Grant Application Category: >>>>>>			
Application Type	Ranking Score (if New)	Requested Funding	Recommended
New	0	\$150,000	\$139,900

Grant Project Description

The Albemarle County Police Department is requesting \$150,000 in Byrne JAG funds to develop a Problem Oriented Policing Unit related to public safety. The Albemarle County Police Department is proposing the first year of the program will focus on team training and development. The unit is designed to be staffed by a Police Sergeant as team leader. Other unit members' involvement is requested in Overtime or special assignment while on duty. The team will be involved in problem solving projects such as repeat call addresses, drugs, gangs, burglaries, families in crisis, vandalisms and vehicle break-ins.

Project Performance to Date (if Continuation)

New grant.

Staff Recommendation/Comments

Recommend funding at a reduced amount. Reduce funding for Smart phone to \$150, eliminate Leadership development training \$5,500, and eliminate Night Vision Equipment. These costs were not adequately explained or justified as essential to program implementation.

Grant Project Description

The Albemarle County Police Department is requesting continuation funding to employ a full-time Crime Analyst position. The crime analyst assists in improving the administrative and operational processes of the investigative division and utilizes information to lead to better planning and problem solving.

Project Performance to Date (if Continuation)

The program has been successfully implemented to date. The Crime Analyst has completed two major projects to aid the department and is integrating into the position. All Quarterly Progress Reports and Financial Reports have been submitted in a timely manner. In the second year of the grant, Albemarle County seeks to utilize grant funding to pay the crime analyst's salary, to send her to training, and to purchase software and supplies.

Grant Project Description

The Office of the Attorney General will partner with the Danville Police Department and multi-agency law enforcement collaborative, as well as community stakeholders, city agencies, and schools to reduce violent crime, and gang activity, in the City of Danville. Our Danville Crime Reduction (DCR) project will use a collection of enforcement and non-enforcement strategies designed to reduce homicides, violence, and other major crimes. It will incorporate the most effective components of several evidence based programs and problem oriented policing practices such as place-based policing, focused deterrence, and prevention and intervention strategies. Grant funds will be utilized to pay salary and fringe benefits, consultant's fees, purchase equipment, travel and supplies.

Project Performance to Date (if Continuation)

Grant Project Description

The purpose of this project is to create a digital marketing campaign to support the Human Trafficking Hotline Awareness Campaign through a combination of Face book, Google, directory advertising, and various other websites. The media placement campaign will drive victims of human trafficking and/or individuals with information about possible human trafficking activities to reach out to the National Human Trafficking Resource Center’s hotline.

Project Performance to Date (if Continuation)

During the previous year, this grant supported the initiation of the Office of the Attorney General’s Human Trafficking Awareness Campaign. Grant funds supported partial costs of: the development, printing, and distribution of awareness posters; the development and printing of awareness stickers placed in all Virginia rest areas and welcome centers; the development and placement of billboards along Interstates 81, 95, and 64. Billboard “impressions” to-date are estimated at 19,586,302.

Buena Vista	City	Police Dept	
Grant Application Category: >>>>>>			
Application Type	Ranking Score (if New)	Requested Funding	Recommended
New	0	\$149,297	\$57,392

Grant Project Description

This proposal is for an initiative to reduce crime and the fear of crime utilizing the proven methodologies of targeted foot and bicycle patrols, and educational outreach programs. The budget includes funding for the salary of two police officers, civic club membership dues, travel and subsistence for trainers and to attend training, class-b uniforms and web gear for the entire department, two bicycles and bicycle gear, printing of promotional material, and overtime salary for supervision of the grant and project.

Project Performance to Date (if Continuation)

New grant.

Staff Recommendation/Comments

Recommend funding at a reduced level. Fund a single position at \$48,992 (salary and benefits), reduce travel and subsistence for project personnel to \$4,000, fund the police bicycle/gear at \$2,000, and fund the printing of program promotional material \$2,400. Eliminate all line items that are not allowed under the grant guidelines: funds for "consultants" (memberships and per diem), "equipment" consisting of community policing uniform and web gear, and "indirect cost" (overtime salary for grant maintenance and supervision). [Buena Vista population (6714) has fluctuated downward and only recently returned near its 1980 peak level of 6717. The justification for adding two additional officers is that the number of officers (14) has not increased since 1974.]

Grant Project Description

Citizens Against Family Violence (CAFV) will address violent behavior by providing Evidence Based programming to middle school aged youth. CAFV will implement the Safe Dates curriculum at local Boys and Girls Club, an after school mentoring program, and summer enrichment programs throughout the service area. 100 middle school aged students will participate in the Safe Dates, a program designed to stop or prevent dating violence and victimization, including psychological, physical and sexual abuse that may occur between youth involved in dating relationships. CAFV will also initiate the evidenced based program "Coaching Boys Into Men" (CBIM) by training recreation league coaches of middle school aged boys. CBIM is composed of 12 weekly sessions conducted by trained coaches during the athletic season; CAFV will train 50 Coaches and is projected to engage 400 boys during the funding period. Funds are requested for Personnel, Travel, Equipment and Supplies.

Grant Project Description

In FY 2016, DJJ proposes to continue collaborating with community organizations to recruit, screen, and match mentors with offenders committed to DJJ from the Richmond Metro Area (Cities of Richmond, Petersburg, and Colonial Heights; Counties of Chesterfield and Henrico) and the Tidewater Region. Mentors will be matched with mentees (offenders) for 6 to 12 month time commitments. Re-entry mentor matches engage residents within 120 days of the anticipated release date at the juvenile correctional center and continue in the community. Facility mentor matches take place at the juvenile correctional center in individual and group settings. Mentors will continue to receive introduction trainings and support sessions using the DJJ mentoring curriculum developed in partnership with the Virginia Mentoring Partnership (VMP) on evidence-based practices of mentoring. Funding is requested for Personnel, Consultants, Travel, Equipment, and Supplies.

Project Performance to Date (if Continuation)

The Mentoring Initiative continued recruitment efforts with individuals, community groups, and faith-based organizations. 19 individuals from the Richmond area and one individual from the Tidewater area successfully completed applications and required background investigations. The program has served 29 youth to date. The Mentoring Program Coordinator continues making regular contact with each mentor or mentee at least two times per month to assess progress, needs, concerns, suggestions, and updates. There are currently 27 active mentor pairs. The University of Richmond and the DJJ Mentoring Initiative facilitated group mentoring during February and March. The Mentoring Program continues to experience difficulty in recruiting mentors in the Tidewater region. The distance between the JCCs and the Tidewater area poses a challenge for interested individuals wishing to become mentors. The mentoring program offers gas mileage reimbursement, as well as the opportunity to meet using video conferencing technology at Court Service Units located in the Tidewater area. Progress and Financial Reports have been submitted on time. The Program is meeting its established goals and objectives.

Grant Project Description

To achieve its mission and to address disproportionate minority contact, the Court Services Unit (CSU) proposes to continue undertaking several major initiatives to incorporate evidence-based practices (EBPs) into its intake, probation, and residential programs. This evaluation project has enabled the CSU to engage outside experts in the field to review practice changes from an implementation perspective to help ensure the most positive outcomes possible. The goal is to understand how well the EBPs have been implemented and what factors are needed to improve the overall alignment of the EBP into the CSU context. The outcome of the study will help the CSU to continue to improve the quality and effectiveness of its services. Funding is requested for Consultants.

Project Performance to Date (if Continuation)

Data collection from the staff survey ended in January. Observations are currently underway in the county's Community Corrections Unit, which includes adult probation services for offenders who have committed domestic violence offenses and other domestic relations eligible misdemeanors. In addition to staff surveys and observations, the George Mason University Research Team and CSU administration continue to hold periodic status update meetings to discuss ongoing research plans and qualitative (observations/interviews) and quantitative (survey) findings. The GMU research staff continued observations in residential services, including the Transitional Living Program (TLP), and started observations in Boys Probation House (BPH) and Foundations (the equivalent girls probation house). The GMU Research staff produced a 14-page report of preliminary survey results during this period. The draft survey report was presented to CSU administrators in February. The program is meeting its goals and objectives.

Continue	0	\$75,000	\$75,000

Grant Project Description

Family Service of Roanoke Valley's (FSRV) Prevention and Education Program proposal seeks to continue to replicate the Teen Outreach Program (TOP) at three sites with five groups in the City of Roanoke maintaining the number of youth that are reached at approximately 80. TOP is a SAMHSA approved, evidence-based youth development program that includes weekly skill building peer groups with lessons and activities from a curriculum designed for 6th -12th grade students and includes 20 hours of community service learning that links youth with pro-social community engagement projects. TOP at FSRV also offers at least three events that allow families, youth, and community to celebrate the youths' contributions to the community. The long-term project goal is to prevent youth crime by using a model program that is proven to reduce school suspensions, enhance school attendance, prevent school dropouts, and strengthen healthy decision-making skills. Funding is requested for Personnel, Travel, Training, and Supplies.

Project Performance to Date (if Continuation)

To date, the program has served 121 children, and trained 19 staff members. Surveys have been administered to all participants to obtain baseline responses that will assess school commitment, social responsibility and perception of harm regarding substance use and substance refusal skills. There are three scheduled celebrations that include parents and family members to celebrate the youth's contribution to the community. TOP has exceeded the projected participant target (80); despite the loss of 11 programming days due to weather related school closings. Several youth participated in a Martin Luther King Day of Service, and 18 youth from one site organized a blood drive at a local school. All Progress and Financial Reports have been submitted on time. Progress and Financial Reports have been submitted on time.

Grant Project Description

The program is modeled after the AMI Kids Personal Growth Model an Evidenced Base Program for adjudicated youth. The program will target and reduce risk factors that sustain delinquent behavior. The proposed project will provide intensive case management to youth who are on probation or parole between the ages of 15 and 18 who need to develop the skills that will increase their chances of remaining offense free and be successfully released from probation or parole. Each participant will receive a comprehensive assessment and will be involved in one on one counseling and group sessions that use evidence based practices and methods that will address individual risk factors. Program participants will gain employment readiness, and independent living skills. The program will use a level system that monitors individual progress and will use a reward and incentive program that will determine staff contact and program intensity. The program plans to serve 50 youth. Funds are requested for Personnel, Individual and Organizational Consultants, Travel, and Supplies.

Application Type	Ranking Score (if New)	Requested Funding	Recommended
Continue	0	\$16,000	\$16,000

Grant Project Description

The funds will be used to contract with a qualified researcher and consultant to conduct a system-wide evaluation of existing programs and services. The Correctional Program Checklist developed by the University of Cincinnati Corrections Institute (UCCI) has been identified as the preferred tool for the evaluation. It is an evidence-based, validated tool that has been widely utilized in the corrections field to provide sound evaluations of programs. The assessment will identify the strengths and weaknesses of case management and treatment programs offered through the local Court Service Unit as well as those of partnering agencies. The city recognizes the importance of implementing and referring to treatment services/programs that are proven to be effective and create meaningful change in the lives of our clients and families while reducing recidivism. It is vital to have quantitative and qualitative data to support the continuance, exclusion, or modifications of current programs and practices. The city can utilize the findings of an in-depth study in developing a road map to strengthen our juvenile justice system by increasing juvenile rehabilitative efforts while improving public safety.

Project Performance to Date (if Continuation)

This is a continuation grant. The first grant year has been delayed due to procurement and contracting issues and a request to extend the project through December. The continuation project is to contract for action planning as a follow up to the original assessment project. The objective would be to develop a comprehensive action plan to address the findings of the assessment. Due to the extension on the FY2014 grant, the grant start for this grant will be delayed until January 1, 2015.

Grant Project Description

In FY 2015, Justice Services of the City of Richmond is requesting to continue the criminal justice planner position. This position has made significant progress improving jail data collection, analysis and synthesis required to inform city leaders on strategies to effectively manage jail the population. This position will continue to monitor data and facilitate the process and program committees that are charged to monitor the utilization of alternatives to jail detention.

Project Performance to Date (if Continuation)

The planner has assisted with the internal IT infrastructure to host a comprehensive dashboard. When implemented, this tool will allow for improved data and inmate management, especially as it relates to the use of alternatives to detention. Richmond was one of six localities in Virginia selected to participate in Phase V of the Evidence Based Decision initiative sponsored by the National Institute of Corrections.

Grant Project Description

Rockingham CIT would like to continue to offer specialized mental health crisis training to law enforcement. This will reduce unnecessary restraint and incarceration of people with mental illness and to provide individuals with appropriate treatment in the community.

Project Performance to Date (if Continuation)

Number of trainings completed goal has been met this year. This grantee consistently submits progress reports late. CIT Coordinator indicates this it is difficult to collect data from more than one police department. Grant Monitor has provided technical assistance to address these issues.

Grant Project Description

In FY16, SOHO proposes to continue the Space of His Own Creative Mentorship Program. The program targets low-income, disadvantaged boys in Alexandria who lack positive adult male role models and aims to prevent juvenile involvement in crime. The program will engage participating youth through hands-on math, basic carpentry instruction, and visual arts instruction. SOHO develops life skills in the areas of healthy eating, social skills, anger management, conflict resolution, gang prevention, etiquette, and community service. Every participant is provided with a personalized space-of-his-own that encourages creativity, conveys a sense of value and worth, and gives a lasting reminder of his circle of support and care. The program seeks to have a lasting impact by fostering one-to-one mentor and peer-group relationships beyond the year long program. SOHO utilizes evidence-based life skills curricula and follows the National Mentoring Partnership's model program guidelines. Funding is requested for Personnel and Supplies.

Project Performance to Date (if Continuation)

During this funding period SOHO has developed 10 quality, long-term one-to-one mentoring relationships with 10 screened, well trained adult male mentors. Matches were based on mutual interests, observed compatibility and the identified strengths of each mentor. Each mentor/mentee pair participated in a community outing during "Match Night" and Parent Night, which enabled family members to meet their boys' mentors. Mentors visited each home to assess each child's needs and to work with boys to measure each space. The program has been very successful in recruiting, training and retaining mentors. A mentor-only night was held to provide additional training and to plan for the room makeover weekends, which will take place during May and June. The program currently has 9 participants and has recruited and trained 10 mentors; unfortunately one participant was discharged due to behavioral issues. All progress and financial reports have been submitted on time. The program is meeting its stated goals and objectives

Grant Project Description

In FY 2015, Blue Ridge Court Services requests to continue the Pretrial Initiative on Mental Illness (PIMI), a post-booking, pretrial jail diversion effort targeting recently arrested defendants at the Middle River Regional Jail with serious mental health issues with co-occurring mental illness with substance abuse disorders. Using evidence-based methods, this initiative has systematically identified those defendants with mental health issues and has provided treatment and supervision for this vulnerable population.

Project Performance to Date (if Continuation)

For FY 2014, pretrial staff screened 896 inmates at the Middle River Regional Jail and recorded a total of 781 Brief Jail Mental Health Screens. Dialectical behavior therapy groups have been meeting weekly at the Middle River Regional Jail and a total of 115 have participated. 68 pretrial defendants have successfully participated in weekly community-based therapeutic groups. 67 pretrial defendants have been supervised by a Mental Health Pretrial Officer. 90% of those cases were closed successfully.

This project will provide multi-disciplinary training opportunities for Harrisonburg and Rockingham County. Training events will include a one-day multi-disciplinary team seminar and three trainings for the local Sexual Assault Response Team (SART) and Child Abuse Multi-Disciplinary Team (MDT).

Project Performance to Date (if Continuation)

During the previous year (year two of funding), this grant supported: three quarterly trainings for Sexual Assault Response Team (SART)/Multi-Disciplinary Team (MDT) members; the Shenandoah Valley Multidisciplinary Conference, which had 93 attendees and included content on economic insecurity and sexual violence, child forensic interviewing, forensic nursing best-practices, and other topics. The Conference received extremely positive ratings on training surveys.

Grant Project Description

In FY 2016 The Tidewater Youth Services Commission (TYSC) proposes to continue serving at-risk and court involved girls, ages 9-18, through a program called Girls Circle. Girls Circle is designed on the evidence-based principles and practices of Motivational Interviewing and Strengths-Based Approaches. Using experiential activities and guided discussions in a safe, supportive, environment, Girls Circle targets resiliency and protective factors. Tidewater Youth Services Commission will partner with its charitable foundation, Tidewater Youth Services Foundation, to help expand the program by identifying volunteers and raising funds. Funding is requested for Personnel, Travel, and Supplies.

Project Performance to Date (if Continuation)

The program has served 45 girls to date and there are sufficient referrals that will ensure that the program will serve the projected number of participants (64) this funding period. The program pays special attention to ensure that group composition takes into account that the girls in a particular group activity are of similar age and risk levels. TYSC continues to seek out new sources of referrals, and has recently received referrals from the Norfolk, Portsmouth and Hampton Court Service Units. There have been no major setbacks or barriers to service; some of the groups had to be rescheduled due to weather. Progress and Financial Reports have been submitted on time. The program has received some technical assistance from Girl's Circle regarding program evaluation issues. The Tidewater Youth Commission is actively seek funding to ensure that the program is sustained after funding expires.

Grant Project Description

The Welcome Home Guest House Prisoner Re-Entry Program provides housing and support services for previously incarcerated individuals to enable successful transition from incarceration to community. Accepted applicants live in a home with up to two roommates and a house manager who provides structure and guidance for residents. Residents work on individual service plans to include seeking employment, community service, paying court fines and child support and working towards a generally sober and healthy life. Partner agencies include: Virginia Employment Commission, Literacy for Life, Spirit Works, and AA as well as local and state probation.

Project Performance to Date (if Continuation)

Grantee submits all reports on time. Program has had staff changes during first two years but this has not affected programs ability to screen and place residents. Most residents come directly from jail and are screened while incarcerated for placement. Program is now using validated risk assessments

Staff Recommendation/Comments

Grant Project Description

Continued funding will support the development of an integrated program for juvenile sexual offenders, and deliver a broad continuum of sex offender services, including individual outpatient therapy, group therapy, and family outpatient therapy, in-home therapy related to sexual offending behavior, case management and polygraph services. Youth convicted of sex offender crimes are administered an Evidence Based risk/ need assessments targeted specifically for the juvenile population to allow better identification of risk to the community and the prevention of re-offending. Funding requested is for Personnel

Project Performance to Date (if Continuation)

Of the 15 youth referred to this program, two have successfully completed the program and are now integrated into the community and doing well. Two others are pending successful completion of their programs this summer. This Program is meeting the projected and participant and program goals targeted goals. The grantee has made significant progress to ensure program sustainability- for example a mechanism for funding the psychosexual evaluations and developing an MOU that will provide \$55,000 in funding for services when the grant expires. The sub-grantee requested and was granted a 9 month extension until March 31, 2015. All Progress and Financial Reports have been submitted on time. The program is meeting its stated goals and objectives.

Continue	0	\$75,000	\$75,000

Grant Project Description

The goal of the implementation process is the improvement of supervision strategies for local-responsible offenders in order to reduce recidivism. The identified tasks in FY16 are: 1) complete the annual client survey per the existing performance measure; 2) review/revise/finalize the local probation evidence-based practices performance measures; 3) complete the EBP Organizational Survey with program directors and staff per the existing performance measure; 4) analyze the data from FY14 organizational survey and the recidivism outcomes data on probation completers to examine connections to practices and outcomes; and 5) analyze the FY04 through FY11 probation data and recidivism outcomes to develop/confirm 3-5 best probation practices for recidivism reduction.

Project Performance to Date (if Continuation)

VCCJA has requested an extension on the current grant until August 30, 2015 and a change in grant deliverable after an initial review of the recidivism data. The extension and deliverable change have been approved after consultation with DCJS and found to add to the richness of the local probation practices and research evidence with a re-validation and norming of the local probation risk and needs assessment tools. VCCJA, working with the National Center for State Courts, is on track to meet the grant goals for FY15.

Staff Recommendation/Comments

The FY16 activities will add to the credibility and research-evidence in Virginia's local probation agencies by directly connecting supervision practices since the start of EBP Implementation to probationer public safety outcomes and establish a solid performance measurement system that can demonstrate probation's impact on public safety in Virginia's communities. Fund as requested.

Grant Project Description

The Warren Coalition will conduct the Second Step Program, a program that teaches empathy and coping skills, to students in three elementary schools and one middle school. Second Step is an Evidenced Based program that focuses on providing skills to students that allow them to cope with their feelings in positive ways, treat others with kindness, deal with disappointments and recognize differences among people. Students, who are identified with anger management issues or problems managing anxiety, will be referred for one on one anger management sessions with trained Warren Coalition staff members. The program's goals are to increase students' ability to manage their emotions, and to increase their empathy toward others; these skills will be measured by examining pre and post scores. In addition the program projects that 8th graders who take the Pride Survey will show a 5% decrease in threatening or harming other students. Funds are requested for Personnel, Travel and Supplies.

Grant Project Description

The Western Tidewater Community Services Board (WTCSB) is requesting funding to implement the Strong African American Families (SAAF) Curriculum in the City of Franklin and Southampton County. Strong African American Families is an Evidence Based 7-week alcohol, drug use, and early sexual activity, reduction program that focuses on rural African American youths (ages 10-14). The program works to strengthen the attachment between parent and child to reduce the likelihood of youth involvement in various problem behaviors, particularly risky sexual activity and substance abuse. It also works to promote the youths' ability to focus on goals for the future, resist involvement in risky behaviors, maintain negative images of risk behaviors and peers who engage in them, and accept parental influence. The (WTCSB) Western Tidewater along with its partners plans to deliver programming in 14 seven week cycles to groups of approximately 10-12 families of middle school aged youth each cycle. Funding is requested for Personnel, Consultants, Mileage, Equipment and Supplies.

New	0	\$120,555	\$15,000

Grant Project Description

This proposal is for a problem-oriented community policing program designed to educate school children and citizens (through SROs, neighborhood watch meetings, and outreach programs) on the know effects and dangers of synthetic drugs. (\$15,000 is allocated for educational material and handouts.) The majority of the budget (\$105,555) proposes an enforcement component with funds allocated for the purchase of surveillance equipment (\$84,015), ballistic helmets (\$12,000), and communications equipment (\$9,540).

Project Performance to Date (if Continuation)

New grant.

Staff Recommendation/Comments

Fund only the educational material and handouts at \$15,000, Supplies and Other Expenses. Equipment request is not sufficiently justified, nor tied to the goal as stated In the concept paper. Baseline data and specific training and outreach program needs to be more fully developed.
