Re: Byrne Justice Assistance Grant (BJAG) – Equipment and Training Grant Funding

Name of Person Presenting: Carolyn Dellorso, Criminal Justice Grants Specialist

The purpose of this Byrne Justice Assistance Grant (BJAG) Equipment and Training funding opportunity is to support local criminal justice agencies in enhancing public safety through the acquisition of critical equipment, technology, and training resources aligned with federal and state public safety priorities.

Grant Application Review	
# Grants Submitted	116
# Grants Denied	82
# Grants Recommended	34

DCJS Recommendations	
Amount Requested	\$4,124,357
Amount Denied	\$2,313,331
Amount Reduced	\$825,550
Total Amount Recommended	\$985,476

82 applications were denied for one or more of the following reasons:

- Applications did not meet eligibility requirements or program priorities
- Incomplete applications (e.g., missing implementation plans, goals, or required documentation)
- Requests lacked sufficient justification or demonstrated need
- Limited funding availability prevented full consideration of all qualified applications

General reasons for application reductions include removal of unallowable items and budget adjustments to ensure correct match; one entry had a mistype of \$833,300 instead of \$8,333 resulting in a distorted match total and overinflated budget.

BJAG funds will support the purchase of safety gear, investigative equipment, essential operational supplies, and evidence-based training.

In summary, DCJS staff request approval to fund 34 grant applications for the 4-month period, (06/01/2026 – 09/30/2026), totaling \$985,476, using \$739,109 in federal funds allocated for this purpose and \$246,367 in subrecipient provided match.

BJAG -- Grants Committee Recommendations (Cover Report)

Byrne Justice Assistance Grant - Equipment and Training

BJAG -- Grants Committee Recommendations (Summary Report)

Byrne Justice Assistance Grant - Equipment and Training

23-Apr-2026

Application Number	Applicant	Organization Type	Type of Application	Requested Funding	Recommended Funding	Application Criteria	Grant Project Description
568785	Abingdon, Town	Town Government	New	\$33,333.00	\$0.00	Does not meet criteria	The Abingdon Police Department seeks funding to strengthen operational readiness, enhance officer safety, and improve critical response capabilities. Funding will support the purchase of TASERS and secure handgun safes to improve officer safety and equipment security. Additionally, a tactical command case will serve as a mobile command center, enhancing real time situational awareness during emergency operations. These tools will directly strengthen the department's ability to serve and protect the community while preventing and controlling crime.
569197	Allegheny, County	County Government	New	\$24,555.00	\$0.00	Does not meet criteria	The Allegheny County Sheriff's Office requests funding to enhance investigative and operational effectiveness through the acquisition of specialized Rapid DNA consumables and tactical training equipment. Rapid DNA technology enables law enforcement to analyze biological evidence in-house, generating investigative leads in hours rather than days or weeks. Funding will also provide training equipment to ensure deputies can safely conduct tactical exercises, improving preparedness and operational safety. These investments directly support the agency's mission to protect the community, solve crimes efficiently, and maintain high professional standards.
568825	Amherst, Town	Town Government	New	\$33,333.00	\$0.00	Does not meet criteria	Ballistic Vests & Fitness Equipment - Equipment Grant Request. The Town of Amherst Police Officers serve this community with dedication under conditions that demand both physical preparedness and reliable protective equipment. This grant request addresses two foundational needs: ballistic vests to protect officers from life-threatening harm, and fitness equipment to ensure officers maintain the physical and mental readiness the job requires. Together, these investments represent a comprehensive commitment to officer safety, longevity, and effectiveness.
568128	Appomattox, County	County Government	New	\$33,333.00	\$0.00	Does not meet criteria	The project would be utilized to purchase MDT mounts, trays and power supplies to install in newly purchased vehicles, as well as vehicles we already have that do not currently have mounts in them or broken outdated mounts, trays, and/or power supplies. It would also be utilized to purchase new computers, and computer hardware for interview recording purposes, monitoring security cameras in our courts, and report writing.
568944	Arlington Co. Police Department	County Government	New	\$31,250.00	\$0.00	Does not meet criteria	The Arlington County Police Department (ACPD) is applying to request consideration of funding for operational supply needs in support of its continued efforts to improve and enhance the delivery of daily law enforcement services to the community, and promote the safety of our officers and the public we serve. The language translation and incident command items proposed for funding will help officers more effectively conduct their duties in a safer and more efficient manner, as they work to reduce crime and improve the quality of life for all our residents and visitors. If awarded, grant funding for these requests will help provide the critical difference that allows these important improvements by supplementing our limited local budget.
568879	Ashland, Town	Town Government	New	\$28,596.00	\$0.00	Does not meet criteria	The agency will purchase two E-Bikes. The reasoning behind this request is because bike patrols have been shown to deter crime, help with community engagement, and to provide significant support to special events where vehicles may not travel or logistically are not feasible. We have found traditional mountain bikes have been instrumental for the Ashland Police Department and this will improve upon our current program. We will also purchase one P-25 complaint in car radio for a vehicle that currently does not have one. Finally, we would use funds to purchase 30 new ballistic helmets for all sworn personnel.

568936	Augusta, County	County Government	New	\$29,323.00	\$0.00	Does not meet criteria	The Augusta County Sheriff's Office seeks funding through the Virginia DCIS FY26 Byrne Justice Assistance Grant Program to enhance its digital investigative capabilities. This project will enable the acquisition and implementation of Magnet Forensics AXIOM, including the Gray Key forensic tool and Magnet Forensics AXIOM Advanced software, to complement our Cellebrite forensic system. Currently, our digital investigation capacity is primarily focused on mobile devices through Cellebrite. By integrating Magnet AXIOM, we will significantly expand our ability to extract and analyze data from all types of digital devices, including laptops, PC towers, smartwatches, and in-vehicle computer systems, and enable enhanced cell phone forensics.
568728	Blacksburg Police Department	Town Government	New	\$33,333.00	\$0.00	Does not meet criteria	The Blacksburg Police Department is seeking funding to equip its K9 handlers with night vision technology to enhance the safety and effectiveness of nighttime tracking operations. Police K9 teams are frequently deployed during high-risk incidents, including suspect searches, missing person cases, and critical law enforcement operations that often occur in low-light or nighttime conditions. Without adequate nighttime visibility, handlers face increased safety risks and reduced operational effectiveness while navigating difficult terrain and attempting to maintain visual contact with their K9 partners.
567974	Blackstone, Town	Town Government	New	\$33,307.00	\$0.00	Does not meet criteria	Funds, if awarded will be used to reinitiate the departments K9 Program after legislative changes required the retirement of the agency's previous canine officer. A replacement trained canine was unable to pass required benchmarks and the program ceased totally in 2021/22. A demonstrable need for a narcotics detection canine and tracking canine has been made clear based on the significant increase in drug related offenses that often coincide with the presence of firearms, violent crime and theft. Tracking unfortunately is often necessary in arrest events as well. While some neighboring agencies have canines, wait times in critical incidents are not acceptable to safety and effective enforcement.
568632	Bland, County	County Government	New	\$28,456.00	\$0.00	Does not meet criteria	Applicant seeks funding to purchase Eight Mobile Data Terminals (MDTs). These MDTs have become an essential tool in modern law enforcement enabling officers access to critical information, streamline operations, help combat violent crime, and enhance public safety. Equipping the police cars with MDTs allow officers to perform tasks without returning to the station, and draws benefits such as real-time data, access, operation efficiency, and improve officer's safety. We currently only have five MDT's with a department of fifteen sworn deputies. The remaining ten officers are having to rely on real time information being shared via radio and physically coming into the department for a shared workspace that houses two desktop computers.
568658	Bluefield, Town	Town Government	New	\$32,985.00	\$0.00	Does not meet criteria	The Bluefield, Virginia Police Department seeks grant funding to replace outdated in-vehicle citation printers and implement handheld scanning devices to support electronic citation operations. Current equipment is aging and officers must manually enter driver and vehicle information during traffic stops, increasing the potential for errors and extending roadside exposure time. Updated printers and handheld scanners will allow officers to quickly capture driver's license and registration information and efficiently issue electronic citations. These upgrades will improve operational efficiency, increase data accuracy, and enhance officer safety by reducing the time officers spend roadside during traffic enforcement activities.
568420	Boones Mill, Town	Town Government	New	\$33,334.00	\$0.00	Does not meet criteria	These funds will cover a new security system for the Boones Mill Police Department.
568941	Botetourt, County	County Government	New	\$27,554.00	\$27,554.00	Meets criteria with conditions	During high-risk incidents, officer safety, operational effectiveness, and community well-being are key. In these times, the Emergency Response Team is responsible for keeping the lines of communication open with subjects in a rapidly changing environment. Sometimes these incidents require the use of chemical agents which can limit visibility and communication in a quickly evolving situation. If clear instructions are not given, this can create chaos in an already dangerous environment. If awarded, the Botetourt County Sheriff's office would purchase C50 First Responder CBRN gas mask kits equipped with Voice Projection Units for the 20 members of the Emergency Response Team. These masks would replace our current ageing equipment.
567788	Bridgewater, Town	Town Government	New	\$27,920.00	\$27,920.00	Meets criteria with conditions	Our Police Department is in need of a secured impound lot area, a storage building for evidence and general storage for police department items. This project would provide a building that would be a secure area for evidence and storage for other items. This would be a prefabricated storage building.

569138	Broadway, Town	Town Government	New	\$32,542.00	\$0.00	Does not meet criteria	This project seeks grant funding to enhance officer safety and emergency response by equipping patrol vehicles with lifesaving medical and investigative equipment. The department will purchase officer trauma medical packs for each patrol vehicle, seven automated external defibrillators, updated evidence collection tools. The proposed AED device, the ZOLL AED 3, will allow officers to respond quickly to sudden cardiac arrest and other medical emergencies. Officers are often first on scene to accidents, overdoses, and violent incidents, making immediate medical care critical. Trauma kits and AEDs will help stabilize victims until EMS arrives, while improved evidence equipment will strengthen investigations, processing and evidence storage.
569249	Buckingham, County	County Government	New	\$33,333.00	\$33,333.00	Meets criteria with conditions	This grant is being sought in order to upgrade outdated and discontinued equipment, to acquire new equipment based on emerging criminal trends, and to acquire gear accessories outside of our budget constraints. The cameras currently in use by the investigations division date back to '09 and '18. Both units have been discontinued by Nikon. Additionally, we are in need of a system that will capture an entire crime scene. A forensic RF Shielding examination box for cellphone/tablet examinations is also being sought to safely review cellphones/tablets without exposure to the cellular network thus preventing a remote delete situation. Lastly, we have new ballistic vests for tactical operations but did not have the budget to include gear pouches.
568865	Buena Vista, City	City Government	New	\$33,333.00	\$33,333.00	Meets criteria	This project enhances the BVPD's operational capacity, officer safety, and community engagement through targeted investments in equipment, technology, and evidence based training. Funding will support protective and communications equipment for regional special response team participation, lifesaving and public safety equipment for patrol and special events, and technology upgrades that strengthen training delivery and preparedness. Additionally, officers will receive specialized investigative training to improve interview quality and case outcomes. Collectively, these initiatives increase efficiency, improve safety for officers and the public, and strengthen the department's ability to deliver effective law enforcement services.
569143	Charlotte, County	County Government	New	\$25,131.00	\$0.00	Does not meet criteria	The Charlotte County Sheriff's Office will be using funds from this grant to purchase equipment to prevent and control crimes in the county. Due to the economic shortfall, we will be using this grant to purchase equipment to improve the delivery of law enforcement services to the community, to fight crime and to ensure the safety of the community and its citizens. The grant will be a big asset to making the community and highways safer for our citizens.
569205	Chase City, Town	Town Government	New	\$32,747.00	\$0.00	Does not meet criteria	This grant will provide higher protection to officers with ballistic helmets and higher ballistic vest. This will allow the department to also have equipment to form a special response team for better tactics in high risk situations.
568977	Chesapeake, City	City Government	New	\$12,606.00	\$0.00	Does not meet criteria	The Chesapeake Police Department seeks funding to provide specialized mobile device forensic training for detectives in the use of Graykey and Cellebrite technologies. Smartphones are widely used to facilitate narcotics trafficking, gang activity, and other serious criminal offenses making advanced digital forensic capabilities essential to modern investigations. This training will enhance detectives' ability to lawfully extract, analyze, and interpret digital evidence from mobile devices, improving investigative accuracy and efficiency. Strengthening in-house forensic capabilities will support narcotics and gang investigations, disrupt criminal networks, and improve criminal justice services and public safety.
568201	Chesterfield, County	County Government	New	\$33,350.00	\$0.00	Does not meet criteria	The CCPD requests funding to enhance officer safety, operational readiness, and evidentiary capabilities through the purchase of body-worn camera magnetic charging cords and officer safety crampons (ice traction devices). These items will improve the reliability of digital evidence systems and reduce slip-and-fall risks during winter and hazardous weather operations. These requests support JAG priorities by strengthening law enforcement effectiveness, improving officer safety, and enhancing accountability and transparency.

569254	Chincoteague, Town	Town Government	New	\$8,431.00	\$8,431.00	Meets criteria with conditions	The Chincoteague Police Department seeks funding to modernize its records management practices by converting existing paper records into secure digital files. The department will utilize a qualified third-party records conversion company to digitize legacy case files and administrative records. Grant funds will also support the purchase of a dedicated document scanner to allow staff to digitize new records as they are created. This project will improve records accessibility, increase administrative efficiency, enhance document preservation, and strengthen the department's ability to quickly retrieve records for investigations, court proceedings, and public information requests.
569110	Clarke County	County Government	New	\$21,327.00	\$21,327.00	Meets criteria with conditions	Grant funds will be used to replace and upgrade mobile radios within our patrol vehicles. Several of the mobile radios currently in use are over 20 years old and reached their end of life in 2020. This presents a safety issue for our personnel. Clarke County has just completed a large scale communications upgrade to include the upgrade and replacement of our portable radios, enhancements to our 911 Center, and radio coverage. Replacing these aging radios will allow greater operability within our enhanced system.
569137	Clintwood, Town	Town Government	New	\$33,333.00	\$0.00	Does not meet criteria	Grant Funds will be used to purchase equipment for our officers. The equipment is six (6) body cameras and five (5) in-car cameras. The grant funds will also be used for equipment installation, equipment set up, training, and cloud storage.
569258	Coeburn, Town	Town Government	New	\$24,308.00	\$23,725.00	Meets criteria at a reduced level	The Coeburn Police Department seeks funding to modernize infrastructure and policy through four strategic pillars: Policy & Compliance: Transitioning to Lexipol to replace a manual outdated since 2012, ensuring legally vetted best practice standards and accreditation readiness. Emergency Resilience: Installing a backup generator to maintain 24/7 command center operations and safeguard sensitive evidence during power failures. Evidence Integrity: Implementing lockable gun racks to provide high-density security for evidentiary firearms, ensuring effective chain-of-custody. Community Engagement: Procuring a branded outreach tent and banner to increase visibility and trust during local events.
569129	Colonial Beach, Town	Town Government	New	\$33,333.00	\$0.00	Does not meet criteria	This initiative will involve the acquisition of new Mobile Data Terminals which will replace outdated and unsupported current units.
567813	Colonial Heights, City	City Government	New	\$26,958.00	\$0.00	Does not meet criteria	The Colonial Heights Police Department seeks 2026 Byrne JAG funding to enhance officer safety, operational awareness, and investigative efficiency. Funds will purchase sixteen (16) sets of Shellback Tactical body armor for a newly formed Special Response Unit, as standard soft armor is not adequate for high-risk operations. The department also requests four (4) Microsoft Surface Pro tablets for field-based investigations and two televisions (65 and 50) to display live CAD in the squad room and records division. This project strengthens safety, readiness, and coordination. Funds will also purchase seven (7) TAC-SA PRO PLUS upgrade kits for pepper ball launchers.
569086	Culpeper, County	County Government	New	\$33,333.00	\$33,333.00	Meets criteria	Despite the breadth and complexity of cases handled by the Culpeper County Sheriff's Office- Criminal Investigations Division, the division currently operates with significant deficiencies in forensic evidence collection equipment, investigative technology, evidence photography, and mobile field capabilities. Detectives frequently respond to crime scenes with limited or outdated evidence collection supplies, lacking standardized kits for DNA collection, fingerprint processing, biological evidence preservation, and crime scene documentation. If awarded, this grant will provide funding for the purchase of forensic equipment that enhances the delivery of daily services to the community and promotes the safety of both officers and the public.
567853	Dayton, Town	Town Government	New	\$858,300.00	\$33,333.00	Meets criteria at a reduced level	The Dayton Police is seeking grant funding to replace Body-Worn Camera (BWC) to enhance BWC Program designed to improve transparency, accountability, officer safety, and community trust. This initiative aligns with national best practices and state guidelines promoting professional law enforcement standards and evidence-based policing. The project will increase transparency and public confidence in law enforcement operations, improve the quality and reliability of evidence collection, strengthen officer accountability and professionalism, reduce complaints and use-of-force disputes, enhance officer safety through documented interactions.

569242	Dickenson, County	County Government	New	\$32,990.00	\$32,990.00	Meets criteria	The Dickenson County Sheriff's Office is requesting funding to modernize investigative and evidence documentation technology used by investigators and patrol deputies. The project will replace outdated DSLR investigative cameras with modern mirrorless systems, provide standardized evidence documentation cameras for patrol deputies, equip a newly added investigator with the same mobile technology used by other investigators, and implement barcode scanning to improve evidence inventory and tracking within the department's records management system. These upgrades will strengthen crime scene documentation, evidence management, investigative efficiency, and support the agency's pursuit of professional accreditation.
568885	Dinwiddie, County	County Government	New	\$28,664.00	\$0.00	Does not meet criteria	The Dinwiddie County Sheriff's Office seeks Byrne JAG funding to enhance public safety through the purchase of two covert pole cameras and a Power/DMS PowerPolicy/Professional subscription. The cameras will be deployed in high-crime areas historically impacted by drive-by shootings, drug distribution, and homicides, assisting investigators by documenting incidents and identifying suspects and vehicles. The PowerPolicy Professional software will integrate with the Office's existing accreditation system, strengthening policy management, accountability, and compliance while supporting effective law enforcement operations.
569154	Dublin, Town	Town Government	New	\$33,333.00	\$0.00	Does not meet criteria	The Town of Dublin is in the need of purchasing a new records management software to be able to continue to remain compatible and receive services from our Joint Communications Center (Pulaski County 911). The 911 Center recently applied for a grant and acquired another software vendor. Once the new software is implemented at the center, our department will no longer have access to our call reporting and dispatching services.
568976	Dumfries, Town	Town Government	New	\$33,333.00	\$33,333.00	Meets criteria with conditions	The Town of Dumfries Police Department proposes to enhance public safety and investigative capabilities through the strategic deployment of license plate reader (LPR) cameras and live pan-tilt-zoom (PTZ) surveillance cameras at key locations throughout the Town. These technologies will provide real-time situational awareness, assist in criminal investigations, deter criminal activity, and improve response capabilities for major incidents. The proposed project focuses on high-traffic entry points and community gathering locations, including parks, Town Hall, and the waterfront area.
569191	Emporia, City	City Government	New	\$33,333.00	\$0.00	Does not meet criteria	The Emporia Police Department is requesting Byrne Justice Assistance Grant funding to enhance officer safety and lifesaving emergency response capabilities. As a small law enforcement agency serving a community located along the Interstate 95 corridor, officers frequently respond to violent incidents, serious motor vehicle crashes, and medical emergencies where immediate intervention is critical. Funding will support the purchase of patrol trauma kits, ballistic plate carriers, automated external defibrillators (AEDs), and emergency medical training. These resources will allow officers to provide immediate lifesaving care during critical incidents while improving officer safety and strengthening operational capacity within the EPD.
567903	Essex, County	County Government	New	\$33,333.00	\$0.00	Does not meet criteria	The Essex County Sheriff's Office is requesting funding to purchase 30 survival body armor vests to replace expired armor currently issued to deputies and staff. Many existing vests have exceeded their service life, and daily wear has reduced their protective capability. Replacing them with new armor will ensure maximum ballistic protection during patrol, investigations, inmate transport, and high-risk responses. This project enhances officer safety, reduces liability, and supports operational readiness, morale, and retention while strengthening overall public safety.

568553	Exmore, Town	Town Government	New	\$33,333.00	\$33,333.00	Meets criteria with conditions	The Town of Exmore operates a 24/7 police department with seven full-time officers who respond to about 1,200 calls annually, including property crimes, assaults, and domestic incidents. Due to the town's rural coastal location, hurricanes and nor'easters can cause extended power outages. A backup generator is needed to ensure continuous operation of communications, computer servers, and patrol technology. Reliable power will allow the department to maintain emergency response and provide essential public safety services during disasters and prolonged outages.
569226	Falls Church, City	City Government	New	\$33,228.00	\$0.00	Does not meet criteria	The Falls Church Police Department seeks to replace our obsolete gas masks with a modern Respiratory Protection Program. This initiative equips our officers with advanced tactical respirators that protect against chemical, biological, and environmental hazards. Funding this upgrade prevents equipment failure, ensures clear radio communication, and provides professional-grade life support for effective, safe response to high-consequence emergencies.
568349	Fauquier, County	County Government	New	\$17,506.00	\$0.00	Does not meet criteria	The purpose of this request is to secure funding for the purchase of specialized equipment that will enhance the operational capabilities of the Criminal Investigation Division (CID) in the areas of evidence gathering, storage, and organization. Additionally, this request includes funding for an upgraded camera system for the Public Information Officer (PIO) to improve the quality and effectiveness of public notifications and community awareness efforts.
568511	Floyd, County	County Government	New	\$9,008.00	\$9,008.00	Meets criteria with conditions	This project will equip deputies with modern communications and firearm accessories, including the N-ear 360 Flexo Radio Earpiece, Aimpoint Dury RDS MR Red Dot Sight, and Streamlight PROTAC 2.0 Rail Mount HP Long Gun Light. The N-ear earpiece provides discreet radio communication while maintaining 360° situational awareness. The Aimpoint Dury RDS optic enables rapid target acquisition with a precise red-dot aiming system for law enforcement. The Streamlight weapon light provides high-output illumination for low-light operations. Together, these tools enhance officer safety, situational awareness, and operational effectiveness, directly supporting JAG grant priorities for improving law enforcement equipment and public safety capabilities.
567831	Franklin, County	County Government	New	\$28,463.00	\$0.00	Does not meet criteria	The agency requests Byrne JAG funding to enhance Hostage Negotiation Team (HNT) capabilities to preserve life during barricaded, hostage, suicidal, and domestic violence-related critical incidents. Funds will support acquisition of specialized crisis response equipment designed to safely establish communication with subjects in secure locations, reducing officer exposure and the likelihood of forced tactical entry. This project strengthens de-escalation efforts, increases voluntary compliance, and improves overall public safety outcomes while aligning with JAG priorities of law enforcement effectiveness and officer safety.
568377	Galax, City	City Government	New	\$22,032.00	\$0.00	Does not meet criteria	Funds will be used to purchase two new speed signs and to upgrade our existing speed sign.
568545	Giles, County	County Government	New	\$32,652.00	\$0.00	Does not meet criteria	The current body armor replacement window has arrived. Should this funding request in the amount of \$32,651.00 be awarded, the Giles County Sheriff's Office will be able to purchase 29 PB Body Armor, AXBIIA Ballistics with one Hi Lite Conceal Carrier. Each unit is quoted at \$1,125.90/unit.
567854	Gordonsville, Town	Town Government	New	\$17,571.00	\$0.00	Does not meet criteria	The Town of Gordonsville Police Department will implement a regionally compatible Computer-Aided Dispatch (CAD) system fully integrated with its existing RMS platform. Currently operating without CAD, the agency relies on manual processes that limit real-time coordination and data-driven decision-making. This project enhances interoperability with the regional 911 center and neighboring agencies, improves officer safety through real-time call and unit tracking, and establishes response-time analytics. The community will benefit from faster response, improved accountability, and more efficient delivery of public safety services.

568100	Grayson, County	County Government	New	\$33,333.00	\$33,333.00	Meets criteria with conditions	The Grayson County Sheriff's Office seeks Byrne JAG funding to purchase critical law enforcement equipment to enhance officer safety and operational readiness. Specifically, funds will support the acquisition of breaching kits, an air compressor, and a battery charger to strengthen tactical response capability and maintain essential equipment functionality. These items address operational gaps that cannot be met through limited local funding. This project directly supports violent crime reduction, officer safety, and community confidence by strengthening frontline operational capacity and ensuring deputies have reliable, up-to-date tools to perform their duties effectively.
569119	Halifax, County	County Government	New	\$31,426.00	\$0.00	Does not meet criteria	The Halifax County Sheriff's Office will utilize the requested equipment to enhance general and narcotic investigations. The agency will utilize spike strips to be provided to patrol deputies. Update computers, monitors, and software. Obtain Power Vetted to enhance background investigations. Mounted flashlights, Safari Land Hoisters, Drug & Paraphernalia Kits and Realistic Training Aids to enhance in house training for all officers, external hard drive for evidence storage. K-9 tracking equipment.
569148	Halifax, Town	Town Government	New	\$21,000.00	\$0.00	Does not meet criteria	The Halifax Police Department is requesting funds for the purchase of five ruggedized tablets with keyboards to address the need for improved efficiency and productivity. These computers are needed to replace outdated computers that are currently being used. The current computers used by the officers are not capable of being updated and doesn't allow for installation of new software.
568480	Hampton, City	City Government	New	\$33,330.00	\$0.00	Does not meet criteria	The City of Hampton is a waterfront community with approximately 136,000 residents. Hampton Police Division (HPD) safeguards this community with proactive and responsive services to protect residents while partnering with the community to reduce crime. Previously CALEA accredited, HPD is in the self-assessment phase to transition to VLEPSC accreditation. HPD's budget is regularly impacted by tax-exempt facilities operating throughout the city (NASA, Langley, Hampton University) and was further impacted through absorbing park ranger outfitting and training. To offset division needs, this grant application seeks funding for 10 laptop computers, 10 Microsoft Office licenses, and 10 smart docks for detectives in the Major Crimes Unit.
568082	Harrisonburg, City	City Government	New	\$24,371.00	\$0.00	Does not meet criteria	Funds would be used to purchase and deploy one portable electronic message board system (trailer-mounted) to strengthen real-time public safety communication during crashes, roadway hazards, and special events. The unit will be stored at HPD for rapid deployment and provides highly visible, changeable messaging (closures, speeds, detours, hazard warnings). The ATIS 190 LPR camera-ready trailer platform supports one-person setup, solar-assisted power, and compatibility with variable/radar message signage, improving traffic flow, reducing secondary crashes, and enhancing responder safety.
568072	Henry, County	County Government	New	\$24,166.00	\$24,166.00	Meets criteria with conditions	The Henry County Sheriff's Office will use FY26 JAG Byrne grant funds to purchase and deploy updated, crime-scene quality digital cameras for all Criminal Investigations Division personnel. These cameras will enhance photo documentation of crime scenes, injuries, and evidence; improve image clarity for case files, court presentation, and digital evidence sharing; and reduce delays caused by outdated or insufficient equipment.
568396	Highland, County	County Government	New	\$28,347.00	\$0.00	Does not meet criteria	To purchase supplies and materials to assist the officers, update outdated equipment and investigator training.
568311	Hillsville, Town	Town Government	New	\$33,333.00	\$0.00	Does not meet criteria	The Virginia Department of Criminal Justice Services (DCJS) makes federal funds available through the Edward Byrne Memorial Justice Assistance Grant (JAG) program for Law Enforcement Agencies to conduct technology upgrades that will enhance their daily delivery of services to the community. The Hillsville Police Department will use funding awarded through the Edward Byrne Justice Assistance (JAG) Grant to upgrade their computer systems and other related technology to provide high quality, more efficient services to the citizens of and the visitors to the Town of Hillsville, Virginia.
568439	Hopewell, City	City Government	New	\$31,132.00	\$0.00	Does not meet criteria	Hopewell Police Department will use these grant funds to purchase communications equipment. Installed and made operational in 2016, our Motorola P25 radio system hardware is near end of life/end of support. With award of these grant funds, our department will purchase portable radios compatible with our Motorola P25 radio system.

568596	Hurt, Town	Town Government	New	\$24,342.00	\$0.00	Does not meet criteria	This grant would be used to purchase equipment for our new Taser virtual reality training program. This grant would also include the purchase of new duty tasers to replace our currently outdated ones that are past their life expectancy.
568979	Lebanon	Other	New	\$29,055.00	\$0.00	Does not meet criteria	Lebanon Police Department is applying for funds for body-worn camera equipment, data storage & management systems, technical support & maintenance. The current body cameras are approximately 9 years old which are outdated, freeze up, poor quality and do not hold charge for an entire shift. Clarity and dependability are concerns. Issues with the camera freezing up or not holding charge, often leaves Officers without a body camera the entire shift. The camera data storage is outdated & takes an entire shift to upload to its own server (not cloud based). Utilizing the new equipment will protect Officers and citizens during high risk situations, provide unbiased recordings reducing complaints, and strengthen criminal prosecutions.
568275	Leesburg, Town	Town Government	New	\$33,333.00	\$0.00	Does not meet criteria	The Town of Leesburg Police Department will utilize these funds to add mobile radio equipment used in patrol vehicles. These radios provide critical communication between officers and dispatch during routine patrol and emergency incidents. The remaining funds will be used to purchase workstation equipment to improve report writing and operational coordination within the department. These upgrades will improve officer communication, operational efficiency, and public safety services provided to the Leesburg community.
569196	Longwood University	State University	New	\$22,436.00	\$0.00	Ineligible	The Longwood University Police Department (LUPD) submits this application to the Edward Byrne Memorial Justice Assistance Grant (JAG) program to address critical operational gaps in training capacity, personnel development, safety technology, and reference resources. This project encompasses four strategically aligned investment areas: (1) ALERTUS panic alert devices for high-risk, high-vulnerability campus locations. (2) National and regional conference attendance for sworn officers and professional staff. (3) Interactive, scenario-based ethics education for all personnel. (4) Operational and resource guides to standardize field operations.
568426	Loudoun, County	County Government	New	\$33,333.00	\$0.00	Does not meet criteria	Grant funding for safety equipment for the Loudoun County Sheriff's Office Civil Disturbance Unit represents a proactive investment in both officer and community safety. By equipping CDU personnel with the tools necessary to safely and effectively manage public order situations, this project will enhance operational readiness, reduce risk, and support the Sheriff's Office's ongoing commitment to professionalism, accountability, and public service.
568216	Lunenburg, County	County Government	New	\$33,333.00	\$0.00	Does not meet criteria	Lunenburg County Sheriff's Office seeks FY26 Byrne/JAG funding to support officer overtime for targeted enforcement and proactive patrol operations. The Sheriff's Office currently has no dedicated overtime budget, limiting our ability to respond to emerging public safety needs, conduct directed patrols, and complete follow-up activities tied to violent crime reduction and community safety. Grant-funded overtime will expand operational capacity during peak demand periods and improve timely, visible law enforcement coverage across Lunenburg County.
568586	Madison, County	County Government	New	\$21,360.00	\$0.00	Does not meet criteria	Live Scan fingerprinting is necessary for law enforcement because it provides a fast, accurate, and secure way to verify a person's identity and conduct criminal history background checks. Fingerprints are scanned electronically and transmitted directly to databases maintained by the Federal Bureau of Investigation and state justice agencies, allowing authorities to quickly determine if an individual has prior arrests, convictions, or warrants. This technology reduces errors associated with traditional ink fingerprinting, speeds up background check results, and helps ensure that individuals placed in positions of trust or involved in investigations are properly identified, supporting both public safety and investigative efficiency.
569157	Manassas, City	City Government	New	\$24,848.00	\$0.00	Does not meet criteria	The City of Manassas Police Department seeks funding to enhance officer safety and response capabilities through the acquisition of critical protective equipment. Grant funds will support the purchase of two rifle-rated ballistic shields and fourteen Avon CSO CSO First Responder CBRN protective mask kits. These resources will improve officers' ability to safely respond to violent incidents, barricaded subjects, and situations involving hazardous or chemical agents. By equipping personnel with modern protective equipment, the department will strengthen operational readiness, reduce risk to officers and the public, and improve the City's ability to respond effectively to critical incidents.

568042	Marion, Town	Town Government	New	\$21,400.00	\$0.00	Does not meet criteria	Due to ongoing budget constraints and the escalating costs of fully outfitted patrol vehicles, our agency has historically struggled to place new vehicles into active service. Although we were able to secure funding to purchase a patrol vehicle during this fiscal year, we currently lack sufficient resources to equip it with the essential interior/exterior components required for safe and effective patrol deployment. With these funds we plan on doing so.
568585	Mecklenburg, County	County Government	New	\$32,867.00	\$32,867.00	Meets criteria	The Mecklenburg County Sheriff's Office will provide a 25% locality match and cover any overages. Serving an area bordered by John H. Kerr Reservoir and Lake Gaston with ~600 miles of shoreline, the Dive Team conducts critical search, rescue, and recovery operations in challenging open-water and low-visibility conditions. Grant funding will support vital dive equipment-OTS Guardian Full Face Mask, EMO-HU-1PT-2EP4-ME150, and Powercom 30000 ACH 25W Diver Unit, enhancing safety, communication, visibility, response times, and interagency coordination, ensuring reliable service to residents.
569240	Middleburg, Town	Town Government	New	\$18,377.00	\$0.00	Does not meet criteria	The Middleburg Police Department is seeking funding to enhance officer safety, operational readiness, and response capabilities. This project will support the purchase of ballistic shields and breaching equipment to improve the department's ability to respond effectively to active shooter and high-risk incidents. Funding will also support technology improvements by providing additional docking stations and batteries for the department's Mobile Data Terminals (MDTs), ensuring officers can efficiently utilize the recently upgraded system both in patrol vehicles and within the police facility. In addition, the department seeks to replace outdated hearing protection with modern range safety equipment to ensure officers are protected.
569133	Montgomery, County	County Government	New	\$25,750.00	\$0.00	Does not meet criteria	The Montgomery County Sheriff's Office provides full-service law enforcement services to over 100,000 citizens, encompassing two towns and Virginia Tech, along with the more rural areas of the county. Montgomery County has twenty public schools with approximately 9,700 students. This project seeks funding to acquire specialized breaching equipment that will strengthen the ability of law enforcement to respond quickly and effectively during critical incidents on school campuses. The goal of this project is to improve emergency response capabilities by ensuring law enforcement have the tools necessary to rapidly access secured areas of school facilities when immediate intervention is required to protect students and staff.
568883	Mt Jackson, Town	Town Government	New	\$33,333.00	\$0.00	Does not meet criteria	The Mount Jackson Police Department requests funding to purchase Preliminary Breath Test (PBT) devices, handheld thermal imaging equipment, and investigative equipment to replace aging tools currently in service.
568589	New Kent, County	County Government	New	\$33,333.00	\$33,333.00	Meets criteria with conditions	These funds will support the purchase of earpieces, push-to-talk devices, and compatible radio adapters designed to integrate with our agency's currently issued radios. This equipment will allow deputies to receive sensitive radio transmissions discreetly, reducing the risk of unauthorized individuals overhearing critical information while also improving communication efficiency during operations. Additionally, the funds will be used to purchase an Intel-based forensic workstation to assist investigators with downloading and extracting digital evidence from electronic devices that meet the required legal standards. This capability will significantly improve the speed and efficiency of digital evidence processing within our office.
568407	New Market, Town	Town Government	New	\$7,225.00	\$0.00	Does not meet criteria	The project seeks funding to equip department-owned patrol rifles with sound suppression devices to reduce impulse noise and protect officers from tinnitus and hearing loss. Suppressors also reduce liability exposure by lowering the risk of workers' compensation claims and potential lawsuits from bystanders exposed to rifle blasts when hearing protection is not feasible. Mounted to the barrel, the device reduces impulse noise by controlling escaping gases through internal baffles and helps direct harmful gases and metals away from the officer's face and skin.

568279	Norfolk, City	City Government	New	\$33,333.00	\$0.00	Does not meet criteria	This project will enhance cybersecurity for the local jail by installing two enterprise-grade firewalls with advanced threat detection, intrusion prevention, and network segmentation. These upgrades will reduce the risk of cyberattacks, data breaches, and system downtime while strengthening continuity of jail and public safety operations. The project protects sensitive criminal justice data, including inmate and law enforcement records, directly benefiting jail staff and incarcerated individuals, and indirectly safeguarding residents' personal information and taxpayer-funded city systems.
568432	Norfolk, City	City Government	New	\$33,333.00	\$33,333.00	Meets criteria with conditions	This project will deploy Thomson Reuters CLEAR for Law Enforcement, an advanced investigative technology designed to support violent crime investigations. CLEAR consolidates public, proprietary, and real-time data into a single, secure platform, allowing investigators to rapidly identify suspects, uncover associations, and locate persons involved in shootings, homicides, and aggravated assaults.
568795	Northern Virginia Comm College	State University	New	\$25,185.00	\$0.00	Does not meet criteria	NOVA's 52 police officers support the safety of over 70,000 students and 3,400 staff on six campuses. This public safety project will enhance the Police Department's outreach and training tools by upgrading equipment for two programs: Distracted and Impaired Driving Simulator and R.A.D. Instructor Certification and Training. The simulator provides realistic instructional scenarios that illustrate how various forms of impairment compromise safe driving. R.A.D. is women's self-defense training, which strengthens personal safety skills and promotes greater situational awareness. NOVA will provide training for students, faculty/staff, and community members.
568869	Norton, City	City Government	New	\$32,960.00	\$0.00	Does not meet criteria	The Norton Police Department is requesting FY26 Byrne/JAG funding to replace aging portable radios that are reaching the end of their operational lifecycle and experiencing increasing reliability issues. Several radios are currently inoperable and the department maintains no spare units, which impacts officer safety and operational readiness. Grant funds will be used to purchase twenty-one Kenwood NX-5200 VHF portable radios and two six-bay multi-unit chargers totaling \$32,959.44. These radios provide P25 digital capability, improved audio clarity, enhanced encryption, and longer battery life, ensuring reliable officer communications and interoperability with regional public safety partners.
568962	Nottoway, County	County Government	New	\$32,940.00	\$0.00	Does not meet criteria	Funds will be used to replace Tasers that are 10+ years old and no longer covered for parts & repairs.
568826	Onancock, Town	Town Government	New	\$9,946.00	\$0.00	Does not meet criteria	To update laptops and monitors for police officers. The new laptops and monitors will allow officers to create, update case reports, and research information needed for past and present cases. The laptops and monitors will also allow officers to attend online and other web-based training opportunities. The new laptops and monitors will give the officers the ability to research the Virginia code for better understanding and enforcement. The new laptops would allow the officers the option of teleworking from their patrol vehicles or other locations to complete reports and daily paperwork outside of the office. The new laptops would also give the officers the option of transporting them for in-person training.
569049	Orange, County	County Government	New	\$33,216.00	\$0.00	Does not meet criteria	The Orange County Sheriff's Office seeks funding to acquire nine AGM PVS 14 Gen auto gated night vision monoculars and three helmet mounts to enhance nighttime law enforcement operations. The devices will improve officer safety and operational effectiveness across our 343 square mile jurisdiction by enabling deputies to conduct searches, surveillance and response in low light environments. Grant funds will cover the purchase and shipping of the monoculars and mounts, while the required local match will come from the Sheriff's operating budget. This project supports the Byrne/JAG program's goal of funding equipment and technology that promotes community safety and aligns with the four-month grant period of June-September 2026.
568346	Orange, Town	Town Government	New	\$21,679.00	\$0.00	Does not meet criteria	This project intends to erect pole cameras into areas of walkable business areas, creating a safe situation for our citizens for shopping and street festival activities.

568624	Page, County	County Government	New	\$33,333.00	\$33,333.00	Meets criteria	The Page County Sheriff's Office (PCSO) is applying for \$33,333.00 (\$25,000.00 state/federal funds request) to purchase LE equipment such as tactical, medical, and rescue equipment, flashlights, head protectors, defensive tactic training equipment all with applicable accessories and technology. This funding will enable PCSO to purchase the proper specialized equipment for our patrol, investigation, ERT, and School Resource Officers. Having this specialized equipment on our sworn law enforcement deputies will improve our capability for proper visualization and maneuver through many different types of emergency situations and calls; and improve the quantity and quality of defensive tactics training.
568881	Patrick, County	County Government	New	\$28,144.00	\$28,144.00	Meets criteria with conditions	This project will enhance Patrick County Sheriff's Office fitness facility by purchasing equipment that improves strength training and physical conditioning for sworn personnel. The equipment will expand the functionality of the existing gym system and a new jail system, allowing officers to perform a wider range of exercises that build core strength, endurance, and upper-body stability. These capabilities are essential for duties such as suspect/inmate control, lifting, and responding to emergencies. By supporting regular fitness training, the project will help reduce injuries, improve officer readiness, and ensure personnel remain physically capable of safely and effectively delivering daily law enforcement services to the community.
567786	Pembroke, Town	Town Government	New	\$25,506.00	\$25,506.00	Meets criteria with conditions	The Town of Pembroke Police Department is requesting funding to enhance traffic safety enforcement, improve evidence accountability, and strengthen officer safety through targeted equipment upgrades. Funds will be used to purchase two portable traffic counters to support data-driven traffic enforcement and compliance reporting, secure evidence storage lockers and a cold evidence refrigerator to improve chain-of-custody and case management practices, and trauma kits to enhance officer safety and emergency response capability. These improvements will increase operational efficiency, support accurate data reporting, and strengthen public safety services within the Town of Pembroke.
568654	Pennington Gap, Town	Town Government	New	\$33,333.00	\$0.00	Does not meet criteria	The Pennington Gap Police Department is requesting JAG funding to implement an upgraded Computer Aided Dispatch (CAD) and records management system through Southern Software. Our current system limits real-time information sharing, reporting efficiency, and data analysis capabilities. The new system will enhance officer safety by allowing supervisors to monitor calls and officer activity in real time while improving coordination during incidents. It will also strengthen data-driven policing by improving records management, crime analysis, and reporting accuracy. This project will improve operational efficiency, accountability, and the department's ability to respond effectively to community public safety needs.
568729	Petersburg, City	City Government	New	\$31,914.00	\$0.00	Does not meet criteria	The Petersburg Sheriff's Office seeks FY2026 Byrne JAG funding to enhance field operations and courthouse security within Petersburg, Virginia. Funds will support the purchase of ruggedized in-vehicle computers, including Getac mobile data computers, for patrol vehicles assigned to the Selective Enforcement Division, enabling deputies to access critical information and complete tasks in real time while in the field. The project will also provide upgraded handheld metal detection wands for courthouse screening and G.L.O.V.E. device technology for courthouse deputies. These investments will improve operational efficiency, strengthen courthouse security, and enhance the safety of deputies, court personnel, and the public.
568933	Petersburg, City	City Government	New	\$33,333.00	\$0.00	Does not meet criteria	The Petersburg Bureau of Police is requesting FY26 Byrne/JAG funding to equip its SWAT team with critical tactical armor, accessories, and helmet-mounted communication devices. Currently, this need is not funded through the City's operating budget, and the unit lacks sufficient protective gear and equipment to fully outfit personnel for deployment. As a result, SWAT readiness is limited. Grant funds will provide the necessary equipment to enhance officer safety, improve team coordination, and boost the department's capacity to respond effectively to high-risk incidents.
569104	Piedmont Virginia Community College	State University	New	\$33,333.00	\$0.00	Ineligible	Piedmont Virginia Community College is requesting \$25,000 in grant funding to for the purchase of the four mounted laptop computers, docking stations, and mounts as part of the equipment upgrade of our Campus Police vehicles.

568234	Poquoson, City	City Government	New	\$33,333.00	\$33,333.00	Meets criteria	This project seeks to replace aging and obsolete Mobile Data Terminals (MDTs) for our patrol officers. Our current units have surpassed their end-of-life cycle and were scheduled for replacement over a year ago. These outdated systems suffer from frequent hardware failures and slow processing speeds, which impede real-time data access and communication in the field. By upgrading to modern MDTs, our department will improve operational efficiency, enhance officer safety through reliable GPS and dispatch connectivity, and ensure faster response times for our community. This investment in critical technology will modernize our fleet's infrastructure and provide our officers with the reliable tools necessary for effective 21st-century policing.
568948	Pound, Town	Town Government	New	\$32,924.00	\$32,924.00	Meets criteria	As a small department of three sworn officers in a rural area on the VA/KY state line along US 23, a known drug corridor, we are seeing an increased presence of known outlaw motorcycle clubs who are well-known for drug activity, personal use drugs among residents, and trafficking activity through our jurisdiction. Our mission is to provide services in the safest, most efficient manner possible for our officers and the community we serve. We are requesting funding for a civilian cargo partition for a unit that is currently not equipped, new batteries and pads for existing outdated AEDs, and a hand-held drug scanner for safer, more accurate field testing and comprehensive reports. All support our goals of safety and efficiency.
567910	Powhatan, County	County Government	New	\$33,333.00	\$33,333.00	Meets criteria with conditions	The Powhatan County Sheriff's Office seeks grant funding to enhance officer safety, emergency response, and investigations through essential equipment: AED batteries and pads, updated DSLR cameras with flashes, a forensic evidence drying cabinet, and waterproof SRT rain pants. These upgrades address current gaps, support lifesaving response, improve evidence preservation, and strengthen operational readiness, benefiting personnel and the 32,000 residents served.
568948	Pulaski, County	County Government	New	\$33,333.00	\$0.00	Does not meet criteria	This funding opportunity will allow for the purchase of a new Ford Explorer Police Interceptor Utility to replace a failing K9 patrol vehicle.
568255	Pulaski, Town	Town Government	New	\$33,333.00	\$0.00	Does not meet criteria	The Pulaski Police Department is seeking grant funds to make a significant change to our Records Management Software. We are currently using a software that will no longer be directly connected to our Communications Center when they undergo an upgrade to Southern Software in July 2026. Switching to Southern Software would not only enable us to stay connected to our CAD system, making the data sharing between the two quick and efficient, but Southern Software is a much more enhanced data collection and retrieval tool than we currently have. The software will allow, a much greater ability to perform administrative, predictive, and investigative analysis as well as assist with data driven investigations.
568957	Radford, City	City Government	New	\$33,333.00	\$0.00	Does not meet criteria	This project seeks to obtain various equipment and training intended to be utilized by Radford City Police Department to further its effectiveness in delivering quality law enforcement services to Radford City. Radford has seen a 26% increase in violent crime in 2025 compared to 2024. This project ensures officers will be able to safely and effectively work to reduce this increase in violent crime by providing them necessary supplies. The training requested in this project will not only ensure that officers are adequately trained on the use of the investigative tools requested, but also ensure that they can remain certified without having to go back through the initial certification process again.
568354	Richmond, City	City Government	New	\$33,333.00	\$33,333.00	Meets criteria	The Richmond Police Department (RPD) seeks funding to procure standardized personal protection equipment for officers assigned to the department's Crowd Management Team (CMT). Each kit will consist of a certified riot helmet and compatible gas mask designed to provide respiratory protection and impact resistance during crowd management and civil disturbance operations. This investment will strengthen RPD's capacity to manage large gatherings safely, reduce the risk of officer injury, and support a proactive, well-coordinated approach to operational readiness and preparedness.

567828	Roanoke, County	County Government	New	\$32,814.00	\$32,814.00	Meets criteria	The Roanoke County Police Department proposes to implement the Edward Byrne Memorial Justice Assistance Grant. The purpose is to enhance the safety of Roanoke County Police Department personnel and the citizens of Roanoke County. Project activities include the purchase of two sets of cameras (four total) for two different Criminal Investigation Interview rooms with the associated software and/or subscriptions to the cloud for secure storage of data, and installation. The expected outcome is to provide the investigators with state-of-the-art interview rooms with cameras that are up-to-date with the latest technology and security standards.
568421	Rockbridge, County	County Government	New	\$33,333.00	\$33,333.00	Meets criteria	Procure mobile data terminals for the Rockbridge County Sheriff's Office. Mobile data terminals (MDTs) are critical, ruggedized in-car computers that enhance law enforcement by providing instant, secure access to criminal databases, dispatch information, and mapping. They improve officer safety, increase patrol efficiency, and reduce radio congestion, enabling real-time, informed decision-making.
568371	Rocky Mount, Town	Town Government	New	\$33,333.00	\$0.00	Does not meet criteria	The Rocky Mount Police Department (RMPD) is a full-service municipal agency serving Rocky Mount, Virginia, providing patrol, investigations, traffic enforcement, and community policing. Officers ensure safety at major events such as Rocky Mount Fest, holiday parades, and local races, which draw large crowds and require quick response to emergencies and public safety concerns. RMPD's current UTV is outdated and lacks proper emergency equipment, limiting mobility in crowded areas. With no dedicated town funding for replacement, grant support is needed to enhance safety, visibility, and response capabilities at community events.
568013	Russell, County	County Government	New	\$32,776.00	\$0.00	Does not meet criteria	The requested funds will be used to significantly update and enhance critically necessary technology supplies/equipment needed to continue improving and strengthening daily law enforcement services. Awarded funds will assist in equipping the Russell County Sheriff's Office Administrative Division and Records Division by replacing antiquated desktop computers with new up-to-date computers, funds will also equip the Russell County Sheriff's Office Criminal Investigative Division with modern up-to-date laptops and an evidence barcode unit and signature pad. Thus improving Russell County Sheriff's Office primary goal of enhancing the community-oriented public safety services to the citizens of Russell County as well as reducing violent crime.
568301	Saint Paul, Town	Town Government	New	\$33,333.00	\$0.00	Does not meet criteria	The St. Paul Police Department is seeking grant funding to upgrade and modernize its Records Management System (RMS) and Mobile capabilities by transitioning from Soma Global to Southern Software. As the Wise County Sheriff's Office moves its CAD, Mobile, and Incident Reporting systems to Southern Software, St. Paul risks losing essential interoperability and would be left without a functional CAD or Mobile system if unable to join the transition. Securing this grant will allow St. Paul Police to align with regional partners, enhance officer safety, improve reporting efficiency, and ensure reliable access to real-time information crucial for effective law enforcement operations.
568874	Smyth, County	County Government	New	\$24,319.00	\$0.00	Does not meet criteria	The Smyth County Sheriff's Office seeks Byrne Justice Assistance Grant funding to establish a narcotics detection K9 team to strengthen drug interdiction and criminal investigations. The agency has been without an operational narcotics K9 since 2022, despite continued drug activity in the community. Between 2023 and 2025, the Sheriff's Office conducted more than 400 narcotics investigations while the county experienced nearly 200 drug overdoses. The proposed project will fund the purchase and training of a certified narcotics detection canine and handler to enhance the agency's ability to detect illegal drugs, support investigations, and improve public safety.
569244	South Hill, Town	Town Government	New	\$26,090.00	\$0.00	Does not meet criteria	The South Hill Police Department is requesting grant funding to support a part-time professional services position, and targeted equipment purchases that will enhance operational efficiency, officer wellness, training capabilities, and investigative effectiveness.

569239	Spotsylvania, County	County Government	New	\$20,120.00	\$20,120.00	Meets criteria	The Spotsylvania County Sheriff's Office is respectfully requesting \$15,090 in federal funds, or 75% of the total project costs, to purchase a supplemental firearms training system that will aid in improving the firearm marksmanship, shooting mechanics, trigger control, and consistency of the sworn personnel of the Spotsylvania County Sheriff's Office. Additionally, to enhance the safety and visibility of sworn law enforcement personnel during low-light conditions and critical incidents funding is requested to purchase 300 high-visibility safety sashes. The Sheriff's Office will provide the required 25% local cash match of \$5,030.
567983	Stanton, City	City Government	New	\$24,591.00	\$0.00	Does not meet criteria	The primary objective of this project is to strengthen the department's capacity and operational efficiency in managing digital evidence. Our current digital forensics workstation is in constant use and no longer provides the processing speed or capacity needed to efficiently handle modern forensic software and growing data volumes, which leads to longer turnaround times. We do not have a dedicated Faraday solution in the digital evidence processing room where extractions and examinations occur. Acquiring a new Sumuri TALINO forensic workstation to complement to the current workstation, and installing a Mission Darkness Blocker Locker bay Faraday storage locker in the digital evidence processing room will alleviate these issues.
568294	Stephens City, Town	Town Government	New	\$11,995.00	\$0.00	Does not meet criteria	The Stephens City Police Department is seeking to purchase a golf cart in order to facilitate improved patrolling of park areas especially during festivals, concerts and events in order to provide a safer experience for residents and visitors.
568530	Strasburg, Town	Town Government	New	\$26,899.00	\$0.00	Does not meet criteria	Our small law enforcement agency has limited officers on duty, requiring them to stay in the field to respond to calls and engage with the community. Patrol vehicles use mobile data terminals (MDTs) for reporting and accessing real-time information. Due to system and Microsoft updates, current MDTs are outdated and often fail, forcing officers to rely on radio communication, increasing traffic and delaying reports. This project will replace outdated MDTs with updated units compatible with current software, improving efficiency, reducing radio congestion, and enhancing officer safety.
567836	Suffolk, City	City Government	New	\$12,986.00	\$12,986.00	Meets criteria	The Suffolk Sheriff's Office aims to update and improve less-lethal use of force options, specifically regarding Conducted Energy Devices (CED) - also known as Tasers, for sheriff's deputies. The Taser packages currently in-use are expiring soon or have considerable wear due to age. This grant application will help the office acquire new TaserX2 devices along with additional cartridges, battery packs, and holsters. This equipment is essential in ensuring sheriff's deputies have less-lethal use of force options, reducing the possibility of deploying other lethal force means during an incident. This Taser-based grant application will increase deputy safety as well as the safety of the public.
568610	Suffolk, City	City Government	New	\$32,820.00	\$0.00	Does not meet criteria	The Suffolk Police Department is dedicated to keeping both its equipment and training for instructors and officers at the highest of standards. In order to continue these efforts as well as provide safety and security for the citizens they serve, it is important to have new and/or updated supplies and equipment. With that in mind, this grant proposal focuses on equipment to improve operational capacity for the Department and knowledge for officers. The Department is requesting funding for a new CPR Mankin Kit, CPR Masks, CPR Training Pads, additional Signal Side Arms, and new Portable Radio Antennas.
568491	Tappahannock, Town	Town Government	New	\$31,007.00	\$0.00	Does not meet criteria	The requested \$25,000 from the DCIS Justice Assistance Grant Program, with a 25 percent in kind match provided by the Town of Tappahannock, will be used to purchase mobile data terminals (MDTs), desktop computers for investigative and administrative functions, and ballistic vest carriers for sworn officers. These items represent practical and immediate improvements that will directly enhance officer safety, operational efficiency, and service delivery to the citizens we serve. This request is modest in dollar amount but significant in impact. For a department of our size with limited resources, strategic investments in technology and protective equipment create measurable improvements in officer effectiveness, and public safety.
568461	Tazewell, County	County Government	New	\$31,158.00	\$0.00	Does not meet criteria	The Tazewell County Sheriff's Office is requesting funding for Insepsys Online Pro with subscription and upgrade, equipment for video surveillance for impound lot, tuition required for 5 deputies to attend EMT certification class and a new computer for the evidence room for maintaining evidence.

569149	Timberville, Town	Town Government	New	\$3,844.00	\$0.00	Does not meet criteria	This project will allow the Timberville Police Department to upgrade the batteries in all portable radios, ensuring each officer has a working battery. The batteries will also be extended-life, rugged, and water-resistant to support longer talk time, since officers work 12-hour shifts. The project will also allow the department to add an additional automated defibrillator (AED) to ensure that each patrol car is equipped with this life-saving device.
568440	Virginia Beach, City	City Government	New	\$18,714.00	\$0.00	Does not meet criteria	VBPD Special Operations (SMA-T, Marine Patrol, Traffic Safety, etc...) is looking to purchase a hydraulic breaching tool. This equipment will allow LE personnel to respond with life-saving equipment to breach doors and windows during emergency rescues; create access points in walls or roofs for search and rescue missions; remove obstacles or debris in disaster response scenarios; Open vehicles in extrication situations; facilitate entry into secured areas during law enforcement operations; assist in demolition tasks where controlled breaching is required. Since VBPD has a regional MOU in place with other localities it can be used at the regional level as well to include Norfolk, Chesapeake, Suffolk, and task forces.
569252	Virginia Beach, City	City Government	New	\$31,088.00	\$0.00	Does not meet criteria	The items requested through this grant are for ballistic shields, sim-munition training safety equipment, and DT safety equipment.
568543	Washington, County	County Government	New	\$33,333.00	\$33,333.00	Meets criteria with conditions	The Washington County Sheriff's Office is seeking funding through the Byrne Justice Assistance Grant Equipment and Training Program to purchase five electric service bikes. These bikes will provide greater access to local hiking and biking trails and surrounding national forest areas, enhancing our ability to conduct search and rescue operations, ensure trail safety, and assist with large crowd events.
568075	Weber City, Town	Town Government	New	\$18,137.00	\$0.00	Does not meet criteria	The Weber City Police Department is requesting funding to purchase two rugged mobile data tablets with vehicle docking systems and a department identification card printing system. The department operates with only five full-time sworn officers and limited local funding while serving a community located directly along a major interstate corridor near the Tennessee border. These technology upgrades will allow officers to access criminal justice databases and reporting systems while in the field and will improve administrative capability by allowing the department to produce official identification credentials internally.
568982	Westmoreland, County	County Government	New	\$32,960.00	\$0.00	Does not meet criteria	The Westmoreland County Sheriff's Office requests grant funding to purchase Night Observation/Optical Device Systems (NODS) and a BRINC Ball durable throw phone two-way communication device. This investment will improve nighttime and low-light patrol, search-and-rescue, evidence preservation, and officer safety while reducing response times and reliance on mutual-aid resources.
568388	Williamsburg, City	City Government	New	\$33,333.00	\$33,333.00	Meets criteria with conditions	In today's society there is one thing that almost every person has - a cell phone. The data that is available through the analysis of a cell phone is invaluable when investigating a crime. A quick and thorough cell phone analysis can not only assist in solving a crime, it can provide information for the prevention of a crime. Current technology renders mobile devices almost unpenetrable if not analyzed within 24-48 hours. With this grant, the WPD will set up a dedicated office (with computer, printer, and all other necessary equipment) for an Electronic Mobile Device Analysis System (EMDAS). The EMDAS will be available for other trained agencies to utilize, and the WPD will conduct analysis for untrained agencies as requested.
568271	Wise, County	County Government	New	\$33,333.00	\$33,333.00	Meets criteria	This funding will be used to purchase a Brinc Ball Kit. This kit is deployed in barricade or hostage situations that will allow our crisis negotiators to communicate with the suspect and victims. It will also be used purchase specialized sighting and optic equipment to be added to patrol rifles to help identify threats. This is specialized equipment that is not budgeted or provided by Wise County.
569078	Wise, Town	Town Government	New	\$29,435.00	\$0.00	Does not meet criteria	The Town of Wise Police Department is seeking grant funding to implement a modern and dependable Records Management System (RMS) provided by Southern Software. This system will replace our current, sometimes failing and outdated processes for managing police reports, records, and crime data reporting. The new software will allow the department to efficiently collect, store, and manage law enforcement records while ensuring accurate and timely submission of crime data to the through the National Incident-Based Reporting System (NIBRS). Grant funding will be used to cover the purchase, implementation, and initial setup costs of the Southern Software RMS.

568047	Wythe, County	County Government	New	\$33,344.00	\$0.00	Does not meet criteria	The Wythe County Sheriff's Office proposes emergency window shades for public classroom doors. These shades rapidly block visibility into classrooms during lockdowns or active threats, reducing an intruder's ability to target students. They also give School Resource Officers a tactical advantage, allowing safer, more effective responses to threats.
568321	Wytheville, Town	Town Government	New	\$25,000.00	\$25,000.00	Meets criteria with conditions	The proposed high-visibility mobile video camera system will be deployed to monitor high-crime areas, locations associated with drug activity, and special events that generate large crowds and require enhanced security and public safety measures. When in operation, the mobile security video trailer will provide continuous 24-hour, seven-day-a-week surveillance coverage. Beyond real-time monitoring, the system will establish a strong and highly visible presence that serves as a deterrent to criminal activity, enhances public safety, and protects public and private property. The system provides live video feeds and instant alert notifications, allowing law enforcement personnel to respond proactively and intervene before incidents escalate.
