Grant Project Description

The Jail Mental Health Pilot Program implements a mental health program for the incarcerated female population. The focus is on therapeutic programming, case management, discharge planning, transitional medications, public transportation and specialized staff training. The goal is to reduce recidivism among female offenders by implementing a mental health program that focuses solely on female offenders suffering from mental illness. In this format, the jail therapist and re-entry specialist can devote the time necessary to run this program.

Grant Project Description

This program will continue to provide participants with enhanced opportunities to develop skills to be more successfully reintegrated into the community and put into place services to better provide for those basic unmet needs, all aimed at increasing mental capacities while decreasing the rate of recidivism in this sector of the population. This will ultimately improve the quality of life for a very vulnerable population, and will lead to more appropriate spending of tax dollars and usage of local and state hospital beds.
