP Program Screening & Referral Form

Please type or print legibly

Before you make a referral:

Is the child in foster care or NNDHS custody? ☐ Yes ☐ No

Is the family open to another NNDHS service program (i.e. Family Stabilization, CHINS)? ☐ Yes ☐ No

If yes, what program?_____

If you answered yes to any of the above questions, the family may not be eligible for TOP Services.

If there are extenuating circumstances to be considered, please contact the TOP Senior Family Services Specialist or the Youth Services Supervisor to discuss the family's unique situation and needs before making a referral.

If you answered no to all of the above questions, please complete the reverse side of this form and submit to the TOP Program using the contact information shown below.

Screening for Experiences and Strengths (SEAS)

23

Screening for Experiences and Strengths (SEAS)

- A BRIEF screening tool that can be used across systems to identify various forms of victimization and trauma among children/youth up to the age of 21.
- To be used to support referrals and the need for additional support and/or services.
- Piloted and evaluated in five Virginia communities.

24

Screening for Experiences and Strengths (SEAS)
Ages 0-6

INTERVIEWER FORMAT:

This is an INTERVIEW process; not to be handed directly to the child/youth and/or parent/caregiver.

Purpose: To identify possible victimization, to screen for the adverse impact of victimization, and to identify protective factors.

This tool focuses on self-reported experiences that have not been verified.

Victimization: According to the U.S. Department of Justice, Office for Victims of Crime, the categories of trauma that fit under victimization are as follows: Community Violence, Domestic Violence, School Violence, Emergency, Physical Assault, Sexual Abuse, Physical Abuse, Neglect, Psychological Maltreatment/Emotional Abuse, Sexual Assault/Rape, Kidnapping, Abduction, War/Political Violence, Trafficking, Sexual Exploitation, and Bullying.

Target Population: Children, youth, and transitioning young adults up to 21 years of age who have been victims of crime through personal experience or observation. This target population may include, but is not limited to, those who have been the victims of physical and sexual abuse, trafficking, bullying, community violence, and domestic violence.

Perpetrated by Family Member/Caregiver: If a child/youth and/or parent/caregiver discloses information about a possible incident, the question of whether it was perpetrated by a family member or caregiver should elicit additional concern for his/her immediate safety and well-being.

Notice of Participation: Participants can opt out of this screening at any time, for any reason stated or unstated and it will not impact the services they are already receiving by the agency conducting this screening.

Confidentiality: The information collected in this screening tool may be shared by the agency administering the tool to other providers who can offer additional services to the child/youth only when following the agency's confidentiality policies and applicable mandated reporter requirements.

Evaluación de Experiencias y Fortalezas
(Por sus siglas en Ingles: SEAS)
Edades 0-6

FORMATO DE ENTREVISTA:

Este es un proceso que se lleva a cabo a modo de entrevista; no debe de ser entregado directamente al niñx*, joven y/o padres o guardianes.

Propósito: Identificar posible victimización, evaluar el impacto adverso que trae la victimización, e identificar factores de protección.

Esta herramienta se focaliza en experiencias reportadas por lxs mismos participantes y no han sido verificadas.*

Victimización: De acuerdo con el Departamento de Justicia de los Estados Unidos y La Oficina para las Victimas de Crimen, las categorías de trauma que encajan bajo la categoría de victimización son las siguientes: Violencia Comunitaria, Violencia Domestica, Violencia en las Escuelas, Emergencia, Asalto Físico, Abuso Sexual, Abuso Físico, Negligencia, Maltrato Psicológico/Abuso Emocional, Asalto Sexual/Violación, Secuestro, Guerra/Violencia Política, Trata de Personas, Explotación Sexual, e Intimidación.

Población Seleccionada: Niñxs*, jóvenes, y adultos jóvenes hasta los 21 años, que han sido víctimas directas de crimen o que han observado un crimen. Esta población que ha sido seleccionada puede incluir, pero no está limitada a: personas que han sido víctimas de abuso físico o sexual, trata de personas, intimidación, violencia comunitaria, y violencia doméstica.

Violencia cometida por un miembro de la familia/guardian: Si un niñx*/joven y/o padre-madre/guardián, revela información acerca de un posible incidente, la pregunta acerca de si el abuso fue cometido por un miembro de la familia o cuidador, deberá de provocar más preocupación por su seguridad inmediata y bien estar.

Notificación de Participación: Lxs* participantes pueden renunciar a continuar esta evaluación en cualquier momento, por cualquier razón que mencione o no mencione, y no impactara los servicios que este recibiendo de la agencia que está llevando a cabo esta evaluación.

Confidencialidad: La información recolectada en esta evaluación, podría ser compartida por la agencia que este administrando esta herramienta, con otras agencias que pudieran ofrecer servicios adicionales al niñx/joven, solo cuando se esté siguiendo las pólizas de confidencialidad de la agencia y que sean aplicables a los requerimientos de reporte mandatorio.

* El uso de la X en este documento, denota un lenguaje inclusivo y neutral de género. El objetivo del uso de la X, es hacer presente la diversidad de los géneros cuando hablamos y escribimos. La X denota la inclusión del género femenino, masculino, no-binario y Queer.

Evaluación de Experiencias y Fortalezas
(Por sus siglas en inglés: SEAS)
Edades 7-12

FORMATO DE ENTREVISTA:

Este es un proceso que se lleva a cabo a modo de entrevista; no debe de ser entregado directamente al niñx*, joven y/o padres o guardianes.

Propósito: Identificar posible victimización, evaluar el impacto adverso que trae la victimización, e identificar factores de protección.

Esta herramienta se focaliza en experiencias reportadas por lxs mismos participantes y no han sido verificadas.*

Victimización: De acuerdo con el Departamento de Justicia de los Estados Unidos y La Oficina para las Victimas de Crimen, las categorías de trauma que encajan bajo la categoría de victimización son las siguientes: Violencia Comunitaria, Violencia Domestica, Violencia en las Escuelas, Emergencia, Asalto Físico, Abuso Sexual, Abuso Físico, Negligencia, Maltrato Psicológico/Abuso Emocional, Asalto Sexual/Violación, Secuestro, Guerra/Violencia Política, Trata de Personas, Explotación Sexual, e Intimidación.

Población Seleccionada: Niñxs*, jóvenes, y adultos jóvenes hasta los 21 años, que han sido víctimas directas de crimen o que han observado un crimen. Esta población que ha sido seleccionada puede incluir, pero no está limitada a: personas que han sido víctimas de abuso físico o sexual, trata de personas, intimidación, violencia comunitaria, y violencia doméstica.

Violencia cometida por un miembro de la familia/guardian: Si un niñx*/joven y/o padre-madre/guardián, revela información acerca de un posible incidente, la pregunta acerca de si el abuso fue cometido por un miembro de la familia o cuidador, deberá de provocar más preocupación por su seguridad inmediata y bien estar.

Notificación de Participación: Lxs* participantes pueden renunciar a continuar esta evaluación en cualquier momento, por cualquier razón que mencione o no mencione, y no impactara los servicios que este recibiendo de la agencia que está llevando a cabo esta evaluación.

Confidencialidad: La información recolectada en esta evaluación, podría ser compartida por la agencia que este administrando esta herramienta, con otras agencias que pudieran ofrecer servicios adicionales al niñx/joven, solo cuando se esté siguiendo las pólizas de confidencialidad de la agencia y que sean aplicables a los requerimientos de reporte mandatorio.

* El uso de la X en este documento, denota un lenguaje inclusivo y neutral de género. El objetivo del uso de la X, es hacer presente la diversidad de los géneros cuando hablamos y escribimos. La X denota la inclusión del genero femenino, masculino, no-binario y Queer.

TOP & Two Gen

Implementing a Two-Generational, Whole Family Approach to Service Delivery

Introduction:

Though whole-family service provision is not an entirely new concept for the TOP Program, the TOP program aims to revolutionize the traditional model by intentionally integrating a two-generational, whole family approach to service delivery. This innovative methodology recognizes that the well-being of children is intricately linked to the well-being of their parents or caregivers. By addressing the needs of both generations simultaneously, we strive to break the cycle of intergenerational poverty and disfunction, and improve outcomes for families in our community.

Definitions:

"TOP" ***(Teamwork ~ Options ~ Pathways)***: the intensive wraparound case management program facilitated by the NNDHS Community and Family Development [Youth Services] team

"Two Gen" ***(Two-Generational, Whole Family Approach)***: case management philosophy that approaches build family well-being by intentionally and simultaneously working with children and the adults in their lives together.

"SEAS" ***(Screening for Experiences and Strengths)***: a brief screening tool that has been developed by Virginia HEALS to identify trauma and victimization experiences and symptoms in children, youth, and transitioning young adults

"NCFAS" ***(North Carolina Family Assessment Scale)***: assessment tool used to measure family functioning from the perspective of the worker most involved with the family; it guides professionals to make a decision on whether action should be taken

"PSSF" ***(Promoting Safe and Stable Families)***: a Virginia Department of Social Services grant program, designed to assist children and families resolve crises, connect with necessary and appropriate services, and remain safely together in their own homes whenever possible

"IMPACT"- Annual Back-to-School event facilitated by the CFD Team and dozens of other community partners

"PAT" ***(Parents as Teachers Program)***

"MYC" ***(Mayor's Youth Commission)***

"BAC" ***(Boards and Commissions Recruitment)***

"NNPL" ***(Newport News Public Library)***

"VIEW" ***(Virginia Initiative for Education and Work)***

"SNAP- ET" ***(Supplemental Nutrition Assistance Program Employment and Training)***

Enhanced Program Objectives:

1. To provide comprehensive case management services that address the needs of both children and their caregivers.
2. To empower families to set and achieve their goals by providing them with the necessary resources and support.
3. To foster collaboration among various community agencies and stakeholders to ensure a holistic approach to service delivery.
4. To measure and evaluate the effectiveness of the program through outcome-based metrics and feedback mechanisms.

Key Components of "Two Gen":

The list below outlines the key components of the Two Gen model, breaks down the individual focus areas in each component, and then lists how the current TOP Program model addresses the component.

- **Social Capital**
  - ***Peer and family networks***- assessment of family support at intake (do they have support or is there conflict present); service providers focus on family therapy
  - ***Coaching***- service providers offer coaching services (Ketchmore Kids; Full of Faith); Mentoring (Quality of Life, Universal); ongoing TOP worker serves as coach and coordinator
  - ***Cohort strategies***- Navigating Wealth; New Horizon; Parenting Classes; Neighborhood Leadership Institute; Choice Neighborhoods Initiative
- **Health, Including Mental Health**
  - ***Mental, physical, and behavioral health***- Connections to various service providers who offer therapy (individual, family, mental health skill building); social activities (sports—physical); therapeutic camps
  - ***Coverage and access to care***- Ensuring clients are connected to eligible benefits; insurance; vision care; TOP Shop (confidential personal items supply closet); copayment and medical barrier bill support
  - ***Adverse childhood***-NCFAS Assessment; Trauma and Well-Being Screening; SEAS
  - ***Experiences toxic stress***- self care seminars; counseling; interest-based activities
- **Economic Assets**
  - ***Asset building***- Navigating Wealth;
  - ***Housing and public supports***- connect to community-based resources; Housing Crisis Hotline; Four Oaks Day Service Center; landlord resources; rent and utilities support
  - ***Financial capacity***-budgeting support; financial support; benefits; TOP Direct services, PSSF Preservation Funds
  - ***Transportation***- bus passes; virtual programs, home visiting; mobile providers
- **Early Childhood Education**
  - ***Head Start***- Healthy Families and Parents and Teachers referrals; summer programs; IMPACT; Hampton Roads Community Action Program
  - ***Early Head Start***- Healthy Families and PAT referrals
  - ***Child care partnerships***- internal referrals to Childcare for subsidy;
  - ***Prek***- registration support; program awareness; Choice Neighborhoods Initiative

- ***Home visiting***- Healthy Families and PAT referrals

- **K-12**
  - ***Kindergarten ready***- Healthy Families and PAT referrals; IMPACT
  - ***3rd grade reading skills***- Tutoring; NNPL
  - ***Parent engagement***- parenting classes (Nurturing Parenting, Active Parenting of Teens), Va Supreme Court Co-Parenting; case management; providers offer coaching/family therapy
  - ***Graduation and postsecondary prep***- tutoring; MYC/BAC; New Horizons; Case Management for students in alternative schools
- **Postsecondary & Employment Pathways**
  - ***Community college***- .Tidewater Writing Center; Virginia Peninsula Community Colleges
  - ***Training and credentials***- community job fairs; email list-serve opportunities
  - ***Workforce partnerships***- SNAP E&T and VIEW; New Horizons

Implementation Plan:

Deficiency Identification: Review the above list to identify which key components lack adequate efforts in the current program model.

Resource Planning/Mapping: Based on the identified deficits, gather key staff to brainstorm methods to address the gaps in resources

Staff Training: Provide ongoing training and professional development opportunities to ensure staff competence and effectiveness.

Partnership Development: Continue partnerships with local community agencies, schools, healthcare providers, and other stakeholders to create a seamless network of support for families. Identify new partners to help address the identified deficits. Foster collaboration and communication among partner organizations to maximize resources and avoid duplication of services.

Checklist Case Management Method: Develop a checklist to equip Family Services Specialists with a document to help track and ensure that each applicable Key Component is being considered and addressed.

Conclusion:

In conclusion, the TOP Program offers a tested approach to addressing the complex needs of families in our community. By adopting a two-generational, whole family approach, we aim to promote family stability, improve child outcomes, and promote family thriving for future generations. We are committed to working collaboratively with families, community partners, and stakeholders to ensure the success and sustainability of this innovative program.

March 23, 2024

Chief Steven R. Drew
Chief of Police
Newport News Police Department
9710 Jefferson Avenue
Newport News, VA 23605

Chief Drew:

CALEA® Accreditation serves as the *International Gold Standard for Public Safety Agencies*. This correspondence serves to recognize the Newport News Police Department has been awarded Communications Accreditation effective March 23, 2024, for the Fourth time. This award remains in effect for four years and the agency retains all privileges associated with this status during that period.

The process of CALEA Accreditation begins with a rigorous self-assessment, requiring a review of policies, practices, and processes against internationally accepted public safety standards. This is followed with an assessment by independent assessors with significant public safety experience. Additionally, public feedback is received to promote community trust and engagement, and structured interviews are conducted with select agency personnel and others with knowledge to assess the agency's effectiveness and overall service delivery capacities. The decision to accredit is rendered by a governing body of twenty-one Commissioners following a public hearing and review of all reporting documentation.

CALEA Accreditation is a continuous process and serves as the foundation for a successful, well managed, transparent, community-focused public safety agency. To this end, an agency must maintain its accredited status by remaining in compliance with CALEA standards at all times.

CALEA congratulates the Newport News Police Department for demonstrating a commitment to professional excellence through accreditation. The CALEA Accreditation indices are the *Marks of Professional Excellence* and should be displayed proudly by those that have earned them.

Sincerely,

W. Craig Hartley, Jr.
Executive Director

March 23, 2024

Again, congratulations on your most recent CALEA Accreditation. As you move into the next four years, we are providing you with your annual, web-based standards assessment dates and site-based assessment date required under the new four-year assessment model used by the Commission on Accreditation for Law Enforcement Agencies, Inc. (CALEA®).

The Newport News Police Department's Communications Accreditation Year 1, 2, 3 and 4 annual web-based assessments will take place during the following weeks:

Year 1: January 31 - February 8, 2025
Year 2: January 30 - February 7, 2026
Year 3: January 29 - February 6, 2027
Year 4: October 8 - 16, 2027

The Newport News Police Department site-based review is scheduled for the week of November 29.

As a reminder, the agency must remit annual status reports through the CALEA Information Management and Reporting System (CIMRS) to document its progression of continuous organizational improvement for the next three years prior to the agency's award date of March 23. In the fourth year, an annual status report is not required due to the timing of the annual web-based and site-based standards reviews.

Prior to your agency's first annual compliance review, you will receive an email from CIMRS@calea.org, with your CIMRS access. If your agency has already had an annual compliance review, each user's access to the CIMRS System is still valid and the link for CIMRS is https://accreditation.calea.org. The agency should log into CIMRS and complete and/or update the necessary agency information.

If you should have any questions or need additional information, please contact the CALEA Assessment Team at (703) 352-4225.

Sincerely,

W. Craig Hartley, Jr.
Executive Director

What is the Senior Safety Summit?

In 1995 the Peninsula S.A.L.T. (Seniors and Law Enforcement Together) Council held its first Summit to provide information to senior citizens in an effort to promote awareness of scams, fraud, and identity theft. Each year more than 250 seniors on the Peninsula gather to hear the latest on what they can do to help protect themselves and to talk with over 30 exhibitors.

Updated 8/3/2021

We had a blast celebrating National Night Out with our neighborhood watch groups, community partners and residents last night. The annual community-building event serves to promote police-community partnerships. We are so thankful for everyone who came out to meet with officers and show their support. "I appreciate all of you for what you do for us in this community," Chief of Police Steve Drew said. "It matters, and it makes a difference."

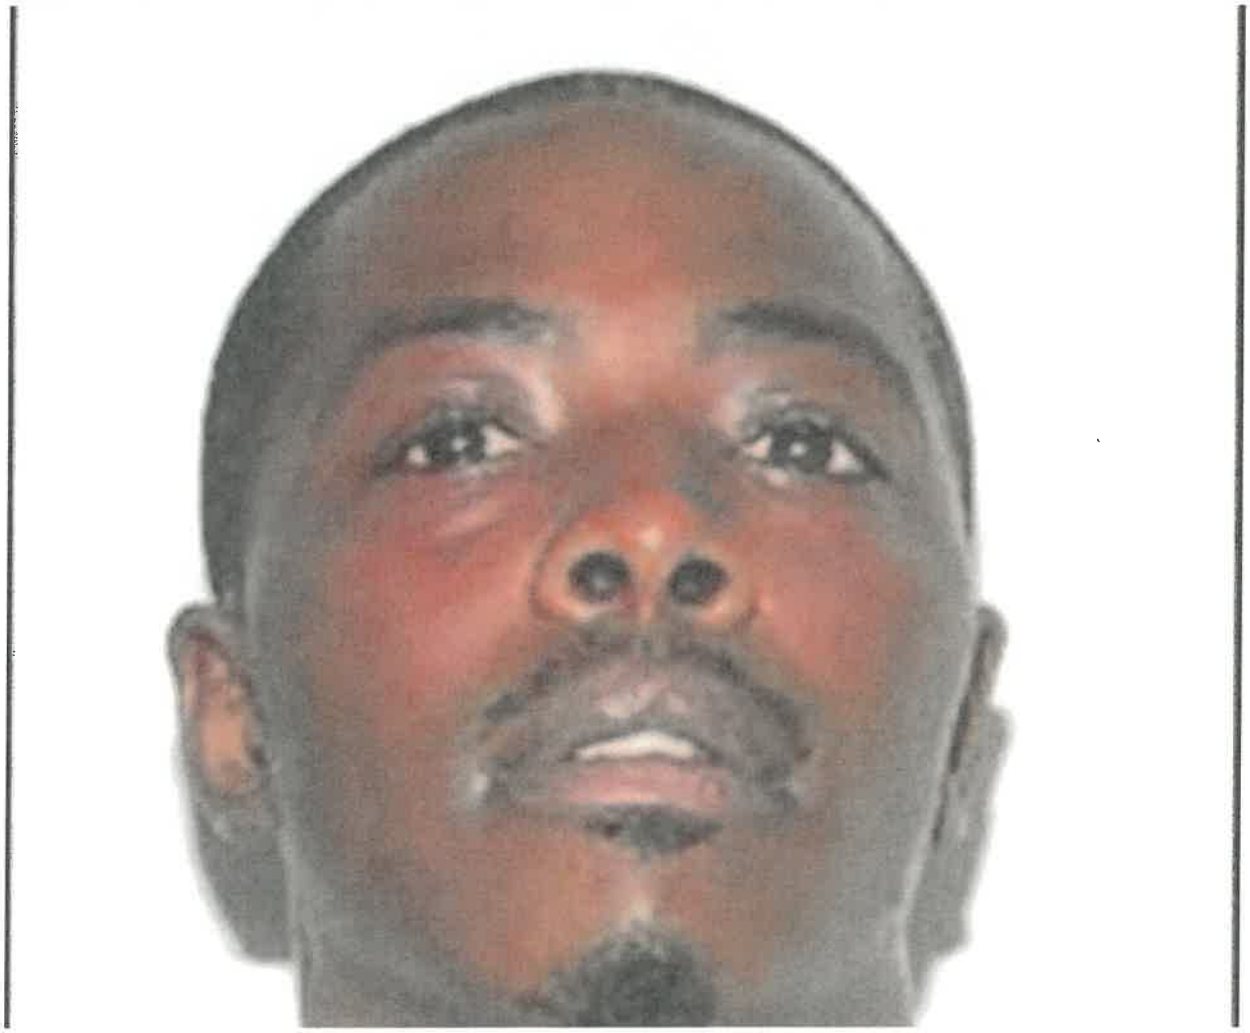
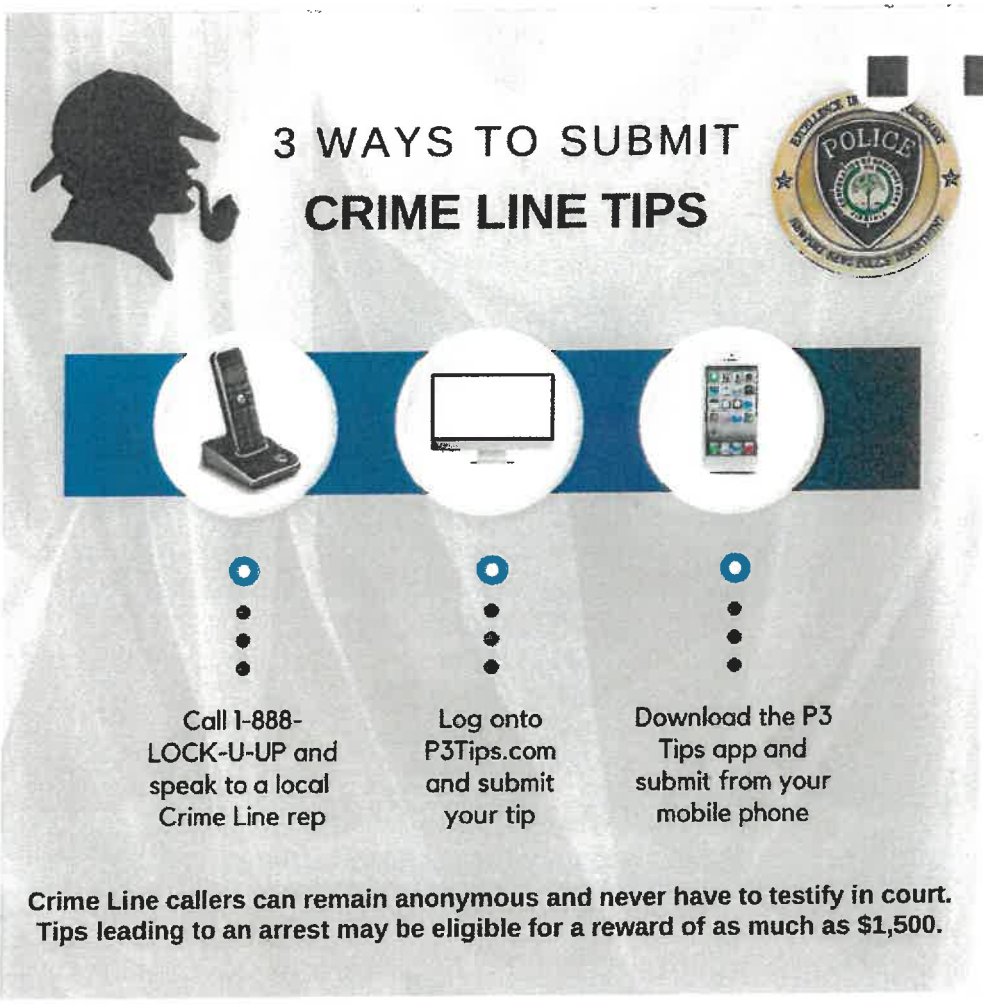
Attempting to Locate: Homicide Suspect Ronald Brown

NNPD is attempting to locate homicide suspect Ronald Lashawne Brown, 35, who is wanted in connection with the murder of Tahesha Saunders on 33rd Street on Aug. 3. Brown has been charged with first-degree murder, use of a firearm in commission of a felony, and possession of a firearm by a convicted felon. A 2020 photo of Brown is included with this post.

Brown's last known address was in Hampton. If you know his whereabouts, you can make an anonymous tip by calling the Crime Line at 1-888-LOCK-U-UP or submitting online at P3Tips.com. Tipsters never have to testify in court and could be eligible for a reward of up to $1,500 for tips leading to an arrest.





Newport News Police Department
March 12, 2023 ·

Did you know there are 3 easy ways to submit tips to our Crime Line?

- Call 1-888-LOCK-U-UP and speak to someone
- Submit through the P3Tips.com web site
- Submit through the P3 Tips mobile app (download for free for Android and Apple devices)

New for 2023 – tips that lead to an arrest could now be eligible for a reward of up to $1,500. As always, Crime Line tipsters can remain anonymous and never have to testify in court.

We need your help solving a homicide case. On November 10, 2022, officers were dispatched to the 700 block of Windy Way in reference to an individual in need of medical assistance. When officers arrived, 21-year old Anton Montana Artis was discovered near a fence line not breathing. He was pronounced dead at the scene. After further investigation, a single gunshot wound was determined to be the cause of death.

If you have any information about this homicide, you are encourag... **See more**

SCHOOL RESOURCE OFFICER

NEWPORT NEWS POLICE DEPARTMENT
YOUNG ADULT POLICE COMMISSIONERS

PROGRAM DESCRIPTION

What is the Young Adult Police Commissioners Program?

The Young Adult Police Commissioners program (YAPC) is a youth advisory board that is conducted in partnership with the City of Newport News Public Schools and the Newport News Police Department. This board was created by the Chief of Police in 2018 to build a better relationship between the Newport News Police Department and the youth in the City of Newport News. The board consists of twenty-four youths representing every public high school in the City. To join the board, students from the 9th, 10th, 11th or 12th grades must be recommended by the school principal and the Newport News Police School Resource Officers. Once they are selected, they are sworn into the YAPC program.

The Young Adult Police Commission provides an opportunity for youth to have a voice in the City about issues that affect them. This program also provides opportunities for youth to partner with police on problem-solving strategies and discuss policing in general to give them a better understanding of what the police department does. The School Resource Officers provide transportation. Youth are often faced with challenges and choices that can place them in jeopardy or lead them to an undesirable future. With this commission, we will develop a better understanding of these challenges and initiate some problem-solving strategies.

The Young Adult Police Commission meetings help them with the following:

- Social Skills
- Life skills
- Career building skills
- College skills
- Venues for their peers to have a voice

Roles and Responsibilities

The Chief of Police is the Officer-In-Charge of the Young Adult Police Commission. The Community Youth and Outreach Division staff mentors and facilitates projects set forth by the Chief of Police.

Meeting Location

Newport News Police Department Headquarters
9710 Jefferson Avenue
Newport News, Virginia 23605

Days

- Attire must not reflect any association (colors, signs, or tags) or affiliation with any neighborhood groups, clubs and/or gangs.

What not to bring to YAPC Meetings

Any and all electronic devices must be turned off and out of sight during specified times, 3:00 p.m. – 5:00 p.m.

Participant Cell Phone Policy

Cell phone use by participants is prohibited during meetings unless there is an emergency.

Activities

Some of the program activities include but are not limited to public speaking, field trips, etc.

Nutrition

Participants will be provided with a light meal.

MANAGEMENT AND DISCIPLINE GUIDELINES/PROCEDURES

Disciplinary Procedures

Due to the nature of the Newport News Police Young Adult Police Commissioner Program, our discipline policy is strict and must be followed throughout the entire program. The staff will decide the appropriate level of action.

Method of Discipline – *if behavior problems arise, parents will be contacted that day to discuss the nature of the problem. The following methods of discipline are as follows:*

First Offense – Verbal Warning: The participant is asked to discontinue their behavior.

Second Offense – Time Out: If the behavior persists, the child will be asked a second time to discontinue their actions. In addition, they may lose privileges.

Third Offense – Corrective Action: If the same behavior or other disruptive behaviors continue to occur, causing a strain on the flow of activities for other students, the staff will meet with the participant, and the parent will be notified.

Fourth Offense – Suspension/Removal from the program: If there are further incidents, the participant maybe be suspended or removed from the YAPC.

ATTENDANCE POLICY

If your child is absent more than three (3) sessions, he/she will not be removed from the program.

PARTICIPANT SIGN IN AND SIGN OUT

Newport News Police Department personnel will provide transportation for your child from school to the meeting and to the listed home address upon meeting completion.

Your child/children may participate in all supervised programs offered through the Newport News Police Young Adult Police Commission program.

What a great week last week was! Last week, Chief Drew resumed his Leadership, Knowledge and Awareness Forums at the city's high schools. Chief Drew, SROs from each school and leaders representing several different areas of the department were able to interact with students from our city in open forums at each high school. NNPD officers and staff were able to share about their roles within the department and answered some very insightful, intelligent questions from the city's... See more

Our **VISION** is to take a leading role in making Newport News a place where people want to live, work and play.

Our **MISSION** is to work in partnership with the citizens and government to provide excellence in police services.

VALUES

Integrity	We serve with integrity, by determining what is right and acting on that determination, even at personal cost, whether in public or private.
Citizen Participation	We solicit and accept input from citizens when developing police activities and programs.
Accountability	We are an organization of empowered employees, all of whom are responsible for what they say and do.
Communication	We foster an exchange of thoughts, ideals and information in an open, receptive and positive manner, throughout the organization.
Courtesy	We perform our duties in a polite and respectful manner.
Teamwork	We support a team environment that encourages individual contributions and recognizes group accomplishments.
Innovation	We encourage employees to seek new methods of improving police services.
Our Heritage	We value and honor all who serve with us. We cherish the memories of those who have served before us, especially those who have given the ultimate sacrifice.

November 16, 2023 ·

We want to send a heartfelt "Thank You" and congratulations to the 14 people who graduated from our Citizen Police Academy for Seniors #28! Over the course of eight weeks, this group had an immersive course in the operations of NNPD, learning about everything from traffic stops to criminal investigations, the K9 unit, fire safety, scams, and much more.

We enjoyed working with you! And many thanks to The Chesapeake Retirement Community for hosting the academy.

Our **VISION** is to take a leading role in making Newport News a place where people want to live, work and play.

Our **MISSION** is to work in partnership with the citizens and government to provide excellence in police services.

TRAFFIC SAFETY UNIT

Newport News Police Department
Published by Chandler White · November 16, 2023 ·

🚨 STARTING TONIGHT: DUI Patrols through this weekend.

🚔 If you've been drinking, call a sober friend, ride share, or taxi to get you home safely.

#DriveSober or get pulled over.

On Cinco de Mayo weekend in 2022, there were 67 alcohol-related crashes in Virginia, which included 27 injuries and one fatality. Before the party begins this Cinco de Mayo, make sure to designate a sober driver.

Drive Safe Hampton Roads is again sponsoring the 757 Sober Ride for this Cinco de Mayo. Log onto https://www.drivesafehr.org/757-sober-ride/ beginning Friday at 3 p.m. to get a promotional code good for up to $15 off one Lyft ride in the Hampton Roads area.

You must be 21 or older to use this service. Subject to Lyft's Terms of Service. Valid for new and existing Lyft users while supplies last. You cannot reserve a 757 Sober Ride or schedule a pickup in advance.

Or better yet... Just don't drink. There's absolutely no benefit in it.

DON'T TEXT AND WALK | In the past few weeks, NNPD has seen three auto-pedestrian accidents--two of those were fatal. When these incidents occur, it's important to make pedestrians aware of the importance of safety. Pedestrians: be predictable. Walk on sidewalks, use crosswalks, walk facing traffic, AND AVOID texting and walking. AND DRIVERS, always look out for and yield to pedestrians at intersections and in crosswalks.

PRE-TRIAL

Hampton-Newport News Criminal Justice Agency

Pretrial Services & Community Corrections

DATE: **September 11, 2024**

TO: **DCJS Certified Crime Prevention Community**

FROM: **Hampton-Newport News Criminal Justice Agency**

SUBJECT: Recertification Proof

The Hampton-Newport News Criminal Justice Agency (H-NNCJA) uses the Department of Criminal Justice Services' (DCJS) Pretrial and Community Corrections Case Management System (PTCC) to track cases, investigations, placements, referrals, violations, etc. Statistics are downloaded monthly and reports are provided to DCJS quarterly and yearly.

These reports are then uploaded into the DCJS Online Grant Management System (OGMS). The information provided on the DCJS Certified Crime Prevention Community recertification regarding our program comes straight from these reports.

Please let me know if there is anything else you need to provide clarification.

Thank you.

Joyce Skinner
Operations Supervisor, H-NNCJA
