

# DCJS Community-Focused Trainings

The DCJS Active Attack Program (AAP) exists to help achieve the goals of preparedness and protection for the Commonwealth of Virginia. This statewide initiative promotes public safety through the “whole community approach,” which encourages citizens and first responders to work together should an active attack occur.

## Civilian Response Casualty Care (CRCC) In-Person (4 hours)

This in-person course of Civilian Response and Casualty Care (CRCC) provides a coordinated effort through a “whole community approach” to establish stakeholders within the community and empower citizens to become “immediate responders” who do **what they can, where they are, with what they have to work with** until first responders arrive. This course expands upon the basics of *Avoid, Deny, and Defend* to teach against an active attack, and how to provide life-saving medical aid to the injured from the *Stop the Bleed*® campaign.

**Available now – registration is required.**

Visit [www.dcjs.virginia.gov/training-events/civilian-response-and-casualty-care-crcc](http://www.dcjs.virginia.gov/training-events/civilian-response-and-casualty-care-crcc) to register and choose the desired date for your course.

CRCC In-person

## Virtual Training – (1.5 hours)

### Three Interactive Training Modules

Learn how to “R.A.C.E. to Survive the Five,” or the first five minutes of an active attack until first responders arrive. The following half-hour modules can be completed at your own pace after you register for the virtual program. You may scan the QR code to the right to access the “R.A.C.E.” training.

1. Preparedness
2. **React** and **Activate**
3. **Care** and **Evacuate**

Join DCJS on our learning management system, Benchmark Analytics, for this course and much more! Create your account, or log in at <https://training.benchmarkonline.app/dcjs>, then search “RACE” in the “Available Training” tab.
