Grant Project Description

The Arlington County Police Department requests funding under the Byrne/Justice Assistance Grant Notice invitation for Law Enforcement Grant Applications to enhance our Civil Disturbance Unit's (CDU) training. To align itself with modern tactics, the CDU is in need of updated training. The chosen vendor has provided civil disorder training to other regional agencies in preparation for the 2017 Presidential Inauguration. The training is based upon European methods of crowd control and civil disorder response in this area and allow for better interoperability for both tactics and equipment.

Grant Project Description

The Arlington County Police Department requests funding under the Byrne/Justice Assistance Grant Notice invitation for Law Enforcement Grant Applications' to upgrade our Civil Disturbance Unit's (CDU) equipment. New equipment would provide Arlington with an enhance response capability to manage significant incidents should they occur in Arlington and would also allow the department to provide mutual aid support to regional partners. There is a movement amongst the National Capital Region (NCR) agencies to move to the European model as a region to modernize civil disorder response in the area and allow for better interoperability for both tactics and equipment. Three NCR agencies have obtained advanced training and equipment based upon the European model, and this equipment is the same as that used by those agencies. The equipment to be purchase is also the suggested in the interim NIJ standard for CDU gear.

Application Type	Ranking Score (if New)	Requested Funding	Recommended
New	0	\$19,000	\$19,000

Grant Project Description

With grant funding, the Ashland Police Department would like to improve the effectiveness of our law enforcement and investigative operations by investing in technology in two areas: crime analysis and enhanced surveillance equipment. Both of these areas will enable us to enhance our current Data Driven Approaches to Crime and Traffic Safety (DDACTS) philosophy and ultimately improve our clearance rate on reported crime. This increased effectiveness will ultimately reduce criminal activity.

New	0	\$96,459	\$ 0

Grant Project Description

To effectively enhance our capacity to deliver daily law enforcement services to our community and ensure the safety of our citizens and our officers. Bluefield Virginia Police Department is applying for these grant funds as we depend on them to receive funding for equipment and technology, training, and officer recruitment we would otherwise not be able to afford. Our need is to continuously deploy a high performing workforce and maintain a culture of engagement and excellence. To deliver better, faster, smarter services and provide more accessible information and data for our officers in the event of a crisis. Our department will deliver a culture of collaboration, innovation and continuous improvement to maintain and advance our public safety mission.

Grant Project Description

As with many other law enforcements agencies, the Chesterfield County Police Department has a difficult time recruiting and retaining officers. As a means of expanding the viable markers open to recruiting, the department seeks to produce a television advertisement which will promote the department, the country, and the application process. The advertisement would be aired in markets east of the Mississippi River. As a means of making the assignment selection and promotional process easier on officers and more efficient on Personnel staff, the department seeks to deploy a software solution. The software will reduce the amount of paper required, reduce the manual tracking of assignments, and allow officers to take assignment and promotional assessments online.

Grant Project Description

The Chesterfield County Police Department seeks to enhance the skills of the Peer Support personnel, Lieutenants, and the Forensic Mobile Device Data Collection detectives by providing the opportunity for training. The Peer Support personnel receive training from other departmental personnel and are seeking to gain information and teaching techniques from experts in the field. The department seeks to improve the quality of the department's supervisors by providing training to three lieutenants in command training. The department is also seeking to certify several officers in data extraction from mobile devices. With the prevalence of their use, criminals often use their mobile devices to record their criminal activities. The three proposed trainings will provide the needed skills to access that information from seized devices.

New	0	\$35,322	\$ 0

Grant Project Description

The Danville Sheriff's Office is an accredited law enforcement agency which directly serves a population of approximately 43,000 citizens. In recent years, Danville's per capita violent crime rate has rivaled the biggest cities in the United States. Our deputies deal with the most violent criminals in our community. Out of the 73 full time sworn deputies in our office, only 31 have body armor issued to them due to the cost of the equipment and purchasing them on the existing budgetary funds. There are multiple examples nationally where body armor has protected law enforcement officers from serious fatal harm. We are requesting funds for forty two pieces of body armor (vests) to protect deputies from the inherent risks they face dealing with the most violent segment of the public.

New	0	\$32,170	\$ 0

Grant Project Description

The primary objective is to become more interoperable with neighboring jurisdictions. We plan to purchase 3 mobile data terminals and equip each police vehicle to accommodate the Panasonic Tough pads. Information will be available for the officers immediately, without the need to rely on dispatchers for everything. The laptops will have public safety software installed giving officers the opportunity to complete reports while still in the field.

New	0	\$47,892	\$47,892

Grant Project Description

The Fairfax County Police Department (FCPD) requests grant funding in the amount of 47,892 to purchase six Plum Case Extended and three accessory cases. The portable Plum Cases will be allocated to pivotal resources and individuals within the FCPD so they are available and easily deployed during high profile events which have the possibility of degraded cellular services or saturated cellular towers. Such events include civil unrest incidents, mass causality events, major traffic incidents and other high volume emergency response events. These devices would allow cell and internet service to be available to first responders when the local cell towers are overwhelmed with high volume usage.

Grant Project Description

The Fauquier County Sheriff's Office wishes to purchase 22 new less lethal tasers to be issued to the sworn deputies assigned to the Patrol Division. The new tasers will be utilized to replace currently issued older model tasers that are out of service life date, no longer have any warranty and are unserviceable. Many of the tasers in use were purchased as far back as the year 2005 and have display screens which are no longer operable and are no longer reliable. This grant will enhance the safety of citizens and sworn personnel employed by Fauquier County by providing reliable Taser X2s to the men and women assigned to the Patrol Division.

New	0	\$13,790	\$ 0

Grant Project Description

The Henry County Sheriff's Office is seeking to purchase two Smart 650+ bundled package speed trailers + solar utilizing the DOJ Byrne/Justice assistance grant. The speed trailers will allow our office to determine the most appropriate time for enforcement as well we will be able to measure the success with pre-data and post-data enforcement. We have numerous complaints from citizens in our rural 25 MPH - 35MPH posted areas in reference to cars speeding and making it dangerous for their children to play in the yard. We assign people in the specific areas however; our impact is small, with the addition of the speed trailers we can identify the best time to place enforcement units in the area for maximum results.

Grant Project Description

Surveillance cameras, crime scene investigation equipment & laptops are just some of the tools Lebanon Police Dept. needs to assist in reducing drug-related crimes & Opioid abuse. Surveillance cameras will capture and preserve the exact nature and extent of the incident, aid in solving crimes that have been committed, surveillance drug activity, and assist in monitoring Drug Treatment Court participants. Crime scene investigation equipment is needed to analyze and promptly solve drug related crimes that take place. Laptops will be used to gather and share information from and with other law enforcement agencies. Drug abuse is a big problem in this area and continues to increase; there are 4 Suboxone Clinics in a town where the population is only 3,424. The rate of Suboxone prescriptions written in SW VA is 9 times higher than that of the State of Virginia's average number.

New		\$49,826	\$49,826

Grant Project Description

We are requesting to purchase a firearms training simulator that will be used as a Multi-Jurisdictional training aid. This will allow our officers to experience real world scenarios in a controlled environment. Unfortunately, due to decreasing firearms budgets range, time has been reduced to the mandatory qualification once a year. This training simulator would not only train officers with handgun use, but would also allow them to train with the same type of patrol rifle we are currently using. The simulator would also train officer in low light situations and other issues they may encounter with the weapon in a training environment. The simulator will also help with decision making in shoot don't shoot scenarios. This system will be able to debrief and record the trainee's reaction time and performance. This simulator will also train officers with OC and Taser to assist in their proficiency.

Norfolk	City	Police Dept	
Grant Application Category: >>>>>>			
Application Type	Ranking Score (if New)	Requested Funding	Recommended
New	0	\$47,561	\$47,561

Grant Project Description

For officer safety and community protection, Norfolk Police Dept. proposes to purchase sixty bulletproof vests (estimated cost \$45,600 at \$760 each) and one wireless communications system for up to four users (estimated cost \$1,961). New bullet-proof vests (soft body armor) would greatly increase officer safety against gunfire during patrols and crowd control. Norfolk Police has 749 uniformed officers. Currently, 211 officers have expired body armor that needs to be replaced. Additionally, approximately 25 police recruits will graduate this fiscal year and need body armor. The wireless communications will provide officers better situational awareness and would be used during covert operations to allow officers to communicate during surveillance and arrests of individuals engaged in illegal activity.

New	0	\$46,692	\$ 0

Grant Project Description

Northumberland County is in need of replacing the mobile radios in all of the Sheriff's Office vehicles. Most of these radios are 10 to 12 years old and are now obsolete. Surrounding counties are upgrading their radio systems and using different frequency bands, creating a delay or barrier in the communication for a multi-jurisdictional response. This project would replace out-of-date radios with new multi-band radios and allow communication on a wide spectrum of frequencies, eliminating the barrier between most law enforcement agencies.

Grant Project Description

The implementation of new Radio Communication equipment will assist the Sheriff's Department in its ongoing efforts to maintain effective communication with officers in the communities and the courts. Due to the limited resources in our City, this funding would provide the necessary equipment to enhance our service to the Courts, community and ensure the safety of our officers and citizens. The installation of the communication systems will create an efficient response in the notification of civil unrest, natural disaster and officer safety. It will afford the office the opportunity to purchase three (3) communication systems and install them into three (3) of our vehicles. This equipment will be advancing justice, supporting the communities, and providing the ongoing safety of our officers, residential streets as well as our highways.

Grant Application Category: >>>>>>			
Application Type	Ranking Score (if New)	Requested Funding	Recommended
New	0	\$50,000	\$ 0

Grant Project Description

Using a two-prong methodology of evidence based deployment and use of overtime to patrol the high crime area of the community, the structure of the initiative this grant will fund is to place a two-officer patrol unit on special assignment in the targeted areas for entire shift during the highest crime time of the day and days of the week. The grant period will allow PPD to concentrate officers' presence during some of the most violent months of the year and support a safe environment in the PRHA for its residents and properties. The funding for such operations has been cut significantly and likely is not to be funded for the remainder of this fiscal year, or to be budgeted for next fiscal year. This grant would enable the PPD to pay officers overtime rate to patrol in and around PRHA properties for entire shift during the highest crime time of the day and days of the week during the six (6) months of the grant period.

Grant Project Description

The PPD hosted a summer Police Athletic League (PAL) Camp in 2017, and it was a huge success. In order to capitalize on this success and to continue to grow our PAL program, PPD has determined there is a need for the PAL Director to receive additional training at the National PAL Conference. The National PAL Conference is where all PAL Chapters across the nation meet. Training at this Conference includes how to operate a successful PAL Chapter to include National PAL procedures and media relations training. Networking at the Conference allows connections with other PAL Chapters that may face the same adversity within its locality and learn what they do to overcome the adversity to have a successful program for the youth. Funding from this grant will assist us in sending our PAL Director to the National PAL Conference in May 2018.

Grant Project Description

The Rappahannock Regional CJA provides basic, in-service and advanced training to criminal justice professionals in forty-two member agencies across the region with 2,100 sworn law enforcement officers in various capacities that rely on the academy for this training. For the academy to perform these services, it must maintain current instructional methods and technologies. Although the academy already has computer tablets to replace most forms of training aids for its recruits and will complete this phase next year as the DCJS brings the new statewide records management system on-line, the training staff needs upgraded technology in conjunction by having the computers operate on the same system for joint staff presentations. The current audio visual equipment needs to be updated for classroom and auditorium training use. The academy has not been able to use its operational funds nor been able to rely on locality funding for these technology upgrades. This grant application will provide the high quality technology needed for staff training to all member officers and the communities they serve.

Richmond	City	Sheriff's Office	
Grant Application Category: >>>>>>			
Application Type	Ranking Score (if New)	Requested Funding	Recommended
New	0	\$74,615	\$ 0

Grant Project Description

The Richmond City SO currently has a staffing deficit with 70 (sworn deputy) positions vacant. These vacant sworn positions represent 22% of the 396 sworn positions necessary to be at mission critical staffing. Thus, the sheriff's office is currently 22% below mission critical staffing levels. The existing staffing deficiency is due to a high rate of terminations, resignations and retirements in 2017 prior to the new administration taking office on January 1, 2018. The previous administration left these positions vacant to be filled by the new administration. Successful recruiting of the 70 sworn positions currently available will have a direct impact to the Richmond City SO training needs. Adequate staffing is essential to effectively manage safe and secure jails.

Roanoke	City	Police Dept	
Grant Application Category: >>>>>>			
Application Type	Ranking Score (if New)	Requested Funding	Recommended
New	0	\$75,000	\$ 0

Grant Project Description

The Roanoke PD intends to use these funds to bring Evidence-Based Crime Reduction and Stratified Policing Training to all officers and supervisors. Stratified Policing provides mechanisms for the organization to change its current reactive crime reduction culture to a proactive culture that includes relevant components of hot spots policing, problem-oriented policing, focused deterrence, intelligence led policing, and community policing, as part of "normal business." The purchase of intelligence software would aide in putting Stratified Policing into action by turning strategic planning into precise, data-driven action by automating the most advanced crime data analysis.

Project Performance to Date (if Continuation)

New project.

Grant Project Description

In 2017, there were approximately 345 incidents involving mass injury or casualty. In the early months of 2018, that number is thirty-four incidents. Due to the unfortunate rise in these types of events, first responders are not significantly prepared to handle mass injury, casualty and active shooter events. The twenty-two men and women of the Smithfield PD provide professional law enforcement service with basic law enforcement equipment. In addition to these services, the PD will arrive first to any threats to the two schools within one-mile radius of the Town, and the one school within the limits. The Law Enforcement Equipment and Technology grant will appropriate the necessary equipment to safely, effectively, and efficiently handle incidents of such magnitude while enhancing professional services.

Grant Project Description

The Spotsylvania County Sheriff's Office is requesting funding to purchase a specialized boat for patrol, search and rescue, and emergency response work for Lake Anna and, as needed, on other bodies of water. The patrol boat will be highly maneuverable at all speeds and will be designed to aid in the retrieval of victims, animals, and objects from the water. While Lake Anna is bordered by Louisa, Orange, and Spotsylvania Counties, the Spotsylvania County Sheriff's Office is the primary local law enforcement agency to conduct patrol on the lake. As needed, Spotsylvania County Sheriff's Office can respond to emergencies in other counties' jurisdictions. Ensuring safe response to emergencies is paramount, and an upgraded patrol boat will increase safety, improve the ability to respond, and assist the Sheriff's Office in its goal of increasing lake patrol days from one day a week to three.

Grant Project Description

Utilizing the curriculum from the International Critical Incident Stress Foundation, Inc. (ICISF), by September 30, 2018 the Spotsylvania County Sheriff's Office will have a certified Wellness and Maintenance Response Team in place consisting of 13 members that will assist law enforcement staff and their families to more effectively address crisis situations as well as the unique stresses that impact the law enforcement profession. This will be measured by the attendance certifications test for the 3 instructors. The 3 instructors will then be responsible for conducting in-house training for the remaining 10 Wellness and Maintenance Response team members. The Sheriff's Office will also increase the number of Honor Guard members, a division of the Wellness and Maintenance Response Team, from 9 to 21.

Grant Project Description

Working in collaboration with a social media liability attorney, the Spotsylvania County Sheriff's Office will work to prevent future legal liabilities resulting from inherent nuances of federal and state speech laws and their impact on the public sector employees' constitutional rights. By September 2018, the Spotsylvania County Sheriff's Office will develop a new Social Media Liability Policy to avoid potential conflict between an employee's duty to the agency and the employee's constitutional right to freedom of expression. Training on the newly adopted policy will also be provided to approximately 300 sworn and non-sworn personnel employed by the Spotsylvania County Sheriff's Office.

Grant Project Description

The purpose of this project is to replace our old video surveillance system because our current system places Sheriff's Office staff, Court staff and the general public at risk. It also allows us outfit our Deputies with new bullet proof vests. Our current system was installed in 1994 and needs to be replaced with new up to date technology. The vests we have now are vest we borrowed from the local PD. They do not fit properly and are past their expiration date. This project would include the purchase and installation of a new digital color 16 camera system that would allow us to record daily activity in and around the courthouse and monitor possible threats to staff. This would aid us in responding to situations in a safe and responsible way. It would also allow us to purchase a new bullet proof vest for my staff that fit properly and have not expired.

Grant Project Description

The Suffolk Sheriff's Office has a need for supplemental funding to satisfy a growing need for less lethal weapons and safety equipment. Our limited city funded budget for uniforms and equipment is consumed by general uniform needs. The scope of this office's responsibilities is evolving, as is nature of the law enforcement profession. It is imperative that each deputy is equipped with both the needed training and the proper tools to safety and effectively carry out their duties. In order to maintain the safety of Suffolk citizens and sheriff's deputies were in need to update less than lethal equipment.

Grant Project Description

Virginia Western Community College Police Department is submitting for consideration a proposal for the funding of Body Worn Cameras (BWC). These cameras will be utilized by Campus Police Officers while on their normal patrols during interactions that a reasonable officer would consider to be evidentiary and/or actionable. It is the mission of the campus police department to be open and forthright when dealing with the citizens it serves. To that end, we continue to seek avenues of transparency that our constituents have come to expect. The standardized use of BWC technology will not only serve to promote an openness and accountability between officers and the public, but will fundamentally enhance our community policing efforts.

Grant Project Description

Wise Police Department has made it a priority to focus on better ways to protect our officers, citizens, and potential evidence. Taser less-lethal devices are designed to prevent serious injury to violent, aggressive, and combative subjects. In recent years, we have seen a significant increase in Opioid Drug abuse and Methamphetamine use, and as a result, our officers have begun to encounter combative and violent individuals under the influence of these drugs. In recent years, we have seen increased violence directed at police all over our nation and in many cases, those violent encounters are met with lethal force from police that are not equipped with a less-lethal device. Taser less-lethal devices can help to reduce those numbers of lethal force engagements. Just as Taser less-lethal devices can reduce lethal force encounters, body and vehicle equipped cameras can provide valuable, impartial evidence to protect both officers and citizens. We would like to purchase 12 Taser Less-Lethal devices, 3 In Car-Video Systems

New	0	\$15,635	\$ 0

Grant Project Description

It is requested that funding be awarded for the purchase of a new speed trailer manufactured by All Traffic Solutions, Inc. This Virginia based company provides a speed trailer that includes software that will compile speed information that can be used to better deploy officers where most needed. Speed violations can be tracked by hour, day and location and alerts can be sent to officers who can respond and monitor the area for violations if necessary. These features allow the police department to proactively identify and address traffic safety issues in a manner not possible with our current speed trailer. The trailer would also serve as a visual deterrent to motorists exceeding the posted speed limit. The deterrent can modify driving behavior for some motorists before any enforcement is ever taken.
