Project Description

The Edward Byrne Memorial Justice Assistance Grant Program (JAG) allows states and units of local government, including tribes, to support a broad range of activities to prevent and control crime based on their own state and local needs and conditions. Grant funds can be used for state and local initiatives, technical assistance, training, personnel, equipment, supplies, contractual support, and information systems for criminal justice, including for any one or more of the following program areas: 1) law enforcement programs; 2) prosecution and court programs; 3) prevention and education programs; 4) corrections and community corrections programs; 5) drug treatment and enforcement programs; 6) planning, evaluation, and technology improvement programs; and 7) crime victim and witness programs (other than compensation). The Virginia Department of Criminal Justice Services will utilize Fiscal Year 2016 JAG funds to implement projects utilizing evidence-based practices designed to respond to the priority issues identified through a statewide criminal justice planning process and through subsequent surveys, analyses and consultations with stakeholders.
