ANNUAL PROGRESS REPORT FOR**

**Sexual Assault Services
Formula Grant Program**

Brief Instructions: This form must be completed for all Sexual Assault Services Formula Grant Program (SASP Program) subgrants received. The grant administrator or coordinator must ensure that the form is fully completed.

All subgrantees should read each section to determine which questions they must answer, based on the staffing and activities supported under this subgrant during the current reporting period. Subsection A1 and sections B, D, and E must be completed by all subgrantees. In subsection A2 and section C, subgrantees must answer an initial question about whether they engaged in certain activities during the current reporting period. If the response is yes, then the subgrantee must complete that section or subsection. If the response is no, the rest of that section or subsection is skipped.

For example, if you are an agency providing victim services using a SASP Program-funded advocate, you would complete A1, A2, B, D, and E (and answer “no” in C, if you did not use SASP Program funds to develop, revise, or distribute informational materials).

The activities of volunteers or interns should be reported if they were coordinated or supervised by SASP Program-funded staff or if SASP Program funds substantially supported their activities.

For further information on filling out this form, refer to the separate instructions which contain detailed definitions and examples illustrating how questions should be answered.

Staff Information

Were your SASP Program funds used to fund staff positions during the current reporting period?

Check yes if SASP Program funds were used to pay staff, including part-time staff and contractors.

- Yes—answer question 8
 No—skip to section B

8. Staff

(Report the total number of full-time equivalent (FTE) staff funded by the SASP Program grant during the current reporting period. Report staff by the function(s) performed, not by title or location. Include employees who are part-time and/or only partially funded with these grant funds as well as consultants/contractors. If an employee or contractor was employed or utilized for only a portion of the reporting period, prorate appropriately. For example, if you hired a full-time advocate in October who was 100% funded with SASP Program funds, you would report that as .25 FTE. Report all FTEs in decimals, not percentages. (Report the number of materials developed, substantially revised, or distributed with SASP Program funds during the current reporting period that describe or promote the services provided by the funded organization. Do not report materials or products designed to train professionals or educate victims about the dynamics of sexual assault or other issues related to sexual assault. Report the number of new materials developed or substantially revised during the current reporting period; the title/topic and intended audience for each type of material developed, revised, or distributed; and the number of materials used or distributed. If materials were created in or translated into a language other than English, including Braille, indicate the language. Report on materials that were newly developed or revised during the current reporting period whether or not they were used or distributed, and on materials that were previously developed or revised and used or distributed during the current reporting period. Do not report the number of materials printed or copied; only report the number developed or revised—in most cases that number will be one for each informational item described —and/or the number used or distributed. See separate instructions for examples of how to report under “developed or revised” and “used or distributed.”)

SECTION **D**

VICTIM SERVICES

All subgrantees must complete this section.

Count only victims/survivors served and victim services/activities provided by SASP Program-funded staff or supported with SASP Program funds.

11. Number of primary victims/survivors served, partially served, and victims/survivors seeking services who were not served

Please do not answer this question without referring to the separate instructions for further explanation and examples of how to distinguish among these categories. (Report the following, to the best of your ability, as an unduplicated count for each category during the current reporting period. This means that each victim/survivor who was seeking or who received services during the current reporting period should be counted only once in that reporting period. For purposes of this question, victims/survivors are those against whom the sexual assault was directed. Do not report secondary victims here.)

Primary victims/survivors	TOTAL
A. Served: Victims/survivors who received the service(s) they requested, if those services were funded by your SASP Program subgrant	<input style="width: 100px; height: 20px;" type="text"/>
B. Partially served: Victims/survivors who received some service(s), but not all of the services they requested, if those services were funded by your SASP Program subgrant	<input style="width: 100px; height: 20px;" type="text"/>
TOTAL SERVED AND PARTIALLY SERVED (11A + 11B)	<input style="width: 100px; height: 20px;" type="text"/>
C. Victims/survivors seeking services who were not served: Victims/survivors who sought grant-funded service(s) and did not receive the grant-funded services they were seeking, if those services were funded by your SASP Program subgrant	<input style="width: 100px; height: 20px;" type="text"/>

12. Number of secondary victims served

Please do not answer this question without referring to the separate instructions for further explanation and for examples of how and when to report secondary victims. (Report the following, to the best of your ability, as an unduplicated count for each category during the current reporting period. This means that each secondary victim who received services during the current reporting period should be counted only once. For purposes of this question, secondary victims are those who are indirectly affected by the sexual assault—e.g., children, siblings, spouses or intimate partners, grandparents, other affected relatives, friends, neighbors, etc.—except for the perpetrator of such victimization. Secondary victims do not need to be connected with a primary victim who is receiving services.)

14. Demographics of primary victims/survivors served or partially served

(Based on the primary victims/survivors reported in 11A and 11B, report the total numbers for all that apply. Because victims/survivors may identify in more than one category of race/ethnicity, the total for Race/ethnicity may exceed the total number of victims/survivors reported in 11A and 11B. However, the total number of victims/survivors reported under Race/ethnicity should not be less than the total number of victims/survivors reported in 11A and 11B. The total number of victims/survivors reported under "Gender" and the total number reported under "Age" should equal the total number of victims/survivors reported in 11A and 11B. Those victims for whom gender, age, and/or race/ethnicity are not known should be reported in the "unknown" category. Do not report demographics for secondary victims.)
