

# The 2023 Virginia Division Safety Survey

## DATA BY QUESTION

### ***Background***

The Virginia Division Safety Survey is intended to provide school divisions and the Virginia Department of Criminal Justice Services (DCJS) with information on how best practices for school safety are being implemented across Virginia. The results of this survey provide valuable information on training and resource needs across the state. The survey is updated periodically to incorporate updates to best practices and to gather specific data needed to inform policymakers.

The web-based Virginia Division Safety Survey was developed and administered by the DCJS Virginia Center for School and Campus Safety (VCSCS). In May 2023, all Virginia school division emergency managers received directions for the 2023 School and Division Safety Surveys. Submission of the online survey is one component of the Virginia School Safety Audit requirement (*Code of Virginia § 22.1-279.8*). Once all schools in a division completed their School Safety Survey, a School Response Summary was provided to that division along with the link to complete their Division Safety Survey. Superintendents, or their designees, completed the web-based survey during the months of May through September of 2023, providing information that reflected conditions in their divisions during the 2022–2023 school year.

All 131 school divisions in the Commonwealth of Virginia completed the 2023 Division Safety Survey.

### ***The Findings***

Gray bars indicate whether survey branching occurred based on respondent answers. If the response did not trigger the follow-up question(s), the question(s) was/were not presented to the respondent.

#### IV. THREAT REPORTING AND ASSESSMENTS

Since 2013, and in accordance with [§ 9.1-184](#) and [§ 22.1-79.4](#), threat assessment teams are legislatively mandated in Virginia for all public schools grades K-12. Each division superintendent shall establish, for each school, a threat assessment team that shall include persons with expertise in counseling, instruction, school administration, and law enforcement and, in the case of any school in which a school resource officer is employed, at least one such school resource officer. Threat assessment teams may be established to serve one or more schools as determined by the division superintendent. It is also mandated that each team:

- Provide guidance to students, faculty, and staff regarding recognition of threatening or aberrant behavior that may represent a threat to the community, school, or self.
- Identify members of the school community to whom threatening behavior should be reported; and
- Implement school board policies for the assessment of and intervention with individuals whose behavior poses a threat to the safety of school staff or students.

In addition to requiring the establishment of threat assessment teams, the Code of Virginia [§ 22.1-79.4](#) also instructs that: "Each threat assessment team established pursuant to this section shall report quantitative data on its activities according to guidance developed by the Department of Criminal Justice Services."

**[§ 22.1-79.4](#) describes the roles of threat assessment teams and oversight committees in school divisions.**

- "A. Each local school board shall adopt policies for the establishment of threat assessment teams, including the assessment of and intervention with individuals whose behavior may pose a threat to the safety of school staff or students consistent with the model policies developed by the Virginia Center for School and Campus Safety (the Center) in accordance with [§ 9.1-184](#). Such policies shall include procedures for referrals to community services boards or health care providers for evaluation or treatment, when appropriate.
- B. The superintendent of each school division may establish a committee charged with oversight of the threat assessment teams operating within the division, which may be an existing committee established by the division. The committee shall include individuals with expertise in human resources, education, school administration, mental health, and law enforcement.
- C. Each division superintendent shall establish, for each school, a threat assessment team that shall include persons with expertise in counseling, instruction, school administration, and law enforcement and, in the case of any school in which a school resource officer is employed, at least one such school resource officer. Threat assessment teams may be established to serve one or more schools as determined by the division superintendent. Each team shall (i) provide guidance to students, faculty, and staff regarding recognition of threatening or aberrant behavior that may represent a threat to the community, school, or self; (ii) identify members of the school community to whom threatening behavior should be reported; and (iii) implement policies adopted by the local school board pursuant to subsection A."

<b>Priority Level/Classification System</b>	
<p><b>Priority 1 (Critical/Imminent):</b> Subject poses an imminent threat of serious violence or harm to self or others and has or may reasonably have significant impact on others. Requires immediate law enforcement and school administration notification, subject containment, target protection and safety planning, implementation of crisis response and notification protocols, ongoing assessment and management plan, and active monitoring.</p>	
<p><b>Priority 2 (High):</b> Subject poses, or is rapidly developing capability for, a threat of serious violence or harm to self or others, or is in urgent need of hospitalization or treatment. Targets/others are impacted. Typically involves environmental/systemic factors and consideration for precipitating events. Requires immediate notification of school administration and law enforcement, subject containment, target protection and safety plan, activation of crisis response protocols as appropriate, ongoing assessment and management plan, and active monitoring. Referrals as appropriate.</p>	
<p><b>Priority 3 (Moderate):</b> Subject does not pose a threat of serious violence or harm, though risk cannot be ruled out. Subject may be developing capability for harm and is engaging in aberrant or concerning behaviors that indicate need for assistance/intervention. Targets/others likely concerned and impacted. Environmental/systemic or precipitating factors may be present. Consider law enforcement/security notification as appropriate. Requires ongoing assessment and management plan, and active monitoring. Referrals as appropriate.</p>	
<p><b>Priority 4 (Low):</b> Subject does not indicate a threat of violence or harm to self or others; would or may benefit from intervention or assistance with concerns. Target, environmental/systemic, or precipitating events may be present at low levels. May involve some ongoing assessment management with passive monitoring and/or periodic active monitoring, Referrals as appropriate; close case if no team interventions or monitoring indicated.</p>	
<p><b>Priority 5 (Routine/No Known Concerns):</b> Subject does not indicate a threat of violence or harm to self or others or need for assistance or intervention at this time (or at the time of the assessment). No impact on others, environmental factors, or precipitants that need team intervention. Close case.</p>
