

PAPIS Performance Measures

Definitions for implementation

New Clients:

New pre-release client and new post release client: Any individual requesting reentry or transitional services that is incarcerated in a state or local correctional facility 12 months nearing release or has been released from a correctional facility within the 12 months prior to initial contact with the PAPIS program.

If a post release case has been inactive for a period of (6) months or more treat as a new case.

New Client Demographics:

Transgender –male: a person who was born female but whose gender identity is male.

Transgender –female: a person who was born male but whose gender identity is female.

Non-binary: a person whose gender identity is not exclusively masculine or feminine

Other: a person whose gender identity does not fall into the previous categories of male, female, transgender- male, transgender-female or non-binary.

Unique Classification:

Homeless per HUD definition: definition includes four broad categories of homelessness: People who are living in a place not meant for human habitation, in emergency shelter, in transitional housing, or are exiting an institution where they temporarily resided.

Disabled per SSI/SDI: An individual who has been determined to be disabled by the Supplemental security Income program (SSI) or the Social Security Disability Insurance SDI program
