School Summary Feedback Report

School: Bass-Hoover Elementary

Introduction

Thank you for participating in the 2025 Virginia School Survey, which included measures of school climate and working conditions. The Virginia Department of Criminal Justice Services (DCJS) and the Virginia Department of Education (VDOE), in collaboration with the University of Virginia and Virginia Tech, administered this survey to provide school and division leaders a tool to monitor and ensure all students and staff have access to a healthy and positive environment in which to learn, work, interact, and grow.

The survey has a basic structure in which the *questions* are mapped onto *measures*. For example, all three groups (Students, Classroom Instructors, Staff) answered four questions about relationships between students and adults in the school (i.e., are they respectful, caring, attentive, and supportive). Together, they make up the measure of “Relationships Between Students and Adults.” There is a brief descriptor of what that scale represents in each table. This School Summary Feedback Report provides information on the scores from your school for each survey measure. A measure’s score is the simple average response to all the questions mapped to the measure across respondents. This report also presents the responses to select individual questions, which are not part of a broader measure, but may be informative for understanding the perspective of students, classroom instructors, and staff in your school. If a section includes tables that are blank, that is because there were not enough respondents of that type (students, teachers, or staff) to adequately protect the identity of the participants. The report also provides the average of individual scores from respondents across your school’s division, region, and the Commonwealth.

Ways to use this Report

1. Share this report with staff, students, and parents. Encourage a common commitment to a positive school climate and supportive working conditions.
2. Identify school improvement goals, such as increasing student engagement and positive behavior and strengthening professional growth opportunities for classroom instructors and staff.
3. Document needs for school safety and support programs.
4. Evaluate school improvement efforts since the previous survey.

Resources for School Improvement

Below you can find some resources for school improvement. Please note that these are outside organizations and not necessarily affiliated with DCJS or VDOE. This list is not an exhaustive list. You may find additional resources online.

School Climate and Discipline

- [Handle With Care Virginia](#) is a communication system between law enforcement and schools when a child is on a scene with first responders. This program enables schools to be proactive in preparing trauma informed support. The website also contains general mental health and Trauma Informed resources.
- The [Virginia Tiered Systems of Supports](#) (VTSS) is a data-driven decision making framework for establishing the academic, behavioral and social-emotional supports needed for a school to be an effective learning environment for all students.
- The [Positive Behavioral Interventions and Support](#) (PBIS) technical assistance center is a federal resource for multi-tiered social, emotional, and behavioral support of students.
- The [School Discipline Consensus Report](#) is a comprehensive resource on school discipline improvement, behavioral interventions, and school-police partnerships.
- The [U.S. Department of Education](#) has many resources on school climate and discipline.
- [Restorative Justice—Fostering Healthy Relationships & Promoting Positive Discipline in Schools](#) has different examples of restorative practices in schools from the National Opportunity to Learn Campaign. Also, the guide provides implementation tips and strategies, as well as examples from school districts.

Bullying

- The federal website, [Stopbullying.gov](#), has extensive information on bullying and cyberbullying.
- The [Virginia Department of Education](#) has information on bullying prevention with a model policy and guidance document.
- The [Oklahoma State Department of Education](#) has information on a variety of evidence-based bullying programs.

Mental Health and Substance Use Programs

- The [National Institute on Drug Abuse](#) has a list of evidence-based universal programs for mental health and substance abuse.
- The [National Institute of Mental Health \(NIMH\)](#) has information and resources on child and adolescent mental health.
- The [Center for Disease Control \(CDC\) & Prevention](#) has information and resources on suicide prevention.
- The [Suicide Prevention Resource Center](#) provides information and resources on effective prevention, resources & programs, and training.
- The [National Child Traumatic Stress Network \(NCTSN\)](#) has information on resources on trauma-informed schools and childhood trauma-informed care.
- The [National Education Association](#) provides information and resources on Adverse Childhood Experiences and trauma-informed and trauma-responsive schools.

Gang Prevention

- [Gang Resistance Education and Training](#) (G.R.E.A.T.) is a gang and violence prevention program using classroom instruction delivered by law enforcement officers.
- The [National Gang Center](#) has a wealth of information about gang violence prevention.

Threat Assessment

- Virginia schools are required to have threat assessment teams to prevent violence. Two resources are the [Virginia Department of Criminal Justice Services](#) and the [Youth Violence Project](#) at the University of Virginia.
- The [“I Love U Guys” Foundation](#) has programs and resources for crisis response and post-crisis reunification are used in more than 30,000 schools and municipalities around the world.
- [The Koshka Foundation](#) provides training and resources on school safety, preparedness, violence prevention, & resilience, and threat assessment & management.

Social Emotional Learning

- The [Committee for Children](#) has information and resources on social-emotional learning for schools.
- [CASEL Resources for Parents and Families](#) – Social Emotional Learning (SEL) offers a powerful means to explore and express our emotions, build relationships, and support each other.

School Demographics

This report is based on responses from - Students (grades 6-8), **43** Classroom Instructors (inclusive of teachers and teacher’s aides), and - Staff in your school*. State results are based on **213,069** students in **492** schools with 6-8th graders, **46,415** Classroom Instructors in **1,053** Virginia public schools, and **11,825** Staff in **573** Virginia public schools. For more information, see the Virginia Department of Criminal Justice Services [website](#) or the Virginia Department of Education [website](#).

* A “-” indicates the associated role in your school did not meet the required response threshold (>50% response rate and > 10 responses) for data reporting. In the metrics reported in the following tables, all roles with “-” indicated above will be reported with a “-”.

Global Climate

In addition to the measures that assess a concept based on numerous questions, the Virginia School Survey presented one question to allow respondents to speak directly to their school’s climate and/or working conditions. The information below can be used to understand climate and working conditions and to continue to monitor progress.

Students

This item was scored from “Very Negative” (1) to “Very Positive” (6).

	School	Division	Region	State
How positive or negative is the atmosphere of the school?	-	-	-	-
