Biannual Lethality Assessment Program (LAP) data collection survey worksheet

To best describe and assess Virginia's lethality assessment programs, we are collecting monthly data based on LAP activities. This worksheet should help you organize and collect the data that we are requesting. Our request for data will occur on a biannual (twice yearly) schedule. Typically, January – June data will be collected in July; July – December data will be collected in January.

You will be sent a reminder at the end of each reporting period with a link and password to the online data collection survey. This worksheet is provided to assist you with collecting the data prior to reporting online.

For each of the law enforcement agencies and the domestic violence agency in your program, please provide the following information for the period from January 1, 2019 through June 30, 2019.

1. What is the name of your community's lethality assessment program's partnering domestic violence (DV) agency?

2. Please list each of your community's lethality assessment program's partnering law enforcement agencies (LEAs).
