

Appendix A:

Driver Stop DIs for Individual Agencies

Tables 15a–15e show, for each of the 145 agencies serving cities and counties, the driver stop DI calculated for each driver racial/ethnic group (that is, how many drivers in each group were stopped relative to the group’s driving-age representation in the resident population of the locality served by the agency) broken out by both all drivers stopped and local residents only. The number of stops made by each agency for drivers in each group is also shown for both all stops and local residents. The numbers of stops reported by each agency will vary due to traffic volumes in each area, and because different agencies reported data for different periods of time for the nine-month period July 1, 2022 – March 31, 2023 (that is, some agencies with high traffic volumes may have reported fewer stops than agencies with lower traffic volumes because the high-volume agency may have reported only six months of data). The number of days of data reported for each agency (“Number of Traffic Days”) is also shown in the tables (365 days = January 1, 2023 – December 31, 2023). This number of days pertains to the agency’s CPA data reported overall rather than data for a single race/ethnicity group.

Tables are shown for Black, Hispanic, American Indian, White and Asian drivers.

DIs for the joint agency York-Poquoson Sheriff’s Office were calculated based on the driving-age resident population figures for the joint localities served by the Sheriff’s Office.

Several cautions should be kept in mind when examining the DIs for each agency in the tables that follow:

- Driver stop DIs calculated for agencies with a very small resident population and very small numbers of stops are suspect due to the small numbers involved and should not be considered meaningful. This applies to DIs for all racial/ethnic groups. Because they are based on a subset of the total stop count, local resident DIs are especially prone to this issue and the number of local resident drivers stopped should always be checked against the unfiltered number of drivers stopped when comparing respective DIs. See the previous section *Statewide Disparity Index (DI)* for more explanation. For further context on all stops performed by a given agency and their outcomes, refer to the individual City/County Agency tables in Appendix C.

**Table 15a. Agency Driver Stop Disparity Indexes (DIs) for Black/African American Drivers
145 Agencies Serving Cities and Counties**
