Photo ID Registration Card

The Department continues to make good progress towards the issuance of photo registration card; and is on target for the July 1, 2017 effective date. DMV and their photo ID vendor have already begun testing their part of the system. The Department should begin sending live data to DMV for testing by the end of this week. All registration related forms have been amended to reflect the legislative mandated fee changes regarding the issuance of photo ID registration cards. Renewal notices reflecting the new fees, were issued for registrations expiring on July 31, 2017. The new fees are also reflected in the online system for individuals expiring in July 31, 2017 going forward. A mass email was sent to all valid email addresses of record notifying registrants; businesses; schools; instructors; and compliance agents of the fee changes. This

information is on the DCJS website as well. July 1, 2017 falls during the 4th of July holiday therefore the live data will be transferred to DMV on July 5, 2017.

Phase two of the online system is in the testing stage; it will add the ability to submit initial and renewal training school applications, initial and renewal instructor applications and additional registration category applications. A rollout date has not yet been determined.
